With the 15 Life, Earth, and Physical Science titles in the Glencoe series, you can select the specific topics you want to cover and customize your science curriculum any way you want. Integrate topics from other content area to meet any curriculum requirements As students complete each book, they see the progress they're making and feel a sense of accomplishment Only from Glencoe! Foldables are unique, hands-on tools that help students create an interactive strategy for organizing what they read. As they work through each chapter, your students add more detail to their Foldables until they've created a comprehensive "snapshot" of important chapter concepts.

### Area Reading

With READING TO LEARN IN THE CONTENT AREAS, Eighth Edition, future educators discover how they can teach students to use reading, discussion, and writing as vehicles for learning in any discipline. The text explores how the increased availability of computers, instructional software, social media, and Internet resources--as well as the rise of electronic literacy in general--have affected the ways children learn and create meaning from their world. The authors unique lesson framework for instruction, PAR (Preparation/Assistance/Reflection), extends throughout the book. The text's reader-friendly presentation, balanced approach, strong research base, and inclusion of real-life examples from a variety of subject areas and grade levels have helped make it one of the most popular and effective books on the market. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
