ANAYA COOLEY

Yosemite in the Fifties Random House Value Publishing

In 1989, while attempting a new route on a difficult overhanging rock face, climber Dan Osman fell. Again and again, protected by

the rope, he fell. He decided then that it would not be in climbing but in falling that he would embrace his fear--bathe in it, as he says, and move beyond it. A captivating exploration of the daredevil world of rock climbing, as well as a thoughtful meditation on the role of risk and fear in the author's own life. In the tradition of the wildly popular man-versus-nature genre that has launched several bestsellers, Andrew Todhunter follows the

lives of world-class climber Dan Osman and his coterie of friends as he explores the extremes of risk on the unyielding surface of the rock. Climbing sheer rock faces of hundreds or thousands of feet is more a religion than a sport, demanding dedication, patience, mental and physical strength, grace, and a kind of obsession with detail that is crucial just to survive. Its artists are modern-day ascetics who often sacrifice nine-to-five jobs,

material goods, and the safety of everyday life to pit themselves and their moral resoluteness against an utterly unforgiving opponent. In the course of the two years chronicled in *Fall of the Phantom Lord*, the author also undertakes a journey of his own as he begins to weigh the relative value of extreme sports and the risk of sudden death. By the end of the book, as he ponders joining Osman on a dangerous fall from a high bridge to feel what Osman experiences, Todhunter comes to a new understanding of risk taking and the role it has in his life, and in the lives of these climbers. Beautifully written, *Fall of the Phantom Lord* offers a fascinating look at a world few people know. It will surely take its place alongside *Into Thin Air* and *The Perfect Storm* as a classic of adventure literature.

Mountains of North America The Mountaineers Books

At the beginning of his memoir *Life Lived Wild, Adventures at the Edge of the Map*, Rick Ridgeway tells us that if you add up all his many expeditions, he's spent over five years of his life sleeping in tents: "And most of that in small tents pitched in the world's most remote regions." It's not a boast so much as an explanation. Whether at elevation or raising a family back at sea level, those years taught him, he writes, "to distinguish matters of consequence from matters of inconsequence." He leaves it to his readers, though, to do the final sort of which is which."--Amazon.

YOSEMITE IN THE SIXTIES Pearson/Education

From the acclaimed author of *Enduring Patagonia* comes a dazzling tale of aerial adventure set against the roiling backdrop of war in Asia. The incredible real-life saga of the flying band of brothers who opened the skies over China in the years leading up to World War II—and boldly safeguarded them during that conflict—*China's Wings* is one of the most exhilarating untold chapters in the annals of flight. At the center of the maelstrom is the book's courtly, laconic protagonist, American aviation executive William Langhorne Bond. In search of adventure, he arrives in Nationalist China in 1931, charged with turning around the turbulent nation's flagging airline business, the China National Aviation Corporation (CNAC). The mission will take him to the wild and lawless frontiers of commercial aviation: into cockpits with daredevil pilots flying—sometimes literally—on a wing and a prayer; into the dangerous maze of Chinese politics, where scheming warlords and volatile military officers jockey for advantage; and into the boardrooms, backrooms, and corridors of

power inhabited by such outsized figures as Generalissimo and Madame Chiang Kai-shek; President Franklin Delano Roosevelt; foreign minister T. V. Soong; Generals Arnold, Stilwell, and Marshall; and legendary Pan American Airways founder Juan Trippe. With the outbreak of full-scale war in 1941, Bond and CNAC are transformed from uneasy spectators to active participants in the struggle against Axis imperialism. Drawing on meticulous research, primary sources, and extensive personal interviews with participants, Gregory Crouch offers harrowing accounts of brutal bombing runs and heroic evacuations, as the fight to keep one airline flying becomes part of the larger struggle for China's survival. He plunges us into a world of perilous night flights, emergency water landings, and the constant threat of predatory Japanese warplanes. When Japanese forces capture Burma and blockade China's only overland supply route, Bond and his pilots must battle shortages of airplanes, personnel, and spare parts to airlift supplies over an untried five-hundred-mile-long aerial gauntlet high above the Himalayas—the infamous "Hump"—pioneering one of the most celebrated endeavors in aviation history. A hero's-eye view of history in the grand tradition of Lynne Olson's *Citizens of London*, *China's Wings* takes readers on a mesmerizing journey to a time and place that reshaped the modern world.

