Common mistakes are highlighted as well as a list of key points required to get full marks. A sample answer is given for each question # Part 2 contains a mock paper for the MCQ part of the exam, containing 225 questions with answers and helpful annotations # Part 3 introduces the EMQ, giving the reader 40 questions in the style of the examination, together with answers and explanatory notes # Part 4 is devoted to the OSCE, with descriptions of 20 sample stations assessing different aspects of clinical practice, advice on how to tackle these, and suggested marking schemes.
