A Refresher Course for Registered Nurses, a Guide for Instructors and Students, 1974 Government Printing Office
 FEMA's Community Emergency Response Team (CERT) Basic Training Instructor Guide is a critical program in the effort to engage everyone in America in making their communities safer, more prepared, and more resilient when incidents occur. Community-based preparedness planning allows you and others interested from your community to prepare for and respond to anticipated disruptions and potential hazards following a disaster. As individuals, we can prepare our homes and families to cope during that critical period. Through pre-event planning, neighborhoods and worksites can also work together to help reduce injuries, loss of lives, and property damage. Neighborhood preparedness will enhance the ability of individuals and neighborhoods to reduce their emergency needs and to manage their existing resources until professional assistance becomes available. The purpose of the CERT Basic Training is to provide you and others in your community who complete this course with the basic skills that they will need to respond to their community's immediate needs in the aftermath of a disaster, when emergency services are not immediately available. This course will be beneficial to individuals who desire the skills and knowledge required to prepare for and respond to a disaster. Instructors for these community courses usually range from skilled fire and rescue instructors that have completed the CERT Train-the Trainer course and are knowledgeable about the CERT model, different types of hazards that present greatest risks for communities, local building structures that may present greatest hazard in disaster events, community's emergency operation plans, and licensed Paramedics or Emergency Medical Technicians and nurses for providing hands-on knowledge relating to disaster medical operations Related items: FEMA's companion product-- CERT Basic Training Participant Manual can be found here: <https://bookstore.gpo.gov/products/sku/027-002-00627-5> Emergency Management & First Responders publications can be found here: <https://bookstore.gpo.gov/catalog/security-defense-law-enforcement/emerg...> Audience: As each CERT is organized and trained in accordance with standard operating procedures developed by the sponsoring agency, its members select an Incident Commander/Team Leader (IC/TL) and an alternate and identify a meeting location, or staging area, to be used in the event of a disaster. This publication is ideal for the chosen IC/TL, and members of the CERT may want to consult this manual to understand the responsibilities of the IC/TL.

LIFELONG LEARNING CATALOG, CAREER DEVELOPMENT AND TRAINING SCHEDULE FISCAL YEAR 2002

John Wiley & Sons

This book tackles the phenomenon of limited learning on campuses by approaching it from the point of view of the author, an educator who writes about the experience of being, simultaneously, a college student and a college professor. The author lays out her experience as a student struggling in an introductory linguistics class, framing her struggles as sites ripe for autoethnographic interrogation. Throughout the book, the author melds her personal narratives with the extant research on college student learning, college readiness, and the interconnectedness of affect, intellect, and socio-cultural contexts. This book poses a challenge to the current binary metanarrative that circles the college student learning conundrum, which

highlights either the faculty or student perspective, and unfolds this unnecessary binary into a rich, nuanced, and polyvocal set of perspectives.

Cert Basic Training Instructor's Guide John Wiley & Sons

To meet the dynamic academic demands of twenty-first century digital learners, many institutions of higher learning are offering more online classes than ever before that are accessible to both traditional and non-traditional learners. As such, a growing demand for online courses implies that participating institutions provide faculty with appropriate professional development programs to ensure the design and delivery of quality online courses. The Handbook of Research on Virtual Training and Mentoring of Online Instructors is a critical scholarly resource that highlights the issues, challenges, and online engagement experiences to enhance effective teaching and learning in this learning environment. Featuring coverage on a broad range of topics such as media literacy, professional development, and virtual learning environments, this book is geared towards educational administrators, educators, and instructional designers interested in quality online instruction.

