York Times bestseller
Three Women "Dolly

Alderton has always been a sparkling Roman candle of talent. She is funny, smart, and explosively engaged in the wonders and weirdness of the world. But what makes this memoir more than mere entertainment is the mature and sophisticated evolution that Alderton describes in these pages. It's a beautifully told journey and a thoughtful, important book. I loved it." —Elizabeth Gilbert, New York Times bestselling author of *Eat, Pray, Love* and *City of Girls* The wildly funny,

occasionally heartbreaking internationally bestselling memoir about growing up, growing older, and learning to navigate friendships, jobs, loss, and love along the ride When it comes to the trials and triumphs of becoming an adult, journalist and former Sunday Times columnist Dolly Alderton has seen and tried it all. In her memoir, she vividly recounts falling in love, finding a job, getting drunk, getting dumped, realizing that Ivan from the corner shop might just

be the only reliable man in her life, and that absolutely no one can ever compare to her best girlfriends. Everything I Know About Love is about bad dates, good friends and—above all else—realizing that you are enough. Glittering with wit and insight, heart and humor, Dolly Alderton's unforgettable debut weaves together personal stories, satirical observations, a series of lists, recipes, and other vignettes that will strike a chord of recognition with women of every

age—making you want to pick up the phone and tell your best friends all about it. Like Bridget Jones' Diary but all true, Everything I Know About Love is about the struggles of early adulthood in all its terrifying and hopeful uncertainty.

From one of America's most celebrated true crime authorities, an investigation into the mysterious, sudden death of Mary Yoder in Upstate New York and the law

enforcement efforts that eventually led to her killer's conviction for murder. Sixty-year-old Mary Yoder and her husband of 40 years, 72-year-old Bill Yoder, owned and operated a successful chiropractic center in Whitesboro, a quaint suburb of Utica, New York. In July 2015, without warning, Mary suddenly became violently ill with vomiting, weakness, and sweating. Doctors in the ER and ICU were perplexed as to the cause of her suffering. Within days she died at the

hospital, surrounded by her loved ones. The medical examiner, after consulting with the Poison Control Center, determined that she had been fatally poisoned with colchicine, a chemical given to patients with gout--but extremely toxic when not taken as prescribed. Mary did not have gout. As authorities investigated, both Mary's husband and her son were considered suspects. Suspicion ultimately focused on Kaitlyn Conley, the attractive ex-girlfriend of the Yoders' 24-year-old

son, Adam. Conley, who worked as an office manager in the Yoders' chiropractic clinic, had set up an ingenious and heartless plan to frame Adam for murder as a way to get back at him for breaking up with her. Many in the community rallied to Conley's defense, proclaiming her "the real victim" of mistreatment by Adam. Her first murder trial in May 2017 ended in a hung jury. A second jury heard the case later in 2017. After jurors come back saying they too

could not reach a verdict, the judge instructed them to continue deliberating, and a guilty verdict was reached hours later. In January 2018 Katlyn Conley was sentenced to serve 23 years in state prison for first-degree manslaughter.

A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago.

Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named

Nathan. Who’s Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can’t be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get

married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of

interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In Modern

Romance, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world. Everything I Thought I Knew Houghton Mifflin Harcourt

us back to the Bible The Jesus I Never Knew will engage your heart, mind, emotions, and senses, preparing you for a new, life-changing encounter with the real Jesus described in the Gospels. Praise for The Jesus I Never Knew: "This is the best book about Jesus I have ever read, probably the best book about Jesus in the whole century. Yancey gently took away my blinders and blazed the trail through my own doubting fears, pious know-it-all, and critical balderdash until I saw the

Savior anew and thought I heard him ask me, 'Now whom do you say that I am?' and I understood the question as I never had before." --Lewis B. Smedes, Senior Professor, Fuller Seminary "Philip Yancey takes the reader with him on his very personal journey to Jesus. In The Jesus I Never Knew, I became convinced that the Jesus I met--in some ways for the first time--has known me all along. This book is destined to become a favorite--to recommend to those still seeking Jesus and to pass

along to those who've met him, but long to know him more." --Elisa Morgan, President Emerita, MOPS International

