The Cambridge Companion to New  
Religious Movements Rowman &

Littlefield Publishers

"What is refreshing about Mr. Lewis' practical work is not only that it combines sociological theory with biblical theology, but that it comes from the pen of a practitioner who speaks from experience in dealing with people in need of esteem. He challenges the popular assumptions that only modern sociological theory can give definition and solution in the issue of esteem. He suggests that the issue of esteem cannot be separated from the problem of sin in human nature. Mr. Lewis argues clearly that Christian faith restores esteem, and this is not merely self-esteem! That is, the call to Christian conversion points beyond individualistic esteem to esteeming God, the world and His entire creation. Self-esteem flows from this

broader biblical view of esteem." Isaac J. Canales, Ph.D. Senior Pastor, Mission Eben-Eser Family Church Carson, California. "A House Esteemed is a rare integration of evangelical Christian outreach, combined with social and behavioral research... that proposes creative and effective adult Christian education programs...that should be widely applied in Evangelical denominations." Hobart A. Burch, Ph. D. Professor, School of Social Work, University of Nebraska at Omaha "I see in A House of Esteemed the potential to be an invaluable aid to the minister, teacher and student alike, in their pursuit of knowledge and clarity concerning some of the traditional beliefs and teachings that have helped to turn our 'Religious World' into a

Battleground'." Rev. Mrs. Anna M. Young,  
D.D. Pastor Emeritus, Pasadena Church  
of God, Pasadena, CA

## CONTEMPORARY ALTERNATIVE SPIRITUALITIES IN ISRAEL

Springer

Exploring the fascinating world of  
dreams, this comprehensive reference  
examines more than 250 dream-related  
topics, from art to history to science,  
including how factors such as self-  
healing, ESP, literature, religion, sex,  
cognition and memory, and medical  
conditions can all have an effect on  
dreams. Dream symbolism and  
interpretation is examined in historical,  
cultural, and psychological detail, while a  
dictionary—updated with 1,000 symbols  
and explanations—offers further insights.

Dreaming about teeth, for instance, can  
indicate control issues, and dreaming of  
a zoo can indicate that the dreamer  
needs to tidy up some situation.  
Examining these concepts and more,  
this is the ultimate dreamer's  
companion.

Project Planning, Scheduling, and  
Control, Sixth Edition: the Ultimate  
Hands-On Guide to Bringing Projects in  
on Time and on Budget Morgan  
Kaufmann

The critically acclaimed biography  
Meriwether Lewis, coauthored by  
Thomas C. Danisi, was praised for its  
meticulous research and for shedding  
new light on the adventurous life and  
controversial death of the great explorer  
who became famous through the Lewis  
and Clark Expedition. Now, the author,

with some help from contributors, extends his groundbreaking studies of Meriwether Lewis with this compilation of historical essays that offers new findings based on recently discovered documents, tackling such intriguing subjects as: -The court-martial of Meriwether Lewis: Danisi's discovery of the astonishing never-before published transcript of the entire court-martial proceedings affords him the distinction of being the first historian to mine the document for the many insights it offers into the then-untested twenty-one-year-old officer, who eloquently defended himself and won his case. - Documentation straight from the medical ledgers of Dr. Antoine Saugrain, the physician who treated Governor Lewis, which helps to confirm that Lewis

suffered from malaria prior to his celebrated trek to the Pacific Ocean with the Corps of Discovery and continuing through his service as governor of the Louisiana Territory. Was Lewis's death, as reported, the result of suicide, or was he merely a victim of this episodic and incurable disease? -Documentation that proves the true nature of the much-discussed Gilbert Russell Statement given at the court-martial of General James Wilkinson. Some historians have argued that Wilkinson orchestrated Lewis's murder, but Danisi's research sets the record straight. -The role of Major James Neelly in Lewis's last days. This subject has gained much prominence through the History Channel, according to which Neelly supposedly lied to President Thomas

Jefferson about his presence at Meriwether Lewis's burial, but Danisi has evidence to the contrary. The author presents an abundance of additional material to fill in previous historical gaps regarding the mysteries and controversies surrounding Lewis's life and death. In doing so, he paints a vivid picture of the brilliant rise of an ambitious young man by virtue of courage, talent, and political connections, and the tragic fall of a conscientious public servant under the weight of chronic illness, bureaucratic pettiness, and the political intrigue that was rampant throughout America's Wild West. This superb contribution to Meriwether Lewis research is a must-read for students and scholars of American history and anyone with an

interest in one of our nation's most important explorers and public servants.

**Directory of the American Psychological Association, 1981**

Cambridge University Press

This first book-length study of religious schisms as a general phenomenon draws widely from different traditions and geographical areas.

**HANDBOOK OF RELIGION AND THE AUTHORITY OF SCIENCE**

Routledge

The Media of Diaspora examines how diasporic communities have used new communications media to maintain and develop community ties on a local and transnational level. This collection of essays from a wide range of different diasporic contexts is a unique

contribution to the field.

