War II weapons? Weapons of World War II | HowStuffWorks World War II, conflict that involved virtually every part of the world during 1939-45. The main combatants were the Axis powers (Germany, Italy, and Japan) and the Allies (France, Great Britain, the United States, the Soviet Union, and China). It was the bloodiest conflict, as well as the largest war, in history. World War II | Facts, Summary, Combatants, & Causes ... At the time the United States entered World War II, the military was still using weapons that had been in use during the First World War, including long trench knives. 11 Weapons That Won World War II | Mental Floss World War II Weapons World War II saw the dawn of several different forms of military technology including rifles, bombs, tanks, planes, and eventually nuclear arms. The infantry soldier in World War II was most commonly armed with a full sized battle rifle and some form of fighting knife. Buy World War II Weapons For Sale At Auction | Invaluable Weapons of World War II: A Photographic Guide to Tanks, Howitzers, Submachine Guns, and More Historic Ordnance Weapons of World War II: Amazon.com: Books World

War II (WWII) was a long and bloody war that lasted about six years. Officially beginning on September 1, 1939, when Germany invaded Poland, World War II lasted until both the Germans and the Japanese had surrendered to the Allies in 1945. Here is a timeline of major events during the war. World War II Timeline From 1939 to 1945A later German invention, the "eighty-eight," was originally developed as an antitank weapon but doubled as both an antiaircraft and direct fire gun. It is generally adjudged the best artillery weapon in World War II. Developments in aircraft design -- the stressed metal skin and the monoplane -- made the introduction of fighter aircraft possible.
