America's most popular progressive radio

host and New York Times bestselling author Thom Hartmann reveals how the government and corporate America misuse our personal data and shows how we can reclaim our privacy. Most Americans are worried about how companies like Facebook invade their privacy and harvest their data, but many

people don't fully understand the details of how their information is being adapted and misused. In this thought-provoking and accessible book, Thom Hartmann reveals exactly how the government and corporations are tracking our every online move and using our data to buy elections, employ social control, and monetize our

lives. Hartmann uses extensive, vivid examples to highlight the consequences of Big Data on all aspects of our lives. He traces the history of surveillance and social control, looking back to how Big Brother invented whiteness to keep order and how surveillance began to be employed as a way to modify behavior. As he states, "The goal of those who violate privacy and use surveillance is almost always social control and behavior modification." Along with covering the history, Hartmann shows how we got to where we are today, how China—with its new Social Credit System—serves as a warning, and how we can and must avoid a similarly dystopian future. By delving into the Constitutional right to privacy, Hartmann reminds us of our civil right and shows how we can restore it.

SECRET BAND OF BROTHERS

Simon and Schuster

Wanted: Home for baby boy, aged 1 month, complete surrender. In late 1942, that advert was placed in the Reading Mercury. Two weeks later, on the deserted platform of Reading railway station, a young couple who had read the advert

were to fleetingly meet the mother of this baby boy as she passed the child over to them. The reasons for the surrender of her child were never explained. The boy, Dave Sharp, grew up happily, never knowing the full story of his parentage. But a chance discovery some sixty years later was to set him on a quest to uncover the truth behind his mysterious abandonment. This search would lead to shocking and uncomfortable revelations, both for Dave and for the family that he discovered. Not only was Dave, a bricklayer by trade, to be united with the brother he never knew he had, world-famous novelist Ian McEwan, but the two men were to discover a shared history and a relationship closer than they could ever have imagined.

THE HIDDEN HISTORY OF BIG BROTHER IN AMERICA

HarperCollins

In this version of the Swiss folktale, two humpback brothers, one good and friendly, the other bad-tempered and lazy, have their lives changed by a trip to their old hut in the mountains.

The Brothers Story Simon and Schuster
Read the series that's sold more than 2

million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

The Case of the Case of Mistaken Identity
Univ of Wisconsin Press

Of the Rosenbluth family, only the older children, Faiga and Luzer, had gone into hiding before the SS rounded up the Jews of Kanczuga, Poland. Hidden is Faiga and Luzer's story, a memoir whose intimate and quiet particularity makes the incomprehensible enormity of the Holocaust immediate, human, and devastatingly real. In alternating first-person narratives, Faiga (Fay) and Luzer

(Leo) take readers into their very different but inextricably linked experiences in Nazi-occupied Poland. Faiga, the once-dignified young lady from a good home with servants and a seat by the eastern wall of the synagogue, spends two years wandering the perilous countryside, hoping to be taken for a peasant. Mere miles away, knowing nothing of his sister's fate, Luzer, the leather wholesaler's only son, lies silent all day in the stifling dark corner of a barn, where the smell of the cows' warm hides are a piquant reminder of his lost world. Hidden deftly summons that world, as the familiar comforts and squabbles of life in a well-to-do, religious Jewish family are slowly overwhelmed by the grim news coming out of Germany. We follow Faiga and Luzer through the early forebodings and deprivations of the war, into hiding among righteous Poles and erstwhile neighbors-turned-betrayers, and finally, at war's end, back once more into the world—but not necessarily into safety. Told in a confident, clear, and unsentimental prose, this is a story of heroism and tragedy writ large and small, of two young people coming of age in a world in chaos and then trying to return to

"normal" after experiences as unimaginable as they are unforgettable.

Secret Brother WestBow Press

Five brothers who look just alike outwit the executioner by using their extraordinary individual talents.

Amari and the Night Brothers Scholastic Inc.

In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children,

a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to?

NEW YORK TIMES BESTSELLER • A NEW YORK TIMES NOTABLE BOOK OF THE YEAR
 • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of Say Nothing. "A real-life version of the HBO series Succession with a lethal sting in its tail...a masterful work of narrative reportage." - Laura Miller, Slate The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter

disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated use of money to burnish reputations and crush the less powerful. The Sackler name has adorned the walls of many storied institutions—Harvard, the Metropolitan Museum of Art, Oxford, the Louvre. They are one of the richest families in the world, but the source of the family fortune was vague—until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis. Empire of Pain is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. It follows the family's early success with Valium to the much more potent OxyContin, marketed with a ruthless technique of co-opting doctors, influencing the FDA, downplaying the drug's addictiveness. Empire of Pain chronicles the multiple investigations of

the Sacklers and their company, and the scorched-earth legal tactics that the family has used to evade accountability. A masterpiece of narrative reporting, Empire of Pain is a ferociously compelling portrait of America's second Gilded Age, a study of impunity among the super-elite and a relentless investigation of the naked greed that built one of the world's great fortunes.

Complete Surrender - The True Story of a Family's Dark Secret and the Brothers it Tore Apart at Birth Simon and Schuster
 This book deals with two very large and often amorphous concepts: privacy and surveillance in the context of both government and the marketplace. Both concepts have undergone changes over the millennia of recorded human history, and those changes have dramatically sped up and expanded over the past few centuries, starting with the widespread use of the printing press in the mid- to late-15th century when books and newspapers began to proliferate across Europe and the rest of the "civilized" world by the end of the 17th century. The development of radio, television and the internet in the 20th century heightened

the need to define more clearly what both concepts meant and how they applied both to governments (the "public sector") and individual and corporate players (the "private sector")...

