### RICE CHOI

*The Rise and Fall of Modern Medicine* Random House Australia A brilliant, authoritative, and fascinating history of America's most puzzling era, the years 1920 to 1933, when the U.S. Constitution was amended to restrict one of America's favorite pastimes: drinking alcoholic beverages. From its start, America has been awash in drink. The sailing vessel that brought John Winthrop to the shores of the New World in 1630 carried more beer than water. By the 1820s, liquor flowed so plentifully it was cheaper than tea. That Americans would ever agree to relinquish their booze was as improbable as it was astonishing. Yet we did, and Last Call is Daniel Okrent's dazzling explanation of why we did it, what life under Prohibition was like, and how such an unprecedented degree of government interference in the private lives of Americans changed the country forever. Writing with both wit and historical acuity, Okrent reveals how Prohibition marked a confluence of diverse forces: the growing political power of the women's suffrage movement, which allied itself with the antiliquor campaign; the fear of small-town, native-stock Protestants that they were losing control of their country to the immigrants of the large cities; the anti-German sentiment stoked by World War I; and a variety of other unlikely factors, ranging from the rise of the automobile to the advent of the income tax. Through it all, Americans kept drinking, going to remarkably creative lengths to smuggle, sell, conceal, and convivially (and sometimes fatally) imbibe their favorite intoxicants. Last Call is peopled with vivid characters of an astonishing variety: Susan B. Anthony and Billy Sunday, William Jennings Bryan and bootlegger Sam Bronfman, Pierre S. du Pont and H. L. Mencken, Meyer Lansky and the incredible—if long-forgotten—federal official Mabel Walker Willebrandt, who throughout the twenties was the most powerful woman in the country. (Perhaps most surprising of all is Okrent's account of Joseph P. Kennedy's legendary, and long-misunderstood, role in the liquor business.) It's a book rich with

stories from nearly all parts of the country. Okrent's narrative runs through smoky Manhattan speakeasies, where relations between the sexes were changed forever; California vineyards busily producing "sacramental" wine; New England fishing communities that gave up fishing for the more lucrative rum-running business; and in Washington, the halls of Congress itself, where politicians who had voted for Prohibition drank openly and without apology. Last Call is capacious, meticulous, and thrillingly told. It stands as the most complete history of Prohibition ever written and confirms Daniel Okrent's rank as a major American writer.

#### The Master Switch

Vintage Paul Kennedy's classic naval history, now updated with a new introduction by the author This acclaimed book traces Britain's rise and fall as a sea power from the Tudors to the present day. Challenging the traditional view that the British are natural 'sons of the waves', he suggests instead that the country's fortunes as a significant maritime force have always been bound up with its economic growth. In doing so, he contributes significantly to the centuries-long debate between 'continental' and 'maritime' schools of strategy over Britain's policy in times of war. Setting British naval history within a framework of national, international, economic, political and strategic considerations, he offers a fresh approach to one of the central questions in British history. A new introduction extends his analysis into the twenty-first century and reflects on current American and Chinese ambitions for naval mastery. 'Excellent and stimulating' Correlli Barnett 'The first scholar to have set the sweep of British Naval history against the background of economic history' Michael Howard, Sunday Times 'By far the best study that has ever been done on the subject ... a sparkling and apt quotation on practically every page' Daniel A. Baugh, International History Review 'The best single-volume study of Britain and her naval past now available to us' Jon Sumida, Journal of Modern History

### A HISTORY OF THE WORLD IN TEN EMPIRES

Franklin Watts

"Focusing on six momentous turning points that helped to shape Roman history, Simon Baker's gripping narrative charts the rise and fall of the world's first superpower - a political machine unmatched in its brutality, its genius, its lust for power." --DUST JACKET.

