Many students entering
college today to not have
the reading skills needed
to do effective work in
their courses. A related
problem is that students
often lack the skills
required to think in a clear
and logical way. Langan
introduces students to the
reading skills they need to
develop; he includes
reading selections, skill
tests, and tips on reading
for science and
mathematics courses.
The Advanced Reading-
writing Connection
Routledge
Part book, part CD-ROM,
Coming of Age marks a
new age in curriculum
development, offering
innovative new ideas for
transforming advanced
writing courses. Together,
these essays describe and
offer concrete examples
of curriculum that
incorporates discipline-
based theory and history,
that situates writers in
public discourse, and that
fully prepares students for
careers as writers.
Because Coming of Age is
intended to instigate

direct, immediate
curriculum and
pedagogical action, it is
ideally suited to the
book/CD-ROM format that
the authors call print-
linked publishing. The
theoretical framework is
presented in the solid,
stable medium of print.
Part I proposes the move
from "advanced
composition" to
"advanced writing," and
along with Part II, argues
for what the
undergraduate writing
curriculum should
accomplish. The
generative course
descriptions and program
recommendations are
presented in the
interactive medium of a
CD-ROM. Here you'll find
Parts III and IV, which
explain and demonstrate
how to accomplish these
goals, discuss ways to
implement such
curriculum, and provide
concrete suggestions from
a variety of campuses
that have done so. The
CD-ROM also features a
full list of course
descriptions for each
selection. All of the
electronic material can be
downloaded as you
compose your own

curriculum and course proposals.

The magic of spring, the gift of life and water in a dry land, and the power of kids to make a difference in our world. Eleven-year-old Shanna finds a secret pool on a class field trip to the "waste land" near her new school. The land nearby is dry and covered with scrub brush, but in a hidden pocket there is a wild profusion of flowers, trees and life around a trickle of water. Shanna's teacher says the waste land is scheduled to be bulldozed for a building project and the tiny spring will be destroyed. But Shanna discovers something amazing that few outside her goddess-oriented family would believe-a magical protector of the spring, maybe even a real fairy. Shanna and her eight-year-old brother Rye decide they have to do something to save the spring and its magical resident. Amid a sharing

of the festival of Beltane, the kids learn how passion and action can blossom to make positive change. This story is partly based on events from the author's childhood, involving an endangered spring in dry country. But it is also an integral part of the Children's Wheel of the Year, a collection of stories about the adventures of Shanna and Rye which make the concepts and themes of seasonal celebration come alive for children. *Advanced Reading Writing and Grammar for the SAT* Prentice Hall University Success Writing is designed for English language learners preparing for mainstream academic environments. A flexible three-part approach systematically builds skills tied to specific learning outcomes along with authentic writing strategies from top Stanford University professors. A strong focus on critical and creative thinking prepares students to approach writing assignments in different disciplines and write in academic degree classes. The Writing stand supports students through the writing process and moves them away from the production of highly

structured essays. * Each part is a self-contained module allowing teachers to focus on the highest-value skills and content. Topics are aligned around science, technology, engineering, arts, and mathematics (STEAM) content. - Parts 1 and 2 include presentation and controlled writing practice that guide students through the writing process while building their essential writing and critical thinking skills. - Part 3 includes interviews with professors discussing their own writing processes. Assignments allow students to apply and expand the skills acquired in Parts 1 and 2. * Additional online skill and vocabulary practices, collaboration activities, and assessments. * Strategies for academic success and soft skills delivered via online videos. * NEW!
