Have you been desiring to improve your public speaking and storytelling abilities to boost your business or personal brand and have tried all manner of things to be more composed, charismatic and come up with captivating stories to keep your audiences concerned but the results seem dismal? And are you looking for a guide that will help you unlock the world of effective public speaking and storytelling so that you come off as authentic and give your presentations greater impact while moving crowds like some of your favorite public speakers? If you've answered YES, keep reading... You Are About To Discover Exactly How To Master The Craft Of Public Speaking And Blend It With Effective Storytelling To Propel Your Business And Personal Brand To The Next Level! In business, stories have a powerful meaning and function besides offering entertainment value. They connect people with other people, brands and businesses; provide context, meaning and evoke a sense of purpose. Notably, stories are as important as the ability to tell them. Good stories go hand in hand with good public speaking skills- but unfortunately, you might be good in one and not the other, or none altogether. Like most people who understand the importance of having great storytelling and public speaking skills, you might often wonder: How do I create and tell good stories in business? What kind of stories are the best? How do I overcome my fear of speaking in public? How do I write a good speech? If so, then this beginners' 2 in 1 book is clearly the perfect resource for you. You will learn how to create and tell stories that inspire and convert, as well as how to confidently relay them through public speaking best practices. More precisely, you'll learn: · What brand storytelling refers to · The benefits of storytelling in business · Great examples of storytelling done right · How to tell a compelling story in simple steps · Why it's important to explore storytelling in business · What makes a powerful story so? · What you need to know about storytelling in finance · How you can find a suitable story · Why statistics don't sell and stories do · How to speak in public confidently · Why public speaking makes us nervous · The symptoms of glassophobia · How to create a good speech · How to speak in public like a pro · How to overcome fear for effective public speaking · Why public speaking matters nowadays · How to become an efficient public speaker by optimizing your pitch, tempo and inflection · The most important things you need to consider to be a good public speaker · How to analyze your audience ...And much more! Humans are naturally receptive to stories and communication that helps them empathize, relate, understand and remember. They also respond pretty well to confidence and credible content. You can imagine what you can achieve by being a good storyteller and public speaker... How much you can gain from convinced, engaged and loyal listeners. I know that would mean a lot for your business and personal brand. And that's just what this 2 in 1 book will help you to achieve, even if you consider yourself awkward, not creative, inexperienced and more! Dialogic Ethics offers an impressionistic picture of the diversity of perspectives on this topic. Daily we witness local, regional, national, and international disputes, each propelled by contention over what is and should be the good propelling communicative direction and action. Communication ethics understood as an answer to problems often creates them. If we understand communication ethics as a good protected and promoted by a given set of communicators, we can understand how acts of colonialism and totalitarianism could move forward, legitimized by the assumption that "I am right." This volume eschews such a presupposition, recognizing that we live in a time of narrative and virtue contention. We dwell in an era where the one answer is more often dangerous than correct.

A Guide to Public Speaking Techniques to Avoid Stress and Engage Your Audience Did you know that the fear of public speaking is more common than that of spiders? That's right: speaking in front of two, ten or a hundred people (whether it's a coffee break with colleagues or a large audience at a company meeting) can be the most stressful experience imaginable. But don't despair: if when it's your turn to speak your body starts to shake and your hands start to sweat like never before, there's a solution, and you'll find it in this manual. In this book you will learn to: - know the best techniques and strategies for dealing with the fear of the audience (large or small) without running into unwanted mistakes and devastating embarrassment - understand that without a winning strategy, every public presentation you make, whether at a business meeting, a wedding, or even at university for an exam, is likely to fail - to interact with your audience in a spontaneous and natural way by conveying your fear and stress in positive actions that the audience will not fail to notice - Prepare your speech as well as possible, include personal experiences and stories to engage your audience like a seasoned professional The bad news is that until now, let's face it, you haven't been able to manage your emotions in front of your audience. Because it's really the emotions that get you down. There's nothing wrong with that. If you don't have a strategy, if you don't know how to prepare and how to behave, the risks of failure are always around the corner. Chances are you'll continue to dread these kinds of experiences throughout your life. It's not your fault, and many people do it without qualms: this is a subject they don't teach in school. However, it's time to face this fear of yours head on and show those in front of you that you too can be a great speaker, that you too can engage with your stories, that you too can convey ideas and concepts in a connective way. By purchasing this book: - you will be aware of the potential successful speaker that lives inside you - You will learn how to create an authentic connection with your audience. - you'll be able to achieve tangible results in record time because believe me, it takes very little to achieve a mammoth improvement. Thanks to this manual you will radically change your approach to public speaking. You will realize how, by following simple but effective strategies, every opportunity to speak in front of other people to express your ideas (yes, even at the bar with friends) can turn into an unprecedented success. TABLE OF CONTENTS Introduction Identify your purpose Prepare your speech Prepare your visual aids Create a test presentation Eliminate stage fright and boost your self-esteem Incorporate your personality into your presentation Extra things you need to help you deliver a high-impact message Interaction with viewers The important question and answer session Engage your audience Elements of preparation before presentation Conclusions