*The Rise and Fall of Prohibition* Simon and Schuster

The Rise and Fall of Man is a fictitious novel which brings the horrific events foretold in the Book of Revelations to a unique array of characters. The tribulations they endure test the very fabric of being human. War, famine, plague. Earthquakes, volcanoes, and beasts from hell. How much can one endure, and still hold onto the virtues that bind the soul together? Faith, hope, love. Strengths, yes, but can they survive against the power of sin? Against the AntiChrist, the False Prophet, and their demons? Weakness and doubt emanate a smell that evil feeds upon, and evil has no conscience. The prophecy of John of Patmos was written over two thousand years ago, but the story has never been told quite like this.

### THE RISE AND FALL OF THE ROMAN EMPIRE

Russell Sage Foundation

"Published for the Center for Hellenic Studies."

*Rise and Fall of Australia*, The Page Publishing Inc

Eminent historian Paul Strathern opens the story of Empire with the Akkadian civilization, which ruled over a vast expanse of the region of ancient Mesopotamia, then turns to the immense Roman Empire, where we trace back our Western and Eastern roots. Next the narrative describes how a great deal of Western Classical culture was developed in the Abbasid and Umayyid Caliphates. Then, while Europe was beginning to emerge from a period of cultural stagnation, it almost fell to a

whirlwind invasion from the East, at which point we meet the Emperors of the Mongol Empire . . . Combining breathtaking scope with masterful narrative control, Paul Strathern traces these connections across four millennia and sheds new light on these major civilizations—from the Mongol Empire and the Yuan Dynasty to the Aztec and Ottoman, through to the most recent and biggest empires: the British, Russo-Soviet, and American. Charting five thousand years of global history in ten lucid chapters, *Empire* makes comprehensive and inspiring reading to anyone fascinated by the history of the world.

**The Rise and Fall of Nations: Forces of Change in the Post-Crisis World** John Wiley & Sons  
NEW YORK TIMES BESTSELLER • “This is one of those books that will go down as the seminal work—the determinative work—in this field. . . . Terrifying.”—Rachel Maddow  
The first definitive account of the rise and fall of the Secret Service, from the Kennedy assassination to the alarming mismanagement of the Obama and Trump years, right up to the insurrection at the Capitol on January 6—by the Pulitzer Prize winner and #1 New York Times bestselling co-author of *A Very Stable Genius* and *I Alone Can Fix It* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST  
Carol Leonnig has been reporting on the Secret Service for *The Washington Post* for most of the last decade, bringing to light the secrets, scandals, and shortcomings that plague the agency today—from a toxic work culture to dangerously outdated equipment to the deep resentment within the ranks at key agency leaders, who put protecting the agency’s once-hallowed image before fixing its flaws. But the Secret Service wasn’t always so troubled. The Secret Service was born in 1865, in the wake of the assassination of Abraham Lincoln, but its story begins in earnest in 1963, with the death of John F. Kennedy. Shocked into reform by its failure to protect the president on that fateful day in Dallas, this once-sleepy agency was radically transformed into an elite, highly trained unit that would redeem itself several times, most famously in 1981 by thwarting an assassination attempt against Ronald Reagan. But this reputation for courage and excellence would not last forever. By Barack Obama’s presidency, the once-proud Secret Service was running on fumes and beset by mistakes and alarming lapses in judgment: break-ins at the White House, an armed gunman firing into the windows of the residence while confused agents stood by, and a massive prostitution scandal among agents in Cartagena, to name just a few. With Donald Trump’s arrival, a series of promised reforms were cast aside, as a president disdainful of public service instead abused the Secret Service to rack up political and personal gains. To explore these problems in the ranks, Leonnig interviewed dozens of current and former agents, government officials, and whistleblowers who put their jobs on the line to speak out about a hobbled agency that’s in desperate need of reform. “I will be forever grateful to them for risking their careers,” she writes, “not because they wanted to share tantalizing gossip about presidents and their families, but because they know that the Service is broken and needs fixing. By telling their story, they hope to revive the Service they love.”