Patagonia

The sheer granite walls of Yosemite Valley galvanized a dedicated group of rock climbers in the 1960s, who saw the nearly holdless, glacier-polished faces as the purest form of challenge. The awesome Half Dome and El Capitan were first climbed in the late 1950s, ushering in a new era of rock climbing later known as the golden age of Yosemite climbing. During this era, the climbers of the sixties developed the techniques, tools, and philosophies that made Yosemite the most influential rock climbing arena in the world. In the spirit of the social changes of the sixties, a small group of committed climbers dropped out of mainstream work and society and took up residence in Camp 4, perfecting their skills and developing a unique social scene. This austere, boulder-strewn campground became the epicenter of the climbing world. It served both as a launching pad for spectacular feats and adventures and a refuge from them. Here plans were made, teams were formed, and the rest of life was lived. The significance

of Camp 4 was recently recognized with its placement on the National Register of Historic Places.

LIFE LIVED WILD

Patagonia

The awesome beauty and majesty of glaciers, the world of ice which has shaped and reshaped large parts of the earth's surfaces, are presented here through more than one hundred photographs and a closely integrated, informed text. Austin Post's series of aerial photographs of glaciers along the North Pacific Coast of North America and into the interior ranges of Alaska, is supplemented with ground-based photographs taken in the course of glacier research and by additional illustrations from the Himalayas, Switzerland, Chile, and other parts of the world. The authors clearly explain the features illustrated. Their discussion of the effects of glaciers on the landscape, formation and mass balance, flow and fluctuations, moraines, ogives, and surface details is valuable for the general reader as well as the expert.

THE STANFORD ALPINE CLUB

LA Siesta Press

Details the author and his partner Willi Unsoeld's ascent of Everest's West Ridge in 1963.

The Stonemasters The Mountaineers Books

The unique artistic vision of Galen Rowell, one of the world's greatest photographers, is presented in these spectacular landscapes. "The viewer's first reaction to these photographs is awe--they are sheer magic."--Publishers Weekly. 80 color photos.

Royal Robbins YOSEMITE IN THE SIXTIES

A New York Times Bestseller A dramatic, inspiring memoir by legendary rock climber Tommy Caldwell, the first person to free climb the Dawn Wall of Yosemite's El Capitan "The rarest of adventure reads: it thrills with colorful details of courage and perseverance but it enriches readers with an absolutely captivating glimpse into how a simple yet unwavering resolve can turn adversity into reward." --The Denver Post A finalist for the Boardman Tasker Award for Mountain Literature On January 14, 2015, Tommy Caldwell, along with his partner, Kevin Jorgeson, summited what is widely regarded as the hardest climb in history—Yosemite's nearly vertical 3,000-foot Dawn Wall, after nineteen days on the route. Caldwell's odds-defying feat—the

subject of the documentary film *The Dawn Wall* to be released nationwide in September—was the culmination of an entire lifetime of pushing himself to his limits as an athlete. This engrossing memoir chronicles the journey of a boy with a fanatical mountain-guide father who was determined to instill toughness in his son to a teen whose obsessive nature drove him to the top of the sport-climbing circuit. Caldwell's affinity for adventure then led him to the vertigo-inducing and little understood world of big wall free climbing. But his evolution as a climber was not without challenges; in his early twenties, he was held hostage by militants in a harrowing ordeal in the mountains of Kyrgyzstan. Soon after, he lost his left index finger in an accident. Later his wife, and main climbing partner, left him. Caldwell emerged from these hardships with a renewed sense of purpose and determination. He set his sights on free climbing El Capitan's biggest, steepest, blankest face—the Dawn Wall. This epic assault took more than seven years, during which time Caldwell redefined the sport, found love again, and became a father. *The Push* is an arresting story of focus, drive, motivation, endurance, and transformation, a book that will appeal to anyone seeking to overcome fear and doubt, cultivate perseverance, turn failure into growth, and find connection with family and with the natural world.

The Push Ten Speed Press

The Golden Age is the third volume of legendary mountain climber, Royal Robbins, autobiography.

Camp 4 Mountaineers Books

Half Dome documents the story of Yosemite's iconic mountain through the ages, from 500 million years ago to the present day. Learn about Half Dome's fiery beginnings. Discover its unique summit ecology. Hear the origin story that the Native Americans knew. Feel the exhilaration of the first humans to climb its steep faces. Read the tragic tales of death that have befallen many on this dome. Tune in to the management of a mountain that belongs to all. Finally, find inspiration from the beauty that our planet holds. This book is an excellent resource for anyone visiting Yosemite, hikers and climbers who wish to reach the summit, lovers of mountains, and readers of history. Included are several maps of the area, numerous historical photos and drawings, a timeline of Half Dome, and an index.

Downward Bound Bantam

Provides detailed information on locations, approaches, ascents, and descents for numerous climbing routes throughout the valley

Was It Worth It? Patagonia

Cultural Writing. Great routes, great writing. It was a special time, this Golden Age of Yosemite climbing. Virgin walls soared 3,000 feet. Immense pinnacles had golden eagles atop them, but no cairns. The phrase "kids in a candy store" springs to mind. Excited by such possibilities, climbers who barely knew what they were up against swarmed up new routes, and then, as if to further savor their adventures, put pen to paper. Steve Roper presents fifty-four selections that represent the most interesting and significant literary output about Yosemite climbing from its beginnings, in 1933, until 1974. Sixty-seven photographs and illustrations.