TEACHING NAKED TECHNIQUES

Georgetown University Press

BACKGROUND IN 1996, THE NAVAL SPECIAL WARFARE COMMAND DEVELOPED A NEW SET OF TACTICALLY APPROPRIATE BATTLEFIELD TRAUMA CARE GUIDELINES NAMED TCCC. THE TCCC GUIDELINES WERE ADOPTED BY THE U.S. SPECIAL OPERATIONS COMMAND (USSOCOM) AND APPROVED BY THE AMERICAN COLLEGE OF SURGEONS (ACS) AND THE NATIONAL ASSOCIATION OF EMERGENCY MEDICAL TECHNICIANS. THE COMMITTEE ON TCCC WAS ESTABLISHED IN 2001 AND WAS DIRECTED TO FURTHER DEVELOP THE TCCC STANDARDS AND GUIDELINES. THE COMMITTEE ON TCCC FUNCTIONS AS A WORKING GROUP OF THE TRAUMA AND INJURY SUBCOMMITTEE OF THE DEFENSE HEALTH BOARD (DHB), WHICH HAS A CHARTER TO PROVIDE MEDICAL RECOMMENDATIONS TO ASD (HA) AND THE SERVICE SURGEONS GENERAL. TCCC CONCEPTS WERE INCORPORATED INTO THE 8404 CORPSMAN TRAINING CURRICULUM IN 2005. THE TCCC/CLS TRAINER COURSE WAS DEVELOPED IN 2006 TO PROVIDE CORPSMEN AS TRAINERS TO TEACH AND SUSTAIN TCCC STANDARDS TO CORPSMEN AND CLS SKILLS TO SELECTED MARINES WITHIN THE OPERATING FORCES. THE IMPLEMENTATION OF TCCC ACROSS ALL SERVICES HAS BEEN IDENTIFIED AS ONE OF THE CONTRIBUTING FACTORS TO THE HIGHEST COMBAT CASUALTY SURVIVAL RATES IN HISTORY AND IS RECOMMENDED BY ASD (HA) FOR USE WHEN TRAINING COMBAT MEDICAL PERSONNEL, REF B. TCCC INFORMATION IS PUBLISHED IN THE PREHOSPITAL TRAUMA LIFE SUPPORT MANUAL (PHTLS), MILITARY EDITION, WHICH IS UPDATED EVERY FOUR YEARS. DEPARTMENT OF DEFENSE (DOD) APPROVED TCCC TRAINING CURRICULA ARE UPDATED ON THE DOD WEBSITE MHS.OSD.MIL/EDUCATION AND TRAINING/TCCC.ASPX AS THE TCCC GUIDELINES CHANGE. GOAL. ELIMINATE PREVENTABLE LOSS OF LIFE ON THE BATTLEFIELD. IN ACCOMPLISHING THIS GOAL, THE MOST RECENT TCCC GUIDELINES APPROVED BY DOD ARE TO BE UTILIZED AS A MEANS OF PROVIDING STANDARDIZED TRAINING TO THE MARINE CORPS AND IMPROVING FIRST RESPONDER CARE AT THE POINT OF INJURY. HISTORY OF TCCC: a. It is important to realize that civilian trauma care in a non-tactical setting is dissimilar to trauma care in a combat environment. TCCC and CLS are an attempt to better prepare medical and non-medical personnel for the unique factors associated with combat trauma casualties. b. Historical data shows that 90% of combat wound fatalities die on the battlefield before reaching a military treatment facility. This fact illustrates the importance of

first responder care at the point of injury. c. TCCC was originally a US Special Operations research project which was composed of trauma management guidelines focusing on casualty care at the point of injury. d. TCCC guidelines are currently used throughout the US Military and various allied countries. e. TCCC guidelines were first introduced in 1996 for use by Special Operations corpsmen, medics, and pararescue (PJs). f. The TCCC guidelines are currently endorsed by the American College of Surgeons, Committee on Trauma and the National Association of Emergency Medical Technicians. The guidelines have been incorporated into the Prehospital Trauma Life Support (PHTLS) text since the 4th edition. STUDENT CURRICULUM: Tactical Combat Casualty Care/CLS Overview Identify Medical Fundamentals Manage Hemorrhage Maintain Casualty Airway Manage Penetrating Chest Injuries Manage Hemorrhagic Shock Manage Burn Casualties Perform Splinting Techniques Administer Battlefield Medications Perform Casualty Movement Perform Combat Lifesaver Triage Perform Combat Lifesaver Care

