e la sostenibilità goWare & Accademia della Crusca Annuario delle regioni goWare & Accademia della Crusca High pressure has become a basic variable in many areas of science and engineering. It extends from disciplines of geophysics and astrophysics through chemistry and physics to those of modern biology, electrical and chemical engineering. This breadth has been recognized for some time, but it was not until the early 1960's that an international group of scientists and engineers established the Association Internationale for Research and Advancement of High Pressure Science and Technology (AIRAPT)

for bringing these various aspects of high pressure together at an international conference. The First AIRAPT International High Pressure Conference was held in 1965 in France and has been convened at approximately two to three year intervals since that time. The past four AIRAPT International High Pressure Conferences have been held in Germany, Scotland, Japan and the U.S.S.R. Since the first meeting of this kind, our understanding of high pressure behavior of physical systems has increased greatly. *Un futuro da precari?* All'Insegna del Giglio 1796.229

## 2020

All’Insegna del Giglio  
In questo anno, il 2023,  
il Ministero degli Affari  
Esteri e della  
Cooperazione  
Internazionale ha  
scelto di dedicare la  
XXIII Settimana della  
lingua italiana nel  
mondo all’italiano e la  
sostenibilità. È una  
scelta importante, che  
sottolinea come il tema  
della sostenibilità, nelle  
sue varie curvature,  
vada affrontato anche  
con il contributo della  
lingua; e, va  
sottolineato, anche con  
il contributo -  
essenziale - della  
lingua italiana. Il  
movimento di  
sostegno, promozione  
e azione a favore di  
uno sviluppo  
sostenibile è globale e  
pertanto  
internazionale, e quindi  
linguisticamente

dominato dall’inglese.  
Ma perché una politica  
di sostenibilità sia  
realmente realizzabile  
è necessario  
coinvolgere tutti i  
cittadini, a ogni livello,  
perché soltanto con  
una reale e cosciente  
condivisione generale  
un così difficile  
risultato può essere  
raggiunto; e per avere  
l’appoggio di tutti è  
necessario che tutti  
comprendano bene le  
ragioni, espresse in  
modo chiaro a  
prescindere dall’età,  
dall’istruzione, dalla  
provenienza geografica  
e sociale. Sviluppo  
sostenibile significa  
anche farsi il giusto  
carico della società  
nelle sue molteplici  
sfaccettature,  
guardando alla parità  
di genere, e guardando  
anche alla  
salvaguardia e allo  
sviluppo delle lingue in

un contesto realmente plurilingue e multilingue. Linguisti e non linguisti offrono in questo libro il loro contributo alla riflessione sulla sostenibilità, nel modo canonico della trattazione scientifica, ma anche in quello eccentrico della creazione artistica.

*Aesthetic Themes in Pagan and Christian Neoplatonism* Oxbow Books

Optimal nutrition is important during pregnancy and lactation for the health of both the mother and infant. Chronic deficiencies of both macronutrients and micronutrients are well established in developing countries. Although in developed countries overconsumption of macronutrients is a

major issue, micronutrient deficiencies which occur concomitantly are no less of a concern. Furthermore in developed countries there is also the risk of excessive micronutrient intake from dietary supplements.

Micronutrients have a role in fetal and neonatal health and also health in later life. Micronutrient deficiency or toxicity during pregnancy or early life can permanently affect developing tissues, resulting in adverse growth and development of the infant which is associated with chronic diseases in adulthood. An aberrant micronutrient intake during pregnancy or lactation can also have

detrimental effect on the mother both in the neonatal period and in later life.

**I Bronzi Antichi** La Guida Monaci del sistema ItaliaL'italiano e la sostenibilità The book addresses the topic of EU legitimacy by exploring the forms, origins and effects of citizens' support to EU institutions. Through examining the wide-ranging levels of support, the authors show how these multi-faceted attitudes cast shade on the outdated, somewhat one-dimensional concept of Euroscepticism. Di Mauro and Memoli not only observe how political issues and the economic crisis affect public opinion, but also demonstrate how national contexts play a crucial role in

shaping attitudes towards Europe at any level of support. This volume shows how the lack of accountability in the EU system makes it increasingly vulnerable to the negative effects of economic and societal shocks, and the 'national lens' that we view the EU through influences our voting choices.

