Expressing Islam

Darussalam

This book focuses on
cultures that shape
contemporary Asian
tourist experiences. The
book consists of 10
chapters, which are
organised into two
themes: Collectivist
Culture and Wellbeing.
The chapters cover
emerging forms of
tourism (e.g., wedding
and bridal photography
tourism, roots/affinity
tourism and shamanic
tourism), investigate a
wide range of topics (e.g.,
tourist motivation, tourist
anxiety and decision
making) and consider
Asian perspectives from
diverse backgrounds (e.g.,
China, Hong Kong,
Singapore, Taiwan, South
Korea, Japan, Philippines,
Malaysia, Indonesia, India,
Bangladesh, and Nepal).
The book provides
tourism researchers,
students and practitioners
a consolidated,
comprehensive and
updated reference for the
understanding of Asian
tourists.

CONTEMPORARY CHRISTIAN TRAVEL

Springer

This book is the first to

examine the depth,
complexity and
uniqueness of global
Christian pilgrimage,
travel and tourism, and
how they manifest in
terms of both supply and
demand. It explores the
places and spaces of
production and
consumption of this
increasingly important
tourism phenomenon. The
volume considers the
foundational elements of
the attractiveness of
places according to
Christian thinking – spirit
of place, scriptural
connections, art and
architecture,
contrived/themed
environments,
programmed events,
volunteer travel
opportunities, and visiting
local communities by way
of solidarity tourism and
mission work. It includes a
wide range of examples
from Europe, the Middle
East, Asia, Africa, Latin
America and North
America and will be of
interest to researchers
and students in religious
studies, tourism,
pilgrimage studies,
geography, anthropology
and Christianity studies.

millions of lost (2012-2016) involving 3,714 victims due to umrah fraud. It is dreadful to realise that this phenomenon exists and will continue to proportionately increase with the industry's growth in the absent of effective actions under cohesive governing framework. Umrah, apart from being a religious obligation for capable and eligible muslims, is an industry that presents substantial business opportunities. In 2017M/1438H there were 250,089 Malaysian performing umrah that had generated sales of at least RM1.37 billion. Read this to understand this phenomenon and learn how to safe guard ourselves from becoming victims.

The original intent for writing this book is to address the deteriorating state of health of Muslims in Singapore, particularly the Malays. The content focuses on improving physical health through lifestyle interventions in exercise, diet, and rest. To support the narrative, verses from the Quran and the Hadith are used because the authors believe that religion is a

strong motivator. Many perceive Hajj and Umrah as the pinnacle of Islamic worship, yet many are unaware of the grueling tasks involved in them. Readers will learn how to achieve peak physical health so as to be able to complete the Tawaf and Sai with greater ease InsyaAllah. Not only that, they can also expect an improvement in the quality of life as a person and as a Muslim when adopting the right practices and beliefs. Included is how the Quran and Hadith place much emphasis on physical health and how science debunks many health myths on weight loss, exercise, and rest. And because the wait time for Hajj in Singapore can take up to twenty years, physical preparation should start as soon as possible. Readers will discover why adopting the right motivation and changing mind-sets can increase the chances of success. There is a special section on healthy practices during Ramadhan and Syawal, two celebratory months in the Islamic calendar where diet and exercise take a back seat due to the focus on ibadah. Two special Muslims take center stage in this

chapterone talks about his positive experience with intermittent fasting during and after Ramadhan and the other who exercises and trains every day while fasting. The authors of this book speak from experience as they themselves exercise regularly and observe healthy diets. Readers who are interested to know about Umrah the DIY way will also benefit, as one of the authors give a detailed account of his recent trip.

Islamic tourism is not purely motivated by religion; it also includes participants pursuing similar leisure experiences to non-Muslims, within the parameters set by Islam. Destinations are therefore not necessarily locations where Shari'a or full Islamic law is enforced. Demand for Islamic tourism destinations is increasing as the Muslim population expands, with the market forecast to be worth around US\$238 billion. This book explores the ever-widening gap between the religious, tourism, management and education sectors. It provides practical applications, models and illustrations of religious

tourism and pilgrimage management from a variety of international perspectives, and introduces theories and models in an accessible structure. The book: - Includes a range of contemporary case studies of religious and pilgrimage activities. - Covers ancient, sacred and emerging tourist destinations. - Reviews new forms of pilgrimage, faith systems and quasi-religious activities. This book offers an engaging assessment of the linkages and interconnections between Muslim consumers and the places they visit. It provides an important analysis for researchers of religious tourism, pilgrimage and related subjects.

Yasmin and Hira are two expats in Saudi Arabia living parallel lives with totally opposite experiences. Their love lives, emotions, tragedies and the experiences that shape the individuals they become are all captured in this novel written from the heart. Taken from true events, this memoir takes the reader on a journey into the lives of expats who make up the Kingdom's large demographic. Never been told before, the Saudi

Expat will reveal a sensitive understanding of a culture that is still considered enigmatic and often misunderstood.

With the departure of European Muslims to the "Islamic State" and a wave of terrorist attacks in Europe in recent years, the questions of why and how individuals radicalize to Jihadi extremism attracted keen interest.