This book will explain what really makes you ill and why everything you thought you knew about disease is wrong. "Doctors are men who prescribe medicines of which they know little, to cure diseases of which they know less, in human beings of whom they know nothing." Voltaire.
The conventional

approach adopted by most healthcare systems entails the use of 'medicine' to treat human disease. The idea encapsulated by the above quote attributed to Voltaire, the nom de plume of François-Marie Arouet (1694-1778), will no doubt be regarded by most people as inapplicable to 21st century healthcare, especially the system known as modern medicine. The reason that people would consider this idea to no longer be relevant is likely to be

based on the assumption that 'medical science' has made significant advances since the 18th century and that 21st century doctors therefore possess a thorough, if not quite complete, knowledge of medicines, diseases and the human body. Unfortunately, however, this would be a mistaken assumption; as this book will demonstrate. *The Accidental Universe* Soho Press

Popular Apologist Corrects the Record on What Christianity Is All About
The Christianity our culture rejects may not be true Christianity at all. So many people today believe they have to be good to be accepted by God, or that the Bible is just a list of do's and

don'ts, or that God is far away and unapproachable. Instead of providing "proofs" about God and the Bible, in this book Alex provides a reason to want to know Jesus. By sharing his own story of the loneliness and alienation of his youth, Alex taps in to universal fears of rejection and loneliness. We all seek acceptance and purpose--and there's only one solution. Learn how to be anchored in the Truth and security that comes through Christ.
"Whatever, God" Penguin

As a little boy all I wanted was to be loved. Learning what I thought was love from my family, eventually revealed to be years of manipulation and lies. I grew up in the juvenile system but I managed to find my way. Sadly, any time I thought I was on a path to greatness, my journey was disrupted. During my years of juvenile facilities, I faced loneliness and depression that led to multiple suicide attempts. Willing to do what it took to gain love and affection, I became a person that

everyone wanted around while it benefited them. Unable to recognize I was manipulated, I ended up in prison two times. It was the second prison sentence when the blinders were removed. At that "ah-ha" moment after the persuasion of another inmate, I was able to see people for who and what they truly were. Not only was it an eye opening experience, but at that moment I took control of my life for the very first time. I was 25-years old and I felt like my life was just beginning. Although

angry, hurt, and confused, I was able to successfully complete my sentence and come home to another life changing moment that would destroy any hopes of having a healthy relationship with my family.

Catching a killer is
dangerous—especially if
he lives next door From
the hugely talented

author of *The Kind Worth Killing* comes an exquisitely chilling tale of a young suburban wife with a history of psychological instability whose fears about her new neighbor could lead them both to murder . . . Hen and her husband Lloyd have settled into a quiet life in a new house outside of Boston, Massachusetts. Hen (short for Henrietta) is an illustrator and works out of a studio nearby, and has found the right meds to control her bipolar disorder. Finally, she's

found some stability and peace. But when they meet the neighbors next door, that calm begins to erode as she spots a familiar object displayed on the husband's office shelf. The sports trophy looks exactly like one that went missing from the home of a young man who was killed two years ago. Hen knows because she's long had a fascination with this unsolved murder—an obsession she doesn't talk about anymore, but can't fully shake either. Could her neighbor, Matthew, be

a killer? Or is this the beginning of another psychotic episode like the one she suffered back in college, when she became so consumed with proving a fellow student guilty that she ended up hurting a classmate? The more Hen observes Matthew, the more she suspects he's planning something truly terrifying. Yet no one will believe her. Then one night, when she comes face to face with Matthew in a dark parking lot, she realizes that he knows she's been watching him, that she's really on to

him. And that this is the beginning of a horrifying nightmare she may not live to escape. . .

A simple and authoritative challenge to the conventional wisdom about AIDS, this newly revised book probes widely held assumptions about the risks, tests, and treatments associated with this controversial disease. The ideas of the general public—that everyone is at risk, that AIDS is widespread, that HIV is proven to cause

AIDS, and that drug treatments or vaccines offer the only hope to resolve health problems associated with AIDS—are refuted, and new information is presented on AIDS in Africa and recent research on the effects of AZT, protease inhibitors, and combo cocktails. A recommended reading list and website directory supply tools for further study, and first-person accounts from naturally healthy HIV-positive men, women, and children give the facts a human face.

Why I Write Penguin

“Emotionally resonant and deeply characterized.”