### **ESSENTIALS OF SOCIAL PSYCHOLOGY**

Lulu.com  
Bronzebearbeitung.  
Micronutrients Intake and Status during Pregnancy and Lactation Springer Science & Business Media

Il volume esamina, con completezza e chiarezza espositiva, i riferimenti normativi, interni e comunitari,

che disciplinano la tutela della vittima del reato nel nostro ordinamento. Scopo del testo è soprattutto individuare e approfondire profili di discussione a favore di una revisione della Carta Costituzionale al fine di riconoscere una specifica disciplina volta a ricercare una maggior tutela per tutte le vittime del reato. La prefazione è a cura dell'avv. Enrico Sirotti Gaudenzi. I compensi degli autori verranno devoluti all'Osservatorio Nazionale Sostegno Vittime.

Il matto, il mago, il mondo "O'Reilly Media, Inc."

Essentials of Social Psychology provides a clear, concise and engaging introduction to the field. Covering all the major topics and

theoretical perspectives, this exciting new book provides straightforward explanation of key terms and concepts in a lively and student-friendly manner. Debates and controversies are brought to life and the wider practical relevance of the subject is emphasised throughout. Pedagogical features that appear across the book include Research Classic sections which describe classic studies, Research Applications boxes that highlight more contemporary developments in social psychological research and their practical applications, Real World features that look at the everyday relevance of social

psychology, and Literature, Film and TV features that demonstrate how social psychological concepts are dealt with in popular media. An international balance of research alerts students to the cross cultural dimensions of social psychology. *Essentials of Social Psychology* is accompanied by MyPsychLab, an interactive online study resource designed to help students to consolidate and further their understanding. Together, the book and online support make this an ideal resource for those studying the subject for the first time, or as part of a more general programme of study.

Giuffrè Editore  
Andrology for the Clinician consists of two parts: In Part One, the busy clinician can easily find the problem-orientated information he or she needs on such issues as male factor fertility problems, male contraception, and male genital tract infection and tumours. Part Two contains in-depth subject-orientated information and adds important scientific background information to the recommendations received in Part One. Several leading experts have contributed to this work, which has been extensively subedited by world-renowned editors to ensure a well-structured didactic

design and homogeneous content. This outstanding book is of great value for all Urologists, Andrologists, Dermatologists, Endocrinologists, Gynaecologists, Reproductive Biologists, GPs, Gerontologists, Psychologists, Psychiatrists, Paediatricians and anyone else interested in the problems of male sex and constitution.

Intelligent Distributed Computing XIII Giuffrè Editore

Whilst aesthetics as a discipline did not exist before the modern age, ancient philosophers give many insights about beauty and art. In Late Antiquity Plotinus confronted the problem of beauty and the

value of the arts. Plotinus' reflections have an important role in the development of the concept of the value of artistic imagination during the Renaissance and the Romantic era, but he also influenced the artistic taste of his time. *Aesthetic Themes in Pagan and Christian Neoplatonism* reconstructs the aesthetic philosophical views of Late Antiquity, and their relation to artistic production of the time. By examining the resonance of Plotinus' thought with contemporary artists and with Christian thinkers, including Gregory of Nyssa, the book demonstrates the importance of Plotinus' treatise *On Beauty* for the development of late ancient aesthetics. The Cappadocian

fathers' interest in Plotinus is explored, as well as the consequent legacy of the pagan thinker's philosophy within Christian thought, such as the concept of beauty and the narration of the contemplative experience. Uniquely utilising philological and philosophical insight, as well as exploring both pagan and Christian philosophy, *Aesthetic Themes in Pagan and Christian Neoplatonism* represents the first comprehensive synthesis of aesthetic thought of Late Antiquity.

[Advanced Bash Scripting Guide](#) CEDAM Paulo Freire's work is always animated by a strong and fundamental affirmative spirit which calls on people to join

together to make change, as opposed to simply waiting around for it to happen. This text on his contemporary importance includes essays by established and new thinkers in the *Critical Pedagogy* perspective.

Organization of the UN (FAO)  
 This publication capitalizes on the experience of scientists from the North Africa and Near East countries, in collaboration with experts from around the world, specialized in the different aspects of greenhouse crop production. It provides a comprehensive description and assessment of the greenhouse production practices in use in Mediterranean climate areas that have helped diversify vegetable production and increase productivity. The publication is also meant to be used as a reference and tool for trainers and growers as well as other actors in the greenhouse vegetables value chain in this region.

