### TOMMY SHANIYA

**Green Grass, Running Water** Aegitas  
"A fascinating attempt to marry personal experience with academic analysis to help us all reconceive of one option for later-life living." —The Huffington Post When her husband's ill health forces them to move into an assisted living facility, Anne M. Wyatt-Brown suddenly finds herself surrounded by elderly residents. In this lively and provocative collection, other distinguished gerontologists reflect on Anne's moving account of her transition to becoming a member of a vibrant and sociable community that offers care-giving support, while encouraging her to pursue her own interests, including exercising, reviewing articles for scholarly journals, serving on committees, and singing. By redefining notions of care and community, undoing the stigmas of aging, and valuing the psychological factors involved in accepting assistance, this volume provides a bold new framework for thinking about aging, continuing care, making the big move to a retirement community, and living with vitality in the new environment. "We have very few accounts of gerontologists who have grown old, and never before a memoir by a gerontologist

who moved into a long-term care facility. This book is not only a first, but is a remarkable and riveting account of challenges all of us must contemplate . . . memorable and compelling." —Rick Moody, retired Vice President for Academic Affairs, AARP "Readers will be drawn to this book for its clarity and candidness. It will appeal to people of all ages, but especially to the large cohort of readers aging into later life and facing important choices about their own care and that of their partners." —Barbara Frey Waxman, author of *To Live in the Center of the Moment*

**The Truth about Stories** Transcript Verlag, Roswitha Gost, Sigrid Nokel u. Dr. Karin Werner  
The story of a European woman and s self-annihilating plunge into the intrigues, passions, and pagan rituals of Mexico. Lawrence and s mesmerizing and unsettling 1926 novel is his great work of the political imagination.

### FIELD NOTES

Oxford University Press  
The Wisdom Paradox explores the aging of the mind from a unique, positive perspective. In an era of increasing fears about mental deterioration, world-renowned neuropsychologist Elkhonon Goldberg provides startling new evidence that though the brain diminishes in some

tasks as it ages, it gains in many ways. Most notably, it increases in what he terms "wisdom": the ability to draw upon knowledge and experience gained over a lifetime to make quick and effective decisions. Goldberg delves into the machinery of the mind, separating memory into two distinct types: singular (knowledge of a particular incident or fact) and generic (recognition of broader patterns). As the brain ages, the ability to use singular memory declines, but generic memory is unaffected—and its importance grows. As an individual accumulates generic memory, the brain can increasingly rely upon these stored patterns to solve problems effortlessly and instantaneously. Goldberg investigates the neurobiology of wisdom, and draws on historical examples of artists and leaders whose greatest achievements were realized late in life.

### THE BIG MOVE

Lantzville, B.C. : Oolichan Books  
"Twenty-year-olds dread thirty; forty-year-olds fear fifty; sixty-year-olds worry about seventy, and so it goes. There is something to worry about, though it isn't what you'd expect: research shows that having a bad attitude toward aging when we're young is associated with poorer health when we're older. These worries tend to peak in midlife; but in *Lighter as*

We Go, Mindy Greenstein and Jimmie Holland show us that, contrary to common wisdom, our sense of well-being actually increases with our age--often even in the presence of illness or disability. Greenstein and Holland--on a joint venture between an eighty-five-year-old and a fifty-year-old--draw from their own intergenerational friendships, as well as a broad array of research from many different areas, to unveil how and why, over the course of a lifetime, we learn who we are as we go."--

*The Stone Hammer Poems, 1960-1975*

Harper Collins

Winner of the 2003 Trillium Book Award "Stories are wondrous things," award-winning author and scholar Thomas King declares in his 2003 CBC Massey Lectures. "And they are dangerous." Beginning with a traditional Native oral story, King weaves his way through literature and history, religion and politics, popular culture and social protest, gracefully elucidating North

America's relationship with its Native peoples. Native culture has deep ties to storytelling, and yet no other North American culture has been the subject of more erroneous stories. The Indian of fact, as King says, bears little resemblance to the literary Indian, the dying Indian, the construct so powerfully and often destructively projected by White North America. With keen perception and wit, King illustrates that stories are the key to, and only hope for, human understanding. He compels us to listen well.

Care Home Stories

Biographical note: Sally Chivers is a Full Professor in the Departments of English and Gender & Women's Studies at Trent University in Peterborough, Ontario, and a founding executive member of the Trent Centre for Aging and Society. Ulla Kriebner is an Associate Professor at the Center for Inter-American Studies of the University of Graz, Austria, and chair of the European Network in Aging Studies.

## CARE HOME STORIES

Penguin

Strong, sassy women and hard-luck, hard-headed men, all searching for the middle ground between Native American tradition and the modern world, perform an elaborate dance of approach and avoidance in this magical, rollicking tale by award-winning author Thomas King. Alberta, Eli, Lionel and others are coming to the Blackfoot reservation for the Sun Dance. There they will encounter four Indian elders and their companion, the trickster Coyote—and nothing in the small town of Blossom will be the same again. . .