—School Library Journal

(starred review) From the author of *You’ll Miss Me When I’m Gone* comes a stunning contemporary novel, perfect for fans of *Five Feet Apart*, that examines the complicated aftermath of unrequited love between best friends. Aspiring choreographer Sophie Orenstein would do anything for Peter Rosenthal-Porter, who’s been on the kidney transplant list as long as she’s known him. Peter, a

gifted pianist, is everything to Sophie: best friend, musical collaborator, secret crush. When she learns she's a match, donating a kidney is an easy, obvious choice. She can't help wondering if after the transplant, he'll love her back the way she's always wanted. But Peter's life post-transplant isn't what either of them expected. Though he once had feelings for Sophie, too, he's now drawn to Chase, the guitarist in a band that happens to be looking for a keyboardist.

And while neglected parts of Sophie's world are calling to her—dance opportunities, new friends, a sister and niece she barely knows—she longs for a now-distant Peter more than ever, growing increasingly bitter he doesn't seem to feel the same connection. Peter fears he'll forever be indebted to her. Sophie isn't sure who she is without him. Then one heartbreaking night twists their relationship into something neither of them recognizes, leading them to question their

past, their future, and whether their friendship is even worth fighting for. *What If Everything You Thought You Knew about AIDS Was Wrong?* Pan Macmillan
 "What impressed me most...are the intricate and artistic detail with which Art describes the settings and the depth and sensitivity of the emotions expressed in each memoir." -Reba Boyd Wooden, Executive Director, Center for Inquiry, Indiana A retired psychologist shares over eighty poignant,

humorous, and entertaining memoirs highlighting his life, from his birth at home in Hudson Falls, New York, to his current experiences as a widower and freethinker. Arthur L. Sterne, Ph.D. has spent his life curious about people and as a result, many of his memoirs reflect his power of keen observation and wonderful sense of humor. His compilation of anecdotes begins with his early life in Jacksonville, Florida, then with his experiences at Vanderbilt

University where he met Ann, a nursing student who stole his heart and later became his wife of forty-four years, and continues in Indianapolis, where he once saw Judy Garland and Marlene Dietrich perform. As he moves through the retelling of his favorite memories, Sterne covers such relatable topics as politics, religion, aging, and rebuilding a life after the death of a spouse. In *Things I Know or Think I Know or Thought I Knew or Who Knows?* Sterne encourages others to

think, pose questions and look for answers, ultimately viewing the world in a new light. *What Really Makes You III? Write Editions* God isn't far away; He's near. God isn't watching from a distance; He's active and involved. God doesn't want to ruin your life; He wants to fulfill it. Too many people stumble through life with an inaccurate view of who God is. They believe in His existence, but don't know how to relate to Him in a practical and meaningful way. As a result, they fail

to achieve anything beyond a superficial relationship with their Creator, and live less-than-fulfilling lives. In "WHATEVER, GOD", Fr. Anthony Messeh attempts to change that. He shares his unique story and the lessons he's learned that helped him go from a "don't-get-too-close-to-God-because-He-might-ruin-your-life" Christian, to a fully devoted "I-can't-get-enough-of-God-in-my-life" believer. In his own words, "I wrote this book to show you what that life can look like, and help

you take a step or two to get there. My goal is to help you see where God wants you to be . . . how He wants you to live . . . and what your life should look like and could look like if you allow Him to lead it for you." All you need is to say, "WHATEVER, GOD" and you'll see for yourself that God is REAL, God is RELEVANT, and God is always REWARDING.

How does a traditionally

educated New York City career woman who once obsessed about getting her kids into the right preschool end up living off the grid in Africa and unschooling her two children ?Find out in this collection of essays based on the author's personal journey of moving away from the status quo and creating a life of choice and autonomy. Part memoir, part journalistic enquiry, Rowland explores topics ranging from how her children learned to read and write without formal instruction and

what it means to trust children to build their own education, to why we should all walk barefoot and what happens when we try to flip an omelet and fail--all from the

perspective of challenging societal "shoulds."As the debate continues on how to improve our failed education system, the author delves into what it's like to live, learn, and parent without it. Filled

with optimism, humor, and candid reflection, this book is ultimately a memoir about questioning everything we think we know and taking the risk to find our own answers.