Good Press

A fascinating new perspective on World War II; a fictitious, personalized take on the real-life rebel German youth group, the Edelweiss Pirates. Karl Friedman is only twelve, but like all boys his age in Germany, he's already playing war games, training to join the Hitler Youth. Stefan, Karl's nonconformist older brother, wants nothing to do with it. Then their father is killed, and what had been a game suddenly becomes deadly serious. Karl's faith in the Fuhrer is shaken: Is Hitler a national hero--or a villain? What is the meaning of the flower symbol stitched inside Stefan's jacket, and what is the mission of the shadow group he belongs to? Karl soon finds out as he joins his brother in a dangerous rebellion against the burgeoning threat of Nazism.

Please note: This is a companion version &

not the original book. Sample Book Insights: #1 Benjamin Franklin was one of the most influential Founders, and he was horrified by the power that the Puritans had seized in Massachusetts and nearby New Hampshire. He campaigned against organized religion his entire life. #2 In 1658, the Massachusetts Puritans chopped off the ears of two Quakers, Christopher Holder and John Copeland. In 1850, Nathaniel Hawthorne published *The Scarlet Letter*, set in Puritan Boston, which dramatized how rulebreakers were stigmatized in Massachusetts. #3 The history of slavery in the United States is the result of the economic and social control of food. With harvest-season food surpluses and winter and spring food shortages, small groups of people could seize control of the harvest and lock up the food. #4 The American colonies were primarily built by the East India Company and the British government in 1607, which established the colony of Jamestown. The colonists began to import bonded Europeans and Africans around 1620. The Brothers Karamazov Simon and Schuster

#1 NEW YORK TIMES BESTSELLER •

OPRAH'S BOOK CLUB PICK • ONE OF GQ'S TOP 50 BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so

extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

Hidden Simon and Schuster

With the support of neighbors and friends, two brothers try to make a life for themselves after the death of their mother and the dangerous presence of an abusive father.

The Kennedy Brothers Simon and Schuster

This book sets itself apart from the author's previous works and breaks new

ground in the publishing world. It is not a mere exposé of gambling or an attack on specific individuals, but rather an unveiling of a vast network dedicated to all kinds of villainous activities including theft and gambling. While certain secret societies in the United States are praised for their good deeds, this book reveals a different kind of secret organization that operates in the shadows. Despite its secrecy, the book provides detailed information about the organization's inner workings and its members.

THE BROTHERS: JOHN FOSTER DULLES, ALLEN DULLES, AND THEIR SECRET WORLD WAR

Brothers

Sudanese Garang is eight when he returns to his village and finds that everything has been destroyed. Soon, Garang meets other boys whose villages have been attacked and they unite, walking hundreds of miles to safety - first in Ethiopia then in Kenya. The boys face numerous hardships along the way, but their faith and mutual support help keep the hope of finding a new home alive in their hearts. Based on heartbreaking yet inspirational true

events, this is a story of remarkable and enduring courage, and an amazing testament to the unyielding power of the spirit.

Brothers in Hope Harper Collins

"In a kaleidoscopic narrative ... bestselling author David Talbot tells the gripping story of San Francisco in the turbulent years between 1967 and 1982--and of the extraordinary men and women who led to the city's ultimate rebirth and triumph."--P. [4] of cover.

The Hidden History of Big Brother in America Macmillan

Robert F. Kennedy was the first conspiracy theorist about his brother's murder. In this astonishingly compelling and convincing new account of the Kennedy years, acclaimed journalist David Talbot tells in a riveting, superbly researched narrative why, even on 22 November 1963, RFK had reason to believe that dark forces were at work in Dallas and reveals, for the first time, that he planned to open an investigation into the assassination had he become president in 1968. BROTHERS also portrays a JFK administration more besieged by internal enemies than has previously been realised, from within the

Pentagon, the CIA, the FBI and the mafia. This frightening portrait of sinister elements within and without the government serves as the background for the emotionally charged journey of Robert Kennedy. Reading it, you can absolutely believe any number of people would have been happy for both brothers to meet a sticky end. The tragedy, not just for America but for the world, is that since their murders no one has had the nerve to stand against the dark forces they challenged in quite the same way.

Truevine Holiday House
 NATIONAL BESTSELLER ONE OF THE NEW YORK TIMES 10 BEST BOOKS OF THE YEAR
 Who are the immensely wealthy right-wing ideologues shaping the fate of America today? From the bestselling author of *The Dark Side*, an electrifying work of investigative journalism that uncovers the agenda of this powerful group. In her new

preface, Jane Mayer discusses the results of the most recent election and Donald Trump's victory, and how, despite much discussion to the contrary, this was a huge victory for the billionaires who have been pouring money in the American political system. Why is America living in an age of profound and widening economic inequality? Why have even modest attempts to address climate change been defeated again and again? Why do hedge-fund billionaires pay a far lower tax rate than middle-class workers? In a riveting and indelible feat of reporting, Jane Mayer illuminates the history of an elite cadre of plutocrats—headed by the Kochs, the Scaifes, the Olins, and the Bradleys—who have bankrolled a systematic plan to fundamentally alter the American political system. Mayer traces a byzantine trail of billions of dollars spent by the network, revealing a staggering conglomeration of

think tanks, academic institutions, media groups, courthouses, and government allies that have fallen under their sphere of influence. Drawing from hundreds of exclusive interviews, as well as extensive scrutiny of public records, private papers, and court proceedings, Mayer provides vivid portraits of the secretive figures behind the new American oligarchy and a searing look at the carefully concealed agendas steering the nation. *Dark Money* is an essential book for anyone who cares about the future of American democracy. National Book Critics Circle Award Finalist LA Times Book Prize Finalist PEN/Jean Stein Book Award Finalist Shortlisted for the Lukas Prize
