bestselling author Morgan Matson. Charlie Grant's older sister is getting married this weekend at their family home, and Charlie can't wait—for the first time in years, all four of her older siblings will be under one roof. Charlie is desperate for one last perfect weekend, before the house is sold and everything changes. The house will be filled with jokes and games and laughs again. Making decisions about things like what college to attend and reuniting with longstanding crush Jesse Foster—all that can wait. She wants to focus on making the weekend perfect. The only problem? The weekend is shaping up to be an absolute disaster. There's the unexpected dog with a penchant for howling, house alarm that won't stop going off, and a papergirl with a grudge. There are the relatives who aren't speaking, the (awful) girl her favorite brother brought home unannounced, and a missing tuxedo. Not to mention the neighbor who seems to be bent on sabotage and a storm that is bent on drenching everything. The justice of the peace is missing. The band will only play covers. The guests are all crazy. And the wedding planner's nephew is unexpectedly, distractingly...cute. Over the course of three ridiculously chaotic days, Charlie will learn more than she ever expected about the family she thought she knew by heart. And she'll realize that sometimes, trying to keep everything like it was in the past means missing out on the future.

A powerful new novel about an ordinary family facing extraordinary times at the start of the Chinese Cultural Revolution China, 1957. Chairman Mao has declared a new

openness in society: "Let a hundred flowers bloom; let a hundred schools of thought contend." Many intellectuals fear it is only a trick, and Kai Ying's husband, Sheng, a teacher, has promised not to jeopardize their safety or that of their young son, Tao. But one July morning, just before his sixth birthday, Tao watches helplessly as Sheng is dragged away for writing a letter criticizing the Communist Party and sent to a labor camp for "reeducation." A year later, still missing his father desperately, Tao climbs to the top of the hundred-year-old kapok tree in front of their home, wanting to see the mountain peaks in the distance. But Tao slips and tumbles thirty feet to the courtyard below, badly breaking his leg. As Kai Ying struggles to hold her small family together in the face of this shattering reminder of her husband's absence, other members of the household must face their own guilty secrets and strive to find peace in a world where the old sense of order is falling. Once again, Tsukiyama brings us a powerfully moving story of ordinary people facing extraordinary circumstances with grace and courage.

Five years in the writing by one of science fiction's most honored authors, *Doomsday Book* is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely

linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for *Doomsday Book* "A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science fiction's best writers."—The Denver Post "Splendid work—brutal, gripping and genuinely harrowing, the product of diligent research, fine writing and well-honed instincts, that should appeal far beyond the normal science-fiction constituency."—Kirkus Reviews (starred review) "The world of 1348 burns in the mind's eye, and every character alive that year is a fully recognized being. . . . It becomes possible to feel . . . that Connie Willis did, in fact, over the five years *Doomsday Book* took her to write, open a window to another world, and that she saw something there."—The Washington Post Book World

When *Men in Groups* was first published in 1969, the New York Times daily critic titled his review "The Disturbing Rediscovery of the Obvious." What was so obvious was male bonding, a phrase that entered the language. The links between males in groups Tiger describes extend through many other primate species, through our evolution as hunters/gatherers, and cross-culturally. Male bonding characterizes human groups as varied as the Vatican Council, the New York Yankees, the Elks and Masons the secret societies of Sierra Leone and Kenya. The power of Tiger's book is its identification of the powerful links between men and the impact of females and families on essentially male groups.

While the world has changed much, the argument of the book and its new introduction by the author suggest that a species-specific pattern of female bonding continues to be part of the human default system. Perhaps one day concrete evidence of its location will emerge from the startling work on the human genome, just as the elaborate and consequential sex differences to which *Men in Groups* drew such pioneering attention have already become part of the common wisdom. Meanwhile, *Men in Groups* remains a measured and irresponsible but intrepid inspection of a major aspect of human social organization and personal behavior. The book was controversial when it first appeared, and often foolishly and unduly scorned. But it has remained a fundamental contribution to the emerging synthesis between the social and natural sciences.

The Syrian refugee crisis has galvanized attention to one of the world's foremost challenges: forced displacement. The total number of refugees and internally displaced persons, now at over 65 million, continues to grow as violent conflict spikes. This report, *Forcibly Displaced: Toward a Development Approach Supporting Refugees, the Internally Displaced, and Their Hosts*, produced in close partnership with the United Nations High Commissioner for Refugees (UNHCR), attempts to sort fact from fiction to better understand the scope of the challenge and encourage new thinking from a socioeconomic perspective. The report depicts the reality of forced displacement as a developing world crisis

with implications for sustainable growth: 95 percent of the displaced live in developing countries and over half are in displacement for more than four years. To help the displaced, the report suggests ways to rebuild their lives with dignity through development support, focusing on their vulnerabilities such as loss of assets and lack of legal rights and opportunities. It also examines how to help host communities that need to manage the sudden arrival of large numbers of displaced people and that are under pressure to expand services, create jobs, and address long-standing development issues. Critical to this response is collective action. As work on a new Global Compact on Responsibility Sharing for Refugees progresses, the report underscores the importance of humanitarian and development communities working together in complementary ways to support countries throughout the crisis—from strengthening resilience and preparedness at the onset to creating lasting solutions.

The Lonely Soldier--the inspiration for the documentary The Invisible War--vividly tells the stories of five women who fought in Iraq between 2003 and 2006--and of the challenges they faced while fighting a war painfully alone. More American women have fought and died in Iraq than in any war since World War Two, yet as soldiers they are still painfully alone. In Iraq, only one in ten troops is a woman, and she often serves in a unit with few other women or none at all. This isolation, along with the military's deep-seated hostility toward women, causes problems that many female soldiers find as hard to cope with as war itself: degradation, sexual persecution by their comrades, and

loneliness, instead of the camaraderie that every soldier depends on for comfort and survival. As one female soldier said, "I ended up waging my own war against an enemy dressed in the same uniform as mine." In *The Lonely Soldier*, Benedict tells the stories of five women who fought in Iraq between 2003 and 2006. She follows them from their childhoods to their enlistments, then takes them through their training, to war and home again, all the while setting the war's events in context. We meet Jen, white and from a working-class town in the heartland, who still shakes from her wartime traumas; Abbie, who rebelled against a household of liberal Democrats by enlisting in the National Guard; Mickiela, a Mexican American who grew up with a family entangled in L.A. gangs; Terris, an African American mother from D.C. whose childhood was torn by violence; and Eli PaintedCrow, who joined the military to follow Native American tradition and to escape a life of Faulknerian hardship. Between these stories, Benedict weaves those of the forty other Iraq War veterans she interviewed, illuminating the complex issues of war and misogyny, class, race, homophobia, and post-traumatic stress disorder. Each of these stories is unique, yet collectively they add up to a heartbreaking picture of the sacrifices women soldiers are making for this country. Benedict ends by showing how these women came to face the truth of war and by offering suggestions for how the military can improve conditions for female soldiers—including distributing women more evenly throughout units and rejecting male recruits with records of violence against women. Humanizing, urgent, and powerful, *The Lonely Soldier* is a clarion call for change.
