[Integrate Maximo with ArcGIS map service - basic steps ...](#) Gis Integration To MaximoSSP worked extensively with an Esri/ArcFM™ GIS integration to Maximo between the years of 2007 and 2011. Our participation was twofold. First, SSP won the contract to convert much of the asset data that had previously been managed only in the GIS into Maximo locations, assets, classifications, and work order history. Integrating Maximo to GIS - SSP InnovationsQ: Why integrate GIS and Maximo instead of continuing to use them separately? A: Jason: For CoServ, the need for better GIS and Maximo integration arose from the problems occurring with historical leak survey tracking records. Like many in the industry, our Gas Division's leak surveys were being performed "the old fashioned way." Why Integrate GIS and MAXIMO Solutions ... - Starboard ...Maximo Monday - May 5, 2008 Nancy Lerner, Vice President Skip Heise, GIS Business Manager Integrating IBM Maximo® and ESRI ArcGIS® to Effectively Manage Assets, Work, and Customer Service Integrating IBM Maximo and ESRI ArcGIS to Effectively ... We developed the integration of DH.GIS with IBM's Maximo - a system used by the company for physical asset management. The project covered building two separate interfaces - attribute and graphical: The attribute interface allows exchanging alphanumeric data of asset components, such as: Smallworld DH.GIS - Maximo integration Gis Integration To Maximo Amy Tatum, Solutions Director with Starboard Consulting, recently joined

Jason Dietrich, SDE Administrator with CoServ Electric and Gas, to discuss in more detail below how their gas leak tracking enterprise solutions integrate GIS with Maximo. Together, Amy and Jason have a combined 30 years of industry experience. Gis Integration To Maximo - securityseek.com2) Consume Maximo® Anywhere within ArcGIS Runtime - This is an advanced solution with all the advantages of 1) above but a tighter integration. 3) Maximo® Anywhere to ArcGIS Hybrid App ... Mobile GIS: Integrating ArcGIS with Maximo® • Integrated GIS functionality provides access to data held within the organization and by outside agencies.