Ordeal by Piton Center for the Study of Language and Information Publica Tion

"If wilderness is outlawed, only outlaws can save wilderness."

Edward Abbey In a collection of gripping stories of adventure, Doug Peacock, loner, iconoclast, environmentalist, and contemporary of Edward Abbey, reflects on a life lived in the wild, asking the question many ask in their twilight years: "Was It Worth It?" Recounting sojourns with Abbey, but also Peter Matthiessen, Doug Tompkins, Jim Harrison, Yvon Chouinard and others, Peacock observes that what he calls "solitary walks" were the greatest currency he and his buddies ever shared. He asserts that "solitude is the deepest well I have encountered in this life," and the introspection it affords has made him who he is: a lifelong protector of the wilderness and its many awe-inspiring inhabitants. With adventures both close to home (grizzlies in Yellowstone and jaguars in the high Sonoran Desert) and farther afield (tigers in Siberia, jaguars again in Belize, spirit bears in the wilds of British Columbia, all the amazing birds of the Galapagos), Peacock acknowledges that Covid 19 has put "everyone's mortality in the lens now and it's not necessarily a telephoto shot." Peacock recounts these adventures to try to understand and explain his perspective on Nature: That wilderness is the only thing left worth saving. In the tradition of Peacock's many best-selling books, *Was It Worth It?* is both entertaining and thought provoking. It challenges any reader to make certain that the answer to the question for their own life is "Yes!"

A PLACE CALLED JACKSON HOLE

Touchstone

The bestselling author of *The Mountain* and *No Shortcuts to the Top* chronicles his three attempts to climb the world's tenth-highest and statistically deadliest peak while exploring the dramatic and tragic history of others who have made—or attempted—the ascent. "Viesturs and Roberts have written an exhaustively researched and wonderfully compelling history of the most fascinating and dangerous of the Himalayan giants."—David Breashers, veteran mountaineer and documentary filmmaker, director of IMAX film *Everest* As a high school student, Ed Viesturs read and was captivated by the French climber Maurice Herzog's famous and grisly account of the first ascent of Annapurna in 1950. When he began his own campaign to climb the world's fourteen highest peaks in the late 1980s, Viesturs looked forward with trepidation to undertaking Annapurna himself. Two failures to summit in 2000 and 2002 made Annapurna his nemesis. His successful 2005 ascent was the triumphant capstone of his climbing quest. In *The Will to Climb* Viesturs and co-author David Roberts bring the extraordinary challenges of Annapurna to vivid life through edge-of-your-seat accounts of the greatest climbs in the mountain's history, and of his own failed attempts and eventual success. In the process Viesturs ponders what Annapurna reveals about some of our most fundamental moral and spiritual questions—questions, he believes, that we need to answer to lead our lives well.

HANGDOG DAYS

Island Press

In 1945, Stanford students Freddy Hubbard and Cynthia Cummings decided to organize an outing group—something that would offer them the same mountaineering experiences they'd enjoyed at home as members of the Junior Colorado Mountain Club. They were not entirely successful. The club, in Hubbard's words, "degenerated into a hiking club." It took three returning World War Two veterans, Al Baxter, Larry Taylor, and Fritz Lippmann, to establish a campus climbing club. This was spring of 1946, and Hubbard and Cummings joined right up, beginning the almost forty-year history of one of America's most prominent college mountaineering groups: the Stanford Alpine Club. The

club's identity was forged in the crucible of Yosemite Valley's steep, smooth granite spires and cliffs. Group members made important contributions to the development of Yosemite rockclimbing technique, and helped carry the lessons learned to the world's major ranges, but the club's focus was on something more important—the personal, social, and recreational growth of its members. Coeducational membership was a key factor separating the SAC from longer-established and better-known eastern college clubs, and a tradition of "manless climbing" began with the group's inaugural year. Men and women alike were encouraged to try things that seemed beyond their limits and capabilities, testing both physical and mental strength. And the dangers involved—the club saw its fair share of tragedy, injury, and death—did even more to bring members together and change their lives. The Stanford Alpine Club is a large format (9.25 x 12.25 inches) photographic history of the club, following the club through its inception, its first trips to Yosemite, its most daring moments in the Himalayas, and its later days of scaling campus buildings; this fascinating volume presents portfolios of photographs by SAC members Tom Frost, Leigh Ortenburger, and Henry Kendall, an insightful text by John Rawlings, reflections and snapshots from former members, lyrics from the SAC songbook, and other tidbits from this history of this amazing association.