**Sacred Fury** Cambridge University Press

A comprehensive single-volume study surveying C. S. Lewis's career as an academic, Christian thinker, and creative writer.

## **AFRICAN SCIENCE**

Oxford University Press

"Three experts explore Satanism as a contemporary movement that is in continuous dialogue with popular culture, and which provides a breeding ground for other new religious movements."--Jacket.

Project Planning, Scheduling, and Control, Sixth Edition: the Ultimate Hands-On Guide to Bringing Projects in on Time and on Budget

A sensitive investigation into Benin's occult world, in which magic, science, and the Vodun religion converge into a single universal force. Falen demonstrates how a deep engagement with another lived reality opens our minds and contributes to understanding across cultural difference.

## **HANDBOOK OF SCIENTOLOGY**

Elsevier

Satanism is a phenomenon that has existed as a prominent trope since very beginning of Christianity, when the Church Fathers entertained fantasies about people worshipping the Devil and indulging in macabre rituals. In the early modern period, similarly unfounded ideas led to the infamous witch trials which transpired primarily between 1400

and 1700. In the 1980s and 1990s, what has been labelled a "Satanic Panic" swept the United States and parts of Europe, with again, unfounded rumors about secret Satanist networks committing gruesome murders, kidnappings and ritualistic child abuse. Today, the so called Pizzagate and QAnon conspiracy theories in the United States again draw on these motifs, this time postulating that left-wing Satanists are secretly manipulating politics and doing nefarious deeds in the shadows. This book, however, is only indirectly concerned with the purely fictional Satanism of such paranoid fantasies. It does not deal directly with the literary tradition of Satanism either, where Satanists can appear as antagonists (or, more rarely, protagonists) in the plot of a

story, or authors express Satanic sympathies in a poem or two. Rather, our selection of source texts focuses on actual, existing Satanic groups, and thinkers of importance to the emergence of a Satanic milieu that forms part of a broader landscape of alternative religion. Some of the texts do in a sense belong to the above-mentioned categories, e.g., Léo Taxil's spoof on conspiracy theories, or the quite literary pseudo-histories of Satanism - in fact Satanic tracts in disguise of Jules Michelet and Stanislaw Przybyszewski, but we have aimed to concentrate on 1. self-designated Satanic groups and ideologists, 2. groups and ideologists who prominently revere a figure they identify with Satan, even though they may not self-designate as Satanists, and 3. groups and ideologists

mostly excluding, however, literary texts and conspiracy theories whose re-interpretations of Satan were crucial to the growth of such ideas--

### **Misunderstanding Cults** BRILL

This volume is the first English-language anthology to engage with the fascinating phenomena of recent surges in New Age and alternative spiritualities in Israel. Contributors investigate how these New Age religions and other spiritualities—produced in Western countries within predominantly Protestant or secular cultures—transform and adapt themselves in Israel. The volume focuses on a variety of groups and movements, such as Theosophy and Anthroposophy, Neopaganism, Channeling, Women’s Yoga, the New Age festival scene, and even Pentecostal

churches among African labor migrants living in Tel Aviv. Chapters also explore more Jewish-oriented practices such as Neo-Kabbalah, Neo-Hassidism, and alternative marriage ceremonies, as well as the use of spiritual care providers in Israeli hospitals. In addition, contributors take a close look at the state’s reaction to the recent activities and growth of new religious movements.

### **CONTEMPORARY RELIGIOUS SATANISM**

Oxford University Press

There is currently much discussion regarding the causes of terrorist acts, as well as the connection between terrorism and religion. Terrorism is attributed either to religious 'fanaticism' or, alternately, to political and economic

factors, with religion more or less dismissed as a secondary factor. The Cambridge Companion to Religion and Terrorism examines this complex relationship between religion and terrorism phenomenon through a collection of essays freshly written for this volume. Bringing varying approaches to the topic, from the theoretical to the empirical, the Companion includes an array of subjects, such as radicalization, suicide bombing, and rational choice, as well as specific case studies. The result is a richly textured collection that prompts readers to critically consider the cluster of phenomena that we have come to refer to as 'terrorism,' and terrorism's relationship with the similarly problematic set of phenomena that we

call 'religion.'

**The Media of Diaspora** Cambridge University Press

The Church of Satan was founded by Anton LaVey on April 30, 1966. In his hands, Satan became a provocative symbol for indulgence, vital existence, natural wisdom and the human being's true animal nature. At present, religious Satanism exists primarily as a decentralized subculture with a strong internet presence within a larger Satanic milieu in Western culture. Though most are inspired by LaVey, the majority of contemporary Satanists are not members of the Church of Satan. The various expressions of modern Satanism all navigate in today's detraditionalized religious market through the creative appropriation of popular culture,

philosophy, literature and religion. The concrete solutions are varied; but they all understand the power of transgression allying oneself with a most powerful symbol of resistance, namely Satan. Thus, contemporary religious Satanism could be understood as a complex negotiation of atheism, secularism, esotericism and self: A "self-religion" in the modern age. Despite the fascinating nature of religious Satanism, it has attracted little scholarship until relatively recently. This book brings together a group of international scholars to produce the first serious book-length study of religious Satanism, presenting a collection that will have wide appeal to specialists and non-specialists alike. The first part contains broader studies of influential groups and

important aspects of the Satanic milieu, especially regarding historical developments, the construction of tradition and issues of legitimacy. The second part narrows the view to regional variations, especially with studies on Northern and Eastern Europe. The third part consists of primary documents selected for their representational and informational value.

