Dizionario di filosofia Religion, Law and the Politics of Ethical Diversity Routledge

Religion, Law and the Politics of Ethical Diversity Alinea Editrice Les champs de la recherche, de la pédagogie et de la thérapeutique médicales sont aujourd'hui bouleversés par la volonté de prendre au mieux en compte la réflexivité de tous les protagonistes. Associant chercheurs, malades et professionnels de la santé, cet ouvrage analyse des partenariats inédits de soins, de formation et de recherche qui en découlent en Europe, au Québec et au Brésil. Il fournit un point d'étape des nouvelles mobilisations de la réflexivité des malades et des soignants et de leurs effets, observant tant le déploiement de figures formalisées de représentants des usagers, patients experts, patients formateurs et patients co-chercheurs, que celui des premières promotions de docteurs en sciences infirmières. Deux conclusions s'en dégagent : d'une part la progression de la prise en compte des savoirs des malades métamorphose les notions d'éducation thérapeutique et de démocratie sanitaire et questionne la formation des médecins et soignants ; d'autre part la construction d'enseignements universitaires des sciences infirmières oblige à la formalisation d'un modèle encore implicite de formation par la recherche. Plus généralement, dès lors que soigner ou maintenir en bonne santé est pensé comme un ensemble de coopérations entre personnes capables de réfléchir et disposant de leur libre arbitre, la valorisation de la réflexivité de tous devient essentielle. *Nouvelles coopérations réflexives en santé* CRC Press

A leitura do profícuo estudo do professor Pablo Feitosa, logo de cara deixa clara a necessidade da rediscussão de alguns temas estáticos no âmbito do direito administrativo, que reclamam uma reanálise à luz da interdisciplinaridade. Conceitos como o de Estado, interesse público e o próprio significado do poder precisam ser urgentemente redimensionados nos estudos de direito administrativo.

Fashion is at once a familiar yet mysteriously elite world that we all experience, whether we're buying a new pair of jeans, reading Vogue, or watching the latest episode of Project Runway. Lars Svendsen dives into that world in Fashion, exploring the myths, ideas, and history that make up haute couture, the must-have trends over the centuries, and the very concept of fashion itself. Fashion opens with an exploration of all the possible meanings encompassed by the word "fashion," as Svendsen probes its elusive place in art, politics, and history. Ultimately, however, he focuses on the most common use of the term: clothing. With his trademark dry wit, he deftly dismantles many of the axioms of the industry and its supporters. For example, he points out that some

of the latest fashions shown on runways aren't actually "fashionable" in any sense of the word, arguing that they're more akin to modern art works, and he argues against the increasingly prevalent idea that plastic surgery and body modification are part of a new wave of consumerism. Svendsen draws upon the writings of thinkers from Adam Smith to Roland Barthes to analyze fashion as both a historical phenomenon and a philosophy of aesthetics. He also traces the connections between the concepts of fashion and modernity and ultimately considers the importance of evolving fashions to such fields as art, politics, and philosophy. Whether critiquing a relentless media culture that promotes perfect bodies or parsing the never-ending debate over the merits of conformity versus individual style, Lars Svendsen offers an engaging and intriguing analysis of fashion and the motivations behind its constant pursuit of the new.

Questo volume si inserisce in una linea di riflessione che, nella sua fisionomia generale, va ricondotta all'ampio dibattito, nazionale ed internazionale, sui temi connessi alle trasformazioni dell'identità della biblioteca e della biblioteca pubblica in particolare, secondo una prospettiva che è anche quella della "lunga durata", prendendo in esame questioni che hanno a che fare con la dimensione spaziale di questa problematica identità, o che comunque dal concetto di spazio, nella sua indefinita dimensione teorica, estetica, metaforica, traggono origine. A questo asse centrale del libro si collegano ulteriori temi, dalla discussione della evoluzione in senso 'sociale' della biblioteconomia alla riflessione storico-architettonica sul concetto di 'canone', dalla ipotesi di "arricchire" lo spazio percettivo della biblioteca fino al tema, di grande interesse, della selezione, raccolta ed analisi dei dati digitali. Dati che, in quanto tracce, rendono disponibili informazioni sulle azioni e sulle attività riferibili al modo con cui le persone "leggono" la forma dell'ambiente bibliotecario e del suo complesso ecosistema informativo.

