This is a new edition of an
existing textbook, with
updated content for the
2006 syllabus. It is
designed to be a student
main text, and contains all
you need to pass the

IGCSE Extended exam.

In *Mordin On Time*, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones).

Mordin On Time enables the reader to construct their own speed ratings wherever they live.

This book is crammed with puzzles designed to stimulate each of your brain's cognitive functions, keeping it strong and fit. Many different types of puzzles are included, and each of the five levels increases the challenge of solving them. Includes three self-evaluations that allow you to assess your improvement in areas such as focus, attention, memory, and more. With these puzzles, exercising your brain can be fun! The consultant is Dr. Elkhorn Goldberg, a Ph.D. neuropsychologist who created the Manhattan-based Cognitive Enhancement Program, a fitness center for the brain and who wrote *The Executive Brain: Frontal Lobes and the Civilized Mind*; and *The Wisdom Paradox: How Your Mind Can Grow Stronger as Your Brain Grows Older*.
Mordin on Time
Nana's band Blast is taking off in a big way--

from sold-out club dates to a record label waving a contract at them. But the Trapnest menace still lurks, stealing away everything she cares for. Trapnest took her boyfriend, and even though Ren is back in her life, his band still comes first. And now her trusty sidekick Hachi is being lured away by Trapnest bassist Takumi. But this time, Nana won't give up without a fight! -- VIZ Media