Globalizing the student rebellion in the long '68 Springer Nature

The International Centre for Advanced Mediterranean Agronomic Studies (CIHEAM), established in 1962, is an intergovernmental organization of 13 countries: Albania, Algeria, Egypt, France, Greece, Italy, Lebanon, Malta, Morocco, Portugal, Spain, Tunisia and Turkey. Four institutes (Bari, Italy; Chania, Greece; Montpellier, France; and Zaragoza, Spain) provide postgraduate education at the Master of Science level. CIHEAM promotes research networks on Mediterranean agricultural priorities, supports the organization of specialized education

in member countries, holds seminars and workshops bringing together technologists and scientists involved in Mediterranean agriculture and regularly produces diverse publications including the series Options Méditerranéennes. Through these activities, CIHEAM promotes North/South dialogue and international co-operation for agricultural development in the Mediterranean region. Over the past decade, the Mediterranean Agronomic Institute of Zaragoza has developed a number of training and research-supporting activities in the field of agroecology and sustainability of agricultural production systems. Some of

these activities have been concerned with the rational use of pesticides and more particularly with the implementation of integrated control systems in order to gain in efficacy and decrease both the environmental impact and the negative repercussions for the commercialization of agricultural products.

FahrenHouse

This book gathers research contributions on recent advances in intelligent and distributed computing. A major focus is placed on new techniques and applications for several highly demanded research directions: Internet of Things, Cloud Computing and Big Data, Data Mining and Machine Learning, Multi-agent and

Service-Based Distributed Systems, Distributed Algorithms and Optimization, Modeling Operational Processes, Social Network Analysis and Inappropriate Content Counteraction, Cyber-Physical Security and Safety, Intelligent Distributed Decision Support Systems, Intelligent Human-Machine Interfaces, VisualAnalytics and others. The book represents the peer-reviewed proceedings of the 13th International Symposium on Intelligent Distributed Computing (IDC 2019), which was held in St. Petersburg, Russia, from October 7 to 9, 2019.

Science & Business

## Media

This volume brings us closer to the dynamics of the educational world, especially students, from a wide range of national and regional scenarios, with a special focus on Europe and Latin America. In this way, a plural panorama is shown, in which the stories centered on the usual protagonists of the 1968 processes are accompanied by other scenarios, often considered secondary, but which this volume inserts in a more general story that helps us understand how the processes of the 60s were not concrete or national, but got an absolute regional and global significance. We see a complex process of transnational demand that ranged from

Eastern Europe, included in the Soviet bloc, to the very heart of the Western Hemisphere, with the United States as the main axis, passing through the politically varied Western Europe, submitted to the same processes and cultural influences. In this sense, to the works that deal with the United States and France, are added others focused on Italy, Spain and Brazil, as priority focus areas, together with other European and Latin American landscapes: Great Britain, Portugal, Greece, Slovakia, Hungary, Chile, Uruguay and Mexico, without missing, in addition, the case of one of the most unique actors on the international scene: the State of Israel. With

this volume, we want to continue advancing in the knowledge of the educational world of the second half of the 20th century. Great are the challenges of this world at the beginning of the 21st century and many of them were already evident in 1968. Others have materialized as a result of those events. To confront both of them, we must first identify and analyze them, as well as being aware of their magnitude. We hope that all this work can contribute to this aim.

*La Tutela della Vittima del Reato De Gruyter*  
Saur

Il presente Volume si rivolge a decisori pubblici, università, giudici, avvocati ed economisti per una pronta consultazione e per approfondimenti

scientifici nei settori della tutela dell'ambiente, della biodiversità, degli ecosistemi, del clima e dello sviluppo economico sostenibile. La trattazione degli argomenti, affidata ad Autori del mondo accademico e professionale, si propone di offrire una lettura sistematica e unitaria, di tipo relazionale e interdisciplinare, delle più significative disposizioni sovraordinamentali e ordinamentali (Agenda 2030, Green Deal, NGEU, RFF, PNRR) dell'attuale fase di transizione ecologica, climatica ed energetica: si tratta delle fonti degli emergenti principi, diritti e doveri della sostenibilità ambientale, da

combinare con i principi di precauzione e di azione preventiva tradizionalmente preposti alla tutela dell'ambiente e alla lotta ai cambiamenti climatici. La finalità è quella di orientare il lettore di fronte alla imponente mole di regole adottate (quasi con cadenza mensile) per centrare gli obiettivi di sostenibilità

e neutralità climatica entro le date indicate nel calendario mondiale e di facilitare la individuazione ad ogni livello (legislativo, amministrativo e giudiziario) delle azioni e rimedi idonei a garantire la più elevata ed efficace tutela dell'ambiente, del clima e della salute delle Persone in un'ottica di Planetray Health.