This thesis examines how individuals radicalize by applying a theoretical framework that primarily refers to social capital theory, the economics of religion, and social movement theory. The analysis of the biographical backgrounds, pathways of radicalization, and network connections of more than 1,300 Jihadi extremists from Germany, Austria, and Switzerland shows that radicalization primarily need to be considered as a social process of isolation from former social contacts and affiliation with a new religious group. Radicalization is characterized by the transformation of social capital and often channeled through so-

called “strong ties” to friends and family members. These peer networks constitute the social fundament of radical clusters on the local level which are usually linked to a broader milieu through exclusive mosque communities and religious authorities. Bonding social capital within these radical groups minimizes the risk of betrayal and promotes trust essential for clandestine and risky activities.

The New Muslim Guide

Every year, in the last month of the Islamic calendar, millions of Muslims from around the world come together in Mecca to perform the Hajj, the pilgrimage that all capable Muslims should perform at least once in their lives. In 2013, the National Museum of Ethnology in Leiden organized the exhibition *Longing for Mecca. The Pilgrim's Journey*. The chapters in this volume are the outcome of the two-day symposium on the Hajj, which was held at the museum in connection to the exhibition. The central theme that runs through the book is how Hajj practices, representations of Mecca and the

exchange of Hajj-related objects have changed over time. The chapters in the first part of the book discuss religious, social, and political meanings of the Hajj. Here the relationship is addressed between the significance of pilgrimage to Mecca for the religious lives of individuals and groups and the wider contexts that they are embedded in. Together, these anthropological contributions provide insights into the effects on Hajj practices and meanings for present-day Muslims caused by current dimensions of globalization processes. The second part of the book takes material expressions of the Hajj as its starting point. It explores what Hajj-related artifacts can tell us about the import of pilgrimage in the daily lives of Muslims in the past and present. The contributions in this part of the volume point out that Mecca has always been a cosmopolitan city and the nodal point of global interactions far exceeding religious activities. Together, the chapters in this book depict the Hajj ritual as a living tradition. Each with its own focus, the various contributions testify to the fact that,

while the rites that make up the Hajj were formulated and recorded in normative texts in early Islam, details in the actual performance and interpretations of these rites are by no means static, but rather have evolved over time in tandem with changing socio-political circumstances.

History of Makkah Bantam
Islamic finance has started to grow in international finance across the globe, with some concentration in few countries. Nearly 20 percent annual growth of Islamic finance in recent years seems to point to its resilience and broad appeal, partly owing to principles that govern Islamic financial activities, including equity, participation, and ownership. In theory, Islamic finance is resilient to shocks because of its emphasis on risk sharing, limits on excessive risk taking, and strong link to real activities. Empirical evidence on the stability of Islamic banks, however, is so far mixed. While these banks face similar risks as conventional banks do, they are also exposed to idiosyncratic risks, necessitating a tailoring of current risk management practices.

The macroeconomic policy implications of the rapid expansion of Islamic finance are far reaching and need careful considerations.

Modern religious tourism is a main segment of the tourism business. The main goal of religious tourism is aimed at developing human spirituality, spiritual healing, and culture, where a person receives the experience of cooperation, or involvement with the place in which he resides, his people, culture, and religion. This type of tourism is able to play a significant role in the overall goals of society and to promote the establishment of trusting relationships between people of all cultures and religions. Global Development of Religious Tourism is a crucial reference book that contains research on the current religious situation as well as the tourism industry and provides insights on their joint development. It is not possible to study any religious field without understanding the religion itself and its impact on any country's political and social system. Therefore, the work also examines the impact of religion and tourism on economic and social developments across the world. Highlighting topics that include sanctuary cities, religious tourism

management, and religious tourism in regions that span Europe, Africa, the Middle East, and more, this book is targeted to managers, executives, planners, and other professionals in the tourism and hospitality industry; government officials; religious leaders; and researchers, academicians, and students working in the fields of tourism management, business management, information and communication sciences, administrative sciences and management, education, and social and political sciences.

Emerald Group Publishing Gary R. Bunt is a twenty-year pioneer in the study of cyber-Islamic environments (CIEs). In

his new book, Bunt explores the diverse and surprising ways digital technology is shaping how Muslims across vast territories relate to religious authorities in fulfilling spiritual, mystical, and legalistic agendas. From social networks to websites, essential elements of religious practices and authority now have representation online. Muslims, embracing the immediacy and general accessibility of the internet, are increasingly turning to cyberspace for advice and answers to important religious questions. Online environments often challenge traditional models of authority, however. One result is the rise of digitally literate

religious scholars and authorities whose influence and impact go beyond traditional boundaries of imams, mullahs, and shaikhs. Bunt shows how online rhetoric and social media are being used to articulate religious faith by many different kinds of Muslim organizations and individuals, from Muslim comedians and women's rights advocates to jihad-oriented groups, such as the "Islamic State" and al-Qaeda, which now clearly rely on strategic digital media policies to augment and justify their authority and draw recruits. This book makes clear that understanding CIEs is crucial for the holistic interpretation of authority in contemporary Islam.