The late anthropologist Valerio Valeri (1944-98) was best known for his substantial writings on societies of Polynesia and eastern Indonesia. This volume, however, presents a lesser-known side of Valeri's genius through a dazzlingly erudite set of comparative essays on core topics in the history of anthropological theory. Offering masterly discussions of anthropological thought about

ritual, fetishism, cosmogonic myth, belief, caste, kingship, mourning, play, feasting, ceremony, and cultural relativism, Classic Concepts in Anthropology, presented here with a critical foreword by Rupert Stasch and Giovanni da Col, will be an eye-opening, essential resource for students and researchers not only in anthropology but throughout the humanities.

LA SAGGEZZA DEGLI ELLENI

Mimesis

This book is a study of ancient views about 'moral luck'. It examines the fundamental ethical problem that many of the valued constituents of a well-lived life are vulnerable to factors outside a person's control, and asks how this affects our appraisal of persons and their lives. The Greeks made a profound contribution to these questions, yet neither the problems nor the Greek views of them have received the attention they deserve. This book thus recovers a central dimension of Greek thought and addresses major issues in contemporary ethical theory. One of its most original aspects is its interrelated treatment of both literary and philosophical texts. The Fragility of Goodness has proven to be important reading for philosophers and classicists, and its non-technical style makes it accessible to any educated person interested in the difficult problems it tackles. This edition, first published in 2001, features a preface by Martha Nussbaum.

This book features a theoretical depiction of the Italian phenomenological tradition. It brings together the main Italian phenomenologists of the present to discuss the positions and theories of the most important Italian phenomenologists of the past. Those profiled include Antonio Banfi, Sofia Vanni Rovighi, Enzo Paci, Dino Formaggio, Giuseppe Semerari, Enzo Melandri, Paolo Bozzi, Carlo Sini, Giovanni Piana and Paolo Parrini. This

collection shows not only the variety of perspectives but also the inner consistency, peculiarity and originality of the tradition. Moreover, the contributors connect continental and analytical traditions, the scientific approach and existentialism. Italian phenomenology, the rise of which dates back to Antonio Banfi's writings on Husserl in 1923, proves to be from its very beginning, a relational philosophy. It is a philosophy that is capable, precisely by means of its method, of developing actual forms of communication and exchange among the different sciences. This book will provide graduate students and researchers with unique insights into the Italian school of phenomenological thought.

TRUTH AND INTERPRETATION

Mirco Mariucci

This book provides a multidisciplinary and comparative look at the contemporary phenomenon of conscientious objection or contestation in the name of religion and examines the key issues that emerge in terms of citizenship and democracy. These are analysed by looking at the different ways of challenging or contesting a legal obligation on the grounds of religious beliefs and convictions. The authors focus on the meaning of conscientious objection which asserts the legitimacy of convictions — in particular religious convictions — in determining the personal or collective relevance of the law and of public action. The book begins by examining the main theoretical issues underlying conscientious objection, exploring the implications of the protection of freedom of conscience, the place of religion in the secular public sphere, and the recognition and respect of ethical pluralism in society. It then focuses on the question of exemptions and contestations of civil norms, using a multidisciplinary approach to highlight the multiple and diverse issues surrounding them, as well as the motives behind them. This book will be of great interest to scholars, specialists, and graduate and advanced undergraduate students who are interested in issues of religious diversity. Researchers and policymakers in think-tanks, NGOs and government units will find the volume useful in helping to identify key issues in understanding the phenomenon of conscientious objection and its implications in managing ethical diversity in contemporary societies.

