Elsevier Health Sciences Nursing administration is designed to teach nursing students about the management process and leadership, and to supply the practicing nurses with practical information about nursing administration . Management skills are important to nurse administrators as their clinical knowledge and skills.

nursing increasingly reflects the population it serves. Nursing profession derives from its ethnic, cultural, social, economic and gender diversity, thereby enhancing its capacity to respond to healthcare needs of people. It is, in fact, that the healthcare organizations of yesterday are the new organizations of today with complex needs. Nursing has a major role to

play, so each and every nurse needs to be a leader and speaker for patients; to improve safe and quality care. It also provides inputs into response to changes that are present every day in the healthcare delivery system and its multiple types of healthcare delivery organizations at all levels.