LIGHT DUTY RESCUE COURSE, INSTRUCTOR'S GUIDE

Kendall Hunt

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value-this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. For courses in introductory statistics. The Art and Science of Learning from Data Statistics: The Art and Science of Learning from Data, Fourth Edition, takes a conceptual approach, helping students understand what statistics is about and learning the right questions to ask when analyzing data, rather than just memorizing procedures. This book takes the ideas that have turned statistics into a central science in modern life and makes them accessible, without compromising the necessary rigor. Students will enjoy reading this book, and will stay engaged with its wide variety of real-world data in the examples and exercises. The authors believe that it's important for students to learn and analyze both quantitative and categorical data. As a result, the text pays greater attention to the analysis of proportions than many other introductory statistics texts. Concepts are introduced first with categorical data, and then with quantitative data. Also available with MyStatLab MyStatLab(tm) is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. For this edition, new web apps with complementary exercises, a tightly integrated video program, and strong exercise coverage enhance student learning. Note: You are purchasing a standalone product; MyLab(tm)& Mastering(tm) does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

A Course in Training Methods for Pilot Instructors Routledge

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. For Books a la Carte editions that include MyLab(TM) or Mastering(TM), several versions may exist for each title - including customized versions for individual schools - and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use MyLab or Mastering products. For courses in College Algebra. Show students that our world is profoundly mathematical Bob Blitzer continues to inspire students with his engaging approach to mathematics, making this beloved series the #1 in the market year after year. Blitzer draws on his unique background in mathematics and behavioral science to present a wide range of vivid applications in real-life situations. Students of all majors stay engaged because Blitzer uses pop-culture and up-to-date references to connect math to students' lives, showing that our world is profoundly mathematical. With the new edition, Blitzer takes student engagement with the mathematical world to a whole new level drawing from applications across all fields as well as topics that are of interest to any college student (e.g., student loan debt, grade inflation, sleep hours of college students). Applications are also brought to life online in a new, assignable video series that explore the entertaining and mathematical Blitzer Bonus boxes. The new edition also aims to help more students to succeed in the course with just-in-time support in the text -- such as Brief Review of prerequisite topics, Achieving Success boxes, and Retain the Concepts exercises -- as well as support within MyLab(TM) Math such as new concept-level videos, assignable tools to enhance visualization, and more. Also available with MyLab Math MyLab(TM) Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. Note: You are purchasing a standalone product; MyLab does not come packaged with this content. Students, if interested in purchasing this title with MyLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. Put Teaching Naked to work in your classroom with clear examples and step-by-step guidance Teaching Naked Techniques (TNT) is a practical guide of proven quick ideas for improving classes and essential information for designing anything from one lesson or a group of lessons to an entire course. TNT is both a design guide and a 'sourcebook' of ideas: a great companion to the award-winning Teaching Naked book. Teaching Naked Techniques helps higher education faculty design more effective and engaging classrooms. The book focuses on each step of class preparation from the entry

point and first encounter with content to the classroom 'surprise.' There is a chapter on each step in the cycle with an abundance of discipline-specific examples, plus the latest research on cognition and technology, quick lists of ideas, and additional resources. By rethinking the how, when, and why of technology, faculty are able to create exponentially more opportunities for practical student engagement. Student-centered, activity-driven, and proven again and again, these techniques can revolutionize your classroom. Create more effective, engaging lessons for higher education Utilize technology outside of the classroom to better engage during class time Examine discipline-specific examples of Teaching Naked Techniques Prepare for each class step by step from the student's perspective Teaching Naked flips the classroom by placing the student's first contact with the material outside of class. This places the burden of learning on the learner, ensures student preparation, and frees up class time for active engagement with the material for more effective learning and retention. Teaching Naked Techniques is the practical guide for bringing better learning to your classroom.

