The team of researchers came upon three unusual specimens while tracking a different, rare species of ... New whale species discovered off Mexico | CBC News *Strategus* is a genus of rhinoceros beetles belonging to the family Scarabaeidae. The genus is widespread in America from Kansas to South America. Description. Species within this genus can reach a length of 30–45 millimetres (1.2–1.8 in). These large beetles have a more or less cylindrical body. *Strategus* (beetle) - Wikipedia *Strategus aloeus*. (Linnaeus, 1758) *Strategus aloeus*, the ox beetle, is a species of rhinoceros beetle. The "major" males of this species have three large horns on their thoraces, resembling the Triceratops. The "minor" males have horns, as well, but the two back ones are small and the frontal horn is much shorter than the horn in major males. *Strategus aloeus* - Wikipedia Reichenbachia, 16: 335–336. Morón, M.A.; Nogueira, G. 2008: A new species of *Strategus Hope* (Coleoptera: Scarabaeidae: Dynastinae) from eastern Mexico. Proceedings of the Entomological Society of Washington, 110: 95–102. Ratcliffe, B.C. 1976: A revision of the genus *Strategus* (Coleoptera: Scarabaeidae). *Strategus* - Wikispecies, free species directory Senior military leadership also devolved on the hands of a new class of officers titled doukes or katepano, who were placed in control of regional commands combining several themes. By the 13th century, the term strategos had reverted to the generic sense of "general", devoid of any specific technical meaning. *Strategos* - Wikipedia Marine researchers searching for a rare type of whale off the coast of Mexico have instead discovered a new species. The crew were able to record the never before seen animal in its natural habitat. Researchers find new species of whale off the coast of ... new genus in the Pentodontini to include those species of former *Strategus* which males lacked horns, i. e., *S. adolescens* Kolbe, *S. ces-sus* LeConte (and those synonyms of Casey and Kolbe), *S. fallaciosus* Kolbe, and *S. splendens* (Beauvois) (and those synonyms of Casey). Arrow (1937a) synonymized the genus with *Strategus* and Endrbdi (1959) resurrected *Ana-strategus* as a subgenus of *Strategus* and included in it A Revision of the Genus *Strategus* (Coleoptera: Scarabaeidae) A New Species Of *Strategus*