**The Rise and Fall of the British Empire** HarperCollins

A different approach to the theories on language evolution and change.

*A History of Nazi Germany* Princeton University Press

A chronicle of the Progressive movement discusses such events as the drive to check the growth of large corporations, the effort to redefine the social class structure, the careers of Theodore Roosevelt and Woodrow Wilson, and the rise in radicalism. Reprint.

**Labor’s Love Lost** Dial Press

Belief in the afterlife is still very much alive in Western civilisation, even though the truth of its existence is no longer universally accepted. Surprisingly, however, heaven, hell and the immortal soul were all ideas which arrived relatively late in the ancient world. Originally Greece and Israel - the cultures that gave us Christianity - had only the vaguest ideas of an afterlife. So where did these concepts come from and why did they develop? In this fascinating, learned, but highly readable book, Jan N. Bremmer - one of the foremost authorities on ancient religion - takes a fresh look at the major developments in the Western imagination of the afterlife, from the ancient Greeks to the modern near-death experience.

**The Reckoning** Princeton University Press

A forensic look at the Lucky Country, from the inside and outside. Never before has Australia

enjoyed such economic, commercial, diplomatic and cultural clout. Its recession-proof economy is the envy of the world. It’s the planet’s great lifestyle superpower. But its politics have never been so brutal, narrow and facile, as well as such a global laughing stock. A positive national story is at odds with a deeply unattractive Canberra story. In *The Rise and Fall of Australia*, BBC correspondent and author Nick Bryant offers an outsider’s take on the great paradox of modern-day Australian life: of how the country has got richer at a time when its politics have become impoverished. In this thoroughly entertaining and thought-provoking book, dealing with politics, racism, sexism, culture, sport and the nation’s place in the region and the world, Bryant sets out to describe the new Australia rather than the mythic country so often misunderstood not just by foreigners but Australians themselves.

**The Rise and Fall of Adam and Eve** Random House

How America’s high standard of living came to be and why future growth is under threat In the century after the Civil War, an economic revolution improved the American standard of living in ways previously unimaginable. Electric lighting, indoor plumbing, motor vehicles, air travel, and television transformed households and workplaces. But has that era of unprecedented growth come to an end? Weaving together a vivid narrative, historical anecdotes, and economic analysis, *The Rise and Fall of American Growth* challenges the view that economic growth will continue unabated, and demonstrates that the life-altering scale of innovations between 1870 and 1970 cannot be repeated. Robert Gordon contends that the nation’s productivity growth will be further held back by the headwinds of rising inequality, stagnating education, an aging population, and the rising debt of college students and the federal government, and that we must find new solutions. A critical voice in the most pressing debates of our time, *The Rise and Fall of American Growth* is at once a tribute to a century of radical change and a harbinger of tougher times to come.

*Top of the Rock* Clark Univ Heinz Werner Inst

The Rise and Fall...and Rise Again John Wiley & Sons

### THE RISE AND FALL OF THE SECRET SERVICE

Simon and Schuster

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Seattle Times • The Globe and Mail • Kirkus Reviews • Daily Mail • The Vancouver Sun  
From the author of *The Italian Teacher* and *The Imperfectionists* comes a brilliant, intricately woven novel about a young woman who travels the world to make sense of her puzzling past. Look in the back of the book for a conversation between Tom Rachman and J. R. Moehringer  
Following one of the most critically acclaimed fiction debuts in years, New York Times bestselling author Tom Rachman returns with a brilliant, intricately woven novel about a young woman who travels the world to make sense of her puzzling past. Tooty Zylberberg, the American owner of an isolated bookshop in the Welsh countryside, conducts a life full of reading, but with few human beings. Books are safer than people, who might ask awkward questions about her life. She prefers never to mention the strange events of her youth, which mystify and worry her still. Taken from home as a girl, Tooty found herself spirited away by a group of seductive outsiders, implicated in capers from Asia to Europe to the United States. But who were her abductors? Why did they take her? What did they really want? There was Humphrey, the curmudgeonly Russian with a passion for reading; there was the charming but tempestuous Sarah, who sowed chaos in her wake; and there was Venn, the charismatic leader whose worldview transformed Tooty forever. Until, quite suddenly, he disappeared. Years later, Tooty believes she will never understand the true story of her own life. Then startling news arrives from a long-lost