In addition, you may need a Course ID, provided by your instructor, to register for and use MyLab or Mastering platforms. For 3- to 4-semester courses covering single-variable and multivariable calculus, taken by students of mathematics, engineering, natural sciences, or economics. T he most successful new calculus text in the last two decades The much-anticipated 3rd Edition of Briggs' Calculus Series retains its hallmark features while introducing important advances and refinements. Briggs, Cochran, Gillett, and Schulz build from a foundation of meticulously crafted exercise sets, then draw students into the narrative through writing that reflects the voice of the instructor. Examples are stepped out and thoughtfully annotated, and figures are designed to teach rather than simply supplement the narrative. The groundbreaking eBook contains approximately 700 Interactive Figures that can be manipulated to shed light on key concepts. For the 3rd Edition, the authors synthesized feedback on the text and MyLab(TM) Math content from over 140 instructors and an Engineering Review Panel. This thorough and extensive review process, paired with the authors' own teaching experiences, helped create a text that was designed for today's calculus instructors and students. Also available with MyLab Math MyLab Math is the teaching and learning platform that empowers instructors to reach every student. By combining trusted author content with digital tools and a flexible platform, MyLab Math personalizes the learning experience and improves results for each student. Note: You are purchasing a standalone product; MyLab Math does not come packaged with this content. Students, if interested in purchasing this title with MyLab Math, ask your instructor to confirm the correct package ISBN and Course ID. Instructor training workshop-- Part 48 Jeffrey Frank Jones

Dog Training Log: Pet Owner Record Book, Train Your Service Puppy Journal, Keep Instructor Details Logbook, Tracking Progress Information Notebook, Gift This unique Dog Training Log is a great way to keep track of training your dog or puppy. If you're a dog owner and want to train your dog for personal use or as a service dog, this is a must-have. The interior pages include prompts and space to record the following: Contact Info Page - For writing the owner's contact information and the veterinary info. Pet Information - All your dog's info including Name, Date of Birth, Age, Weight, Sex, Breed, Color, Markings, Food Brand, Treat Brand, Breeder/ Shelter, Notes. Pet Sitter Notes - Write Where You'll Be, Phone, Address, Notes, Emergency Contact, Special Instructions. Vaccinations Record - Log the Date, Vaccination, and Vet. Vet Visits - Record Date, Reason for Visit, and Vet. Feeding Schedule - Write Morning Time, Evening Time, and Amount for each day of the week. Daily Responsibility Chart - For writing your own chore list for each day of the week with checkboxes. Training Log - Note the Date, Time, Handler, Location, Type of Training, Weather, Temperature, Task Type, Duration, Treat or Rewards Used, Competency/ Obedience Level, Success, Needs Improvement, and Notes. Training a dog, puppy or pets is no easy task. Recording your training sessions will allow you to look back and see what is working best and what is not. Books, logs, and journals are a great way to keep all of your important information all in one place. Can make a great gift for that special person in your life who loves dogs and wants to record as they train. Simple and easy to use. Handy size of 6x9 inches, 102 pages, soft matte finish cover, white paper, black ink, paperback. Get one now!

Becoming a New Instructor guides new instructors through the planning, preparation, and execution of their first class, whether it is in person or online. Like any good mentor, this book provides clear, simple instructions and makes best-practice recommendations. Becoming a New Instructor provides a step-by-step guide to writing a syllabus, a simple explanation for how to calculate grades, and many additional suggestions from an experienced teacher about how to run a class. Chronologically arranged from conceptualizing the class through putting together the syllabus, planning in-class time, running the class, and assigning grades, this book will answer any new instructors' questions. Adjuncts and graduate students charged with teaching a college course will find this succinct guide invaluable. Special Features Include: An entire chapter on teaching online, plus "Concerns Specific to Online Instructors" throughout that connect chapter content to online teaching and CMS platforms Examples of best practice, checklists, sample assignments, syllabi, and rubrics that guide readers in creating materials for their own courses Guidance specific to the needs of adjuncts and graduate students teaching a course for the first time.

