"Intermediate Financial Accounting Volume 2 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for the second of two in Intermediate Financial Accounting courses. It presumes that students have already completed the Introductory Financial Accounting, and the first Intermediate Financing Accounting course. The textbook reflects both current International Financial Reporting Standards (IFRS) and ASPE. This textbook covers all topics essential to a second level Intermediate Accounting course: current, long-term and complex liabilities, income taxes, pensions, leases, shareholders' equity, earnings per share, statement of cash flows including the direct approach, effects of changes and errors, and disclosures and analysis. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com."--BCcampus website.

For intermediate and financial accounting courses at the MBA and undergraduate level, or a supplement to financial statement analysis texts. This collection of financial accounting cases is designed to help students become financial statement users. Each case utilizes financial statement information (balance sheet, income statement, statement of cash flow and/or footnotes) and a number of topical questions. Students use the financial

statement information to infer and interpret the economic events underlying the numbers. Related articles taken from business publications accompany some cases, and information from the articles is incorporated into the case question material. Also available the Pearson Custom Case Program.

Principles of Group Accounting under IFRS Cengage Learning "Intermediate Financial Accounting Volume 1 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for a first course in Intermediate Financial Accounting, and presumes that students have already completed one or two Introductory Financial Accounting courses. The textbook reflects current International Financial Reporting Standards (IFRS), such as IFRS 15 – Revenue from Contracts With Customers. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com. It also focuses on more difficult intermediate accounting topics that match prerequisite requirements for students advancing to a second level Intermediate Financial Accounting course. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here."--BCcampus website.

APPLYING IFRS STANDARDS

Pearson Education

INTERMEDIATE ACCOUNTING, 11e, INTERNATIONAL EDITION provides the perfect combination of professional language and vibrant pedagogy to facilitate the transition from financial principles to the larger environment of financial reporting. To prepare students for professional accounting careers, the text's comprehensive coverage of GAAP and discussion of IFRS is clearly and consistently presented throughout the text. This coverage complements the authors' insight, which is in both the in-text commentary and the fully coordinated, author-written end-of-chapter material.

Kieso Intermediate Accounting Intermediate Accounting A professional perspective to implementing IFRS 10, 11, and 12 The new International Financial Reporting Standards (IFRS) 10, 11, and 12 are changing group accounting for many businesses. As business becomes increasingly global, more and more firms will need to transition using the codes and techniques described in Principles of Group Accounting under IFRS. This book is a practical guide and reference to the standards related to consolidated financial statements, joint arrangements, and disclosure of interests. Fully illustrated with a step-by-step case study, Principles of Group Accounting under IFRS is equally valuable as an introductory text and as a reference for addressing specific issues that may arise in the process of consolidating group accounts. The new international standards will bring about significant changes in group reporting, and it is essential for accountants, auditors, and business leaders to understand their implications. Author Andreas Krimpmann is an internationally recognized authority on the transition from GAAP to IFRS, and this new text comes packaged with GAAP/IFRS comparison resources that will help make the changes clear. Other bonus resources include an Excel-based consolidation tool, checklists, and a companion website with the latest information. Learn about: Definitions, requirements, processes, and transition

techniques for IFRS 10, 11, and 12 covering group level accounting Practical implementation strategies demonstrated through a clear case study of a midsize group Key concepts related to consolidated financial statements, joint ventures, management consolidation, and disclosure of interests Comparisons between GAAP and IFRS to clarify the required changes for international firms Whatever stage of the consolidation process you are in, you will appreciate the professional perspective in Principles of Group Accounting under IFRS.

SAP PRESS While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

This textbook, originally by D. Annand and H. Dauderis, was intended for a first course in introductory financial accounting. It focuses on core introductory financial accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach; this consistency throughout the book reduces confusion for the introductory student. This most recent revision by D. Marchand converted the text from IFRS to reflect the Generally Accepted Accounting Principles of the United States (U.S. GAAP).

Revsine/Collins/Johnson/Mittelstaedt emphasizes both the process of financial reporting and the analysis of financial statements. This book employs a true "user" perspective by discussing the contracting and decision implications of accounting and this helps readers understand why accounting choices matter and to whom. Revsine, Collins, Johnson, and Mittelstaedt train their readers to be good financial detectives, able to read, use, and interpret the statements and-most importantly understand how and why managers can utilize the flexibility in GAAP to manipulate the numbers for their own purposes.

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. This intermediate accounting text links accounting principles to the central activities of a business. A user/decision making approach, combined with the necessary coverage of GAAP, prepares the student to understand accounting in terms of a business' activities, which reflects the broadening definition of accounting today. The text's efficient format does not overwhelm students, and its accessible style provides a nice alternative to more encyclopedic, reference-book approaches. The book offers a nice blend of the core concepts of accounting principles, with procedural applications. This approach is supplemented with the most expansive set of end-of-chapter material on the market, thorough integration of today's hot topics (it's the only intermediate text that has an entire chapter on Earnings Management), as well as a robust selection of student and instructor print and technology resources.