boyfriend in New York, raising old mysteries and propelling her on a quest around the world in search of answers. Tom Rachman—an author celebrated for humanity, humor, and wonderful characters—has produced a stunning novel that reveals the tale not just of one woman but of the past quarter-century as well, from the end of the Cold War to the dominance of American empire to the digital revolution of today. Leaping between decades, and from Bangkok to Brooklyn, this is a breathtaking novel about long-buried secrets and how we must choose to make our own place in the world. It will confirm Rachman’s reputation as one of the most exciting young writers we have. Praise for *The Rise & Fall of Great Powers* “Ingenious . . . Rachman needs only a few well-drawn characters to fill a large canvas and an impressive swath of history.”—Janet Maslin, *The New York Times* “A superb follow-up to 2010’s *The Imperfectionists* . . . ambitious and engaging.”—*The Seattle Times* “Engaging and inventive . . . full of wonderfully quirky, deeply flawed, but lovable characters. . . . On the spectrum of interesting literary childhoods, Tooty Zylberberg—the protagonist of Tom Rachman’s second novel—would rank somewhere in the vicinity of *Jane Eyre* and *Oliver Twist*.”—*San Francisco Chronicle* “I found it impossible not to fall in love with shape-shifting Tooty. As an adult, she sports an ironical sense of humor and an attraction to dusty old books. As a child, her straight-faced mirth and wordplay are break-your-heart irresistible.”—Ron Charles, *The Washington Post* “[A] read-it-all-in-one-weekend book.”—*The New Republic* “A compelling page-turner . . . intricate, sprawling, and almost Dickensian.”—*USA Today*

**Rise and Fall of Society** The Rosen Publishing Group, Inc

This book is the story of a boy growing up to be a man and the events that led him to make the career choice he did. It is an account of the challenges he faced, his successes, and some of the devastating losses he suffered along the way. The book contains a description of how after a memorable thirty-two-year career, the man threw away his legacy, his reputation, and his community by making a series of bad choices. These pages contain an account of the ramifications of these choices—ramifications that still exist years later. Finally, this script describes this man’s struggle against these ramifications and his attempts to rebuild a devastated life. Some major life topics within the context of this story that are discussed give food for thought. Why some relationships, even those that occur at a young age, can lead to life-altering decisions. How the growth that comes through experience and a consistent positive work ethic can convert a subpar worker into a master craftsman. How personal loss not resolved can result in devastating consequences years later. How our world’s reliance on credit scores and background checks make it nearly impossible for a person to rise up again after a transgression. The fairness of the tendency of today’s world to completely judge a person based on the single worst event in their life. *The Rise and Fall (and Rise?) of a Man* is a worthy read for those who want to be entertained, for those who wish to examine some major topics inherent in each person’s life, and for those who wish to examine the direction in which society is currently headed. Is there room in our society for the idea of a second chance?

### EMPIRE

Anchor Books

In ten succinct chapters, Paul Strathern sheds new light on major civilisations, from the military might of the Mongols, who ruled over the largest but most short-lived land empire in history, to the ambitious architecture of the Akkadians. We meet the ruthless leaders of Ancient Rome, discover the imperial dreams of Middle Eastern caliphates and witness the power struggles of twentieth-century America. With insight into the progress of humankind, *Rise and Fall* shows how the story of an empire lies not only in its creation, but also in its downfall.

**A Fierce Discontent** Hodder Paperbacks

A thousand years ago, Arabs & Jews built a paradise in the southern half of Spain. Everyone had the good life. This was a time of acceptance of differences.