Teaching Intensive and Accelerated Courses DIANE Publishing

Integrating Career Preparation into Language Courses provides foreign and second language teachers with easy and practical additions they can make to their existing curricula to help their students develop real-world professional skills and prepare to use the target language successfully in the workplace. The book is organized into six chapters, each addressing a different professional skill and opening with an explanation of how content typically included in a foreign language curriculum can be tied to this skill. Each chapter closes with class activities or lesson plans that include suggested materials and assessments that teachers can easily add to their language courses. Lear's book is an accessible and practical guide designed to be adaptable for any language, offering exciting new possibilities to help teachers and students of foreign languages bring their language skills into the workplace.

Fitness Instructor Training Guide IGI Global

For courses in Financial and Managerial Accounting. Expanding on Proven Success with Horngren's Accounting Horngren's Accounting presents the core content of the accounting course in a fresh format designed to help today's learners succeed. The Eleventh Edition expands on the proven success of the significant revision to the Horngren franchise and uses what the authors have learned from focus groups, market feedback, and colleagues to create livelier classrooms, provide meaningful learning tools, and give professors resources to help students inside and outside the class. First, the authors ensured that content was clear, consistent, and above all, accurate. Every chapter is reviewed to ensure that students understand what they are reading and that there is consistency from chapter to chapter. The author team worked every single accounting problem and employed a team of accounting professors from across the nation to review for accuracy. This edition continues the focus on student success and

provides resources for professors to create an active and engaging classroom. Through MyAccountingLab®, students have the opportunity to watch author recorded solution videos, practice the accounting cycle using an interactive tutorial, and watch in-depth author-driven animated lectures that cover every learning objective. In addition, all instructor resources have been updated to accompany this edition of the book, including the PowerPoint presentations and Test Bank. MyAccountingLab not included. Students, if MyAccountingLab is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyAccountingLab should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MyAccountingLab is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

INSTRUCTOR'S GUIDE FOR TRAFFIC SIGNAL DESIGN TRAINING COURSE**Instructor Excellence**

This research book is about the transfer of training. The main theme of this research is how the training participants perceived training and how they are practicing in their real workplace. The qualitative method was implied where class observations and in-depth interviews were conducted to explore the perceptions and practices of the training participants along with the coping strategies on the challenges they have faced. The findings were that adequate time was not provided for the preparation, though some planning was done. The practice of the training in both the skills and knowledge was seen, where practice of skill is more applied. Some of the knowledge and skills were not practiced. Assessment was done by using both the formative and summative evaluation tools. Finally, this study concluded that there is the need of supervisors and guidance in practicing the skills and knowledge in their workplace.

Instructor Qualification Course, Part A, Text

In this comprehensive resource, Raymond J. Wlodkowski and Margery B. Ginsberg describe how to meet the challenge of teaching intensive and accelerated courses to nontraditional learners and working adults. By making motivation and cultural relevance essential to instruction, they clearly show what instructors can do to enhance learning in classes that can last from three to six hours. Teaching Intensive and Accelerated Courses makes full use of the authors' twenty years of experience researching and teaching accelerated courses, along with selected strategies from Wlodkowski's classic Enhancing Adult Motivation to Learn, to offer tried-and-true practices instructors can use to provide continuously engaging learning.

Dog Training Log

This course provides training for individuals who will become members of organized rescue squads, part of the organized emergency services of government. Light duty rescue squad-men release injured and uninjured people trapped in lightly damaged structures or in shelters with limited access problems. This course also provides training for rescue work in teams and for training in rescue leadership.