### **THE CAMBRIDGE COMPANION TO C. S. LEWIS**

Routledge

The present collection examines the many different ways in which religions appeal to the authority of science. The result is a wide-ranging and uniquely compelling study of how religions adapt their message to the challenges of the

contemporary world.

## **VIOLENCE AND NEW RELIGIOUS MOVEMENTS**

Routledge

The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions.

[A House Esteemed: Building Esteem for God, for Ourselves and for the Church](#)

McGraw-Hill Companies

Revised edition of the author's Project planning, scheduling & control, c2011.

*Excel and R Companion to the Second Edition of Quantifying the User*

*Experience* Christian Faith Publishing, Inc.

The Church of Scientology is one of the most recognizable American-born new

religions, but perhaps the least understood. With academic and popular interest on the rise, many books have been written about Scientology and surely more will follow. Although academics have begun to pay more attention to Scientology, the subject has received remarkably little qualitative attention. Indeed, no work has systematically addressed such questions as: what do Scientologists themselves have to say about their religion's history, theology, and practices? How does Scientology act as a religion for them? What does "lived religion" look like for a Scientologist? This is not so much a book about the Church of Scientology, its leaders, or its controversies, as it is a compilation of narratives and histories based on the largely unheard or ignored

perspectives of Scientologists themselves. Drawing on six years of interviews, fieldwork, and research conducted among members of the Church of Scientology, this groundbreaking work examines features of the new religion's history, theology, and praxis in ways that move discussion beyond apostate-driven and exposé accounts.

### **WORKING TOGETHER**

Oxford University Press

The dictionary definition of tradition refers to beliefs and practices that have been transmitted from generation to generation, however, 'tradition' can rest simply on the claim that certain cultural elements are rooted in the past. Claim and documented historical reality need

not overlap. In the domain of religion, historically verifiable traditions coexist with recent innovations whose origins are spuriously projected back into time. This book examines the phenomenon of 'invented traditions' in religions ranging in time from Zoroastrianism to Scientology, and geographically from Tibet to North America and Europe. The various contributions, together with an introduction that surveys the field, use individual case studies to address questions such as the rationale for creating historical tradition for one's doctrines and rituals; the mechanisms by which hitherto unknown texts can enter an existing corpus; and issues of acceptance and scepticism in the reception of dubious texts.

## THE MEDIA OF DIASPORA

Oxford University Press

Over the past dozen years or so, an increasingly disproportionate percentage of new religions scholars have arisen in Nordic countries, which now teach at universities in Denmark, Finland, Norway, Sweden and the Baltic countries. *Nordic New Religions*, co-edited with Inga B. Tøllefsen, surveys this rich field of study in this area of the world, focusing on the scholarship being produced by scholars in this region of northern Europe.

### The Rise of Contemporary Spiritualism

Psychology Press

In terms of public opinion, new religious movements are considered controversial for a variety of reasons. Their social

organization often runs counter to popular expectations by experimenting with communal living, alternative leadership roles, unusual economic dispositions, and new political and ethical values. As a result the general public views new religions with a mixture of curiosity, amusement, and anxiety, sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience. This updated and revised second edition of *Controversial New Religions* offers a scholarly, dispassionate look at those groups that have generated the most attention, including some very well-known classical groups like The Family, Unification Church, Scientology, and Jim Jones's People's Temple; some relative newcomers such as the Kabbalah

Centre, the Order of the Solar Temple, Branch Davidians, Heaven's Gate, and the Falun Gong; and some interesting cases like contemporary Satanism, the Raelians, Black nationalism, and various Pagan groups. Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis. By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field, this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories.

### **QUANTIFYING THE USER**

### **EXPERIENCE**

University of Toronto Press

The relationship between new religious movements (NRMs) and violence has long been a topic of intense public interest--an interest heavily fueled by multiple incidents of mass violence involving certain groups. Some of these incidents have made international headlines. When New Religious Movements make the news, it's usually because of some violent episode. Some of the most famous NRMs are known much more for the violent way they came to an end than for anything else. Violence and New Religious Movements offers a comprehensive examination of violence by-and against-new religious movements. The book begins with

theoretical essays on the relationship between violence and NRMs and then moves on to examine particular groups. There are essays on the "Big Five"--the most well-known cases of violent incidents involving NRMs: Jonestown, Waco, Solar Temple, the Aum Shunrikyo

subway attack, and the Heaven's Gate suicides. But the book also provides a richer survey by examining a host of lesser-known groups. This volume is the culmination of decades of research by scholars of New Religious Movements.