"A surprise best-seller which, apparently, has the power to turn even the most feeble of us into axe-wielding lumberjacks." —Independent The latest Scandinavian publishing phenomenon is not a Stieg Larsson-like thriller; it's a book about chopping, stacking, and burning wood that has sold more than 200,000 copies in Norway and Sweden and has been a fixture on the bestseller lists there for more than a year. *Norwegian Wood* provides useful advice on the rustic hows and whys of taking care

of your heating needs, but it's also a thoughtful attempt to understand man's age-old predilection for stacking wood and passion for open fires. An intriguing window into the exoticism of Scandinavian culture, the book also features enough inherently interesting facts and anecdotes and inspired prose to make it universally appealing. The U.S. edition is a fully updated version of the Norwegian original, and includes an appendix of U.S.-based resources and contacts. "A how-to guide as well as a celebration of wood—its scent, its variability, and the way it can connect modern life to simpler times . . . You don't need to have a wood-burning stove or fireplace to be captivated by the craft and lore surrounding a Stone Age method of creating heat." —The Boston Globe "The book has spread like wildfire." —Daily Mail "A how-to book with poetry at its heart." —The Times Literary Supplement

The encyclopedia of philosophy. Supplement John Wiley & Sons Da sempre al centro del dibattito e nell'immaginario comune il confronto tra il cristianesimo e le scienze è stato declinato come un rapporto conflittuale o irenico tra fede e ragione, creazione ed evoluzione. Ma siamo sicuri che sia il modo adeguato di istruire il problema? La teologia è solita interloquire con la fisica, ma cosa succede quando si confronta con la biologia e la sua vicenda? Dall'incontro con la "teoria dell'evoluzione" e il "racconto evolutivo" si aprono questioni filosofiche e teologiche inedite, fondamentali per il senso della storia e della nostra esistenza. La posta in gioco è l'uomo, lo stesso descritto dal racconto biblico. Da questo confronto si ricavano gli elementi necessari alla credibilità del messaggio cristiano, tra cui il valore del racconto biblico e il Dio di Gesù Cristo, una maggiore coscienza verso la storia e l'antropologia fondamentale.

Come si costruisce la memoria del passato? È possibile affermare

che i media e, in particolare, quelli audiovisivi abbiano modificato le pratiche sociali e culturali del ricordo? Quali canali percorre oggi la parola del testimone? In quale modo si sono trasformati gli atti performativi dei lasciti memoriali, dal momento che la trasmissione dei ricordi personali si sta sempre più volgendo verso un modello transgenerazionale? Privilegiando una prospettiva antropologico-visuale, il volume cerca di rispondere a queste domande a partire da un'indagine sull'immagine documentaria, nelle sue molteplici trasmissioni medialità: dal documentario alle installazioni multimediali, dal cinema sperimentale agli archivi digitali on line, dai musei audiovisivi ai film amatoriali. La ricerca si basa sulla ricostruzione storico-teorica dei principali contributi nel settore dei Memory Studies in relazione agli studi sul cinema e i media audiovisivi. Nello specifico, il testo propone l'analisi di tre pratiche documentaristiche, capaci di interpretare e attestare i nuovi costrutti genealogici e le più recenti forme di eredità delle memorie: il found footage, realizzato con film privati; la videotestimonianza; le immagini-souvenir girate nei luoghi del post-trauma.

PHENOMENOLOGY IN ITALY

Rodopi

This book is an anthology of philosophical essays. Its principle is simple: the moments of our life are original. What we perceive and think does not arise from an elusive and illusive entity called God, Soul or External World. This setting, in line with philosophical and scientific trends, is the starting point for reaching a coherent and innovative solution to the problems of knowledge. In the foreground we encounter the relationship between the mind and the brain, where the terms are composed according to the analogy with music and the musical score, and then the basis of time and the sense of the Big Bang. These are the frame and sketch of the book.

The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.