No Bad Waves Patagonia

When Jerry Moffatt burst onto the scene as a brash 17-year-old, rock climbing had never seen anyone like him before. Fiercely ambitious, even as a boy Moffatt was focused on one thing: being the best in the world. This is the story of his meteoric rise to stardom, and how he overcame injury to stay at the top for over two decades. Top sport climber, brilliant competitor and a pioneer in the new game of bouldering, Moffatt's story is that of climbing itself in the last thirty years. Yet Jerry Moffatt is more than a dedicated athlete. Travelling the world to fulfil his dreams, his story is a compelling and often hilarious account of the climbing community with all its glories, dangers and foibles, as well as the story of a true sporting legend. Grand Prize Winner - Banff Mountain Book Festival 2009.

Written by one of the most revered surfers of his generation, Gerry Lopez's *Surf Is Where You Find It* is a collection of stories about a lifetime of surfing. But more than that, it is a collection of stories about the lessons learned from surfing. It presents 38 stories about those who have been influential in the sport — surfing anytime, anywhere, and in any way. Lopez, an innovator in stand-up-paddle (one of the fastest growing water sports in the world), now shares his stories about pioneering that sport. Conveyed in Gerry's unique voice, augmented with photos from his personal collection, this book is a classic for surf enthusiasts everywhere.

China's Wings Grand Teton Association

Downward Bound is Warren Harding's offbeat and inventive climbing classic. Harding gives readers an introduction to climbing and recounts his first ascents of the Nose and the Wall of the Early Morning Light on El Capitan in Yosemite Valley. The introduction to rock climbing and big walls is farcical. The tales of his ascents are vivid. And throughout he strives to return some of the fun to climbing through humorous story telling of the climbing culture of the 60s and 70s. *Downward Bound* is a testament to the rebellious and magnetic Batso. Excerpt: Why do people climb? How the hell do I know? Answers to this perennial question range from Mallory's rather facetious (I think) "Because it's there" to (again) Mallory's enigmatic "If you ask the question, there can be no answer." Personally, I dig another version of Mallory's statement. Like, "We climb because it's there and we're mad!" How else could you explain freezing your ass off, battling heat and thirst, scaring yourself to death just to get up some rock face or mountain peak. Rock climbing is especially questionable in this respect. In basic mountain climbing the object is to reach the summit by any or the easiest route possible. In rock climbing it's not really necessary to reach a summit; the game seems to amount to finding the most difficult ways of getting nowhere."

Surf Is Where You Find It Crown

* Includes stories of such greats as Royal Robbins, Yvon Chouinard, Allen Steck, and Warren Harding * Captures the raucous, outrageous, innovative spirit of climbing in Yosemite

during this period * Portrays the advances in equipment and style that revolutionized big-wall climbing In the 1960's, California's Yosemite Valley was the center of the rock-climbing universe. Young nonconformists -- many of them the finest rock climbers in the world -- channeled their energy toward the largely untouched walls and cracks. Soon climbers from around the globe were coming to Camp 4 -- gathering spot for the creators of the Golden Age of Yosemite climbing -- to see what all the fuss was about. Climber and author Steve Roper spent most of 10 years living in the Yosemite Valley with its intriguing inhabitants. Camp 4 is his take on the era's top climbers and the influences behind their achievements. The text is full of stories both hilarious and revealing about the likes of bolt-disdaining Royal Robbins; fun-loving, big-wall expert Warren Harding; free-climber Frank Sacherer; multi-talented Chuck Pratt; master craftsman Yvon Chouinard; and ill-fated Mark Powell. Roper also tips his hat to the elder statesmen of the 1930s and 1940s who pioneered early, important climbs in the valley. Camp 4 looks at the most significant climbs, and the most riveting controversies of a legendary era. With more than 50 fascinating historical photographs, most never before published, Camp 4 is the definitive history of Yosemite climbing during this period.

The West Face CreateSpace

Half a century ago a rag-tag group of innovators was building a foundation for modern American rock climbing from a makeshift home base in Yosemite. Photographer Glen Denny was a key figure in this golden age of climbing, capturing pioneering feats on camera while tackling challenging ascents himself. In entertaining short pieces enlivened by his iconic black-and-white images of Yosemite's big wall legends, Denny reveals a young man's coming of age and provides a vivid look at Yosemite's early climbing culture. He relates such precarious achievements as hauling water in glass gallon jugs up the east face of Washington Column, nailing the 750-foot Rostrum in a punishing heat wave, and dangling overnight on El Capitan's Dihedral Wall in a lightning storm. Each true tale captures the spirit of historic Camp 4, where Denny and others plan the next big climb while living on the cheap and dodging park rangers.
