Mixtures is of central importance for Galen's views on the human body. It presents his influential typology of the

human organism according to nine mixtures (or 'temperaments') of hot, cold, dry and wet. It also develops Galen's ideal of the 'well-tempered' person, whose perfect balance ensures excellent performance both physically and psychologically. Mixtures teaches the aspiring doctor how to assess the patient's mixture by training one's sense of touch and by a sophisticated use of

diagnostic indicators. It presents a therapeutic regime based on the interaction between foods, drinks, drugs and the body's mixture. *Mixtures* is a work of natural philosophy as well as medicine. It acknowledges Aristotle's profound influence whilst engaging with Hippocratic ideas on health and nutrition, and with Stoic, Pneumatist and Peripatetic physics. It appears here in a new translation, with generous annotation, introduction and glossaries elucidating the argument and setting the work in its intellectual context.

An Carow Gwyn is an extensive work covering every angle and dark folkloric corner of the ancient Fairy-related beliefs of Europe and the British Isles. The first portion of the work is a sprawling, in-depth analysis of the "Fayerie Faith," the folkloric presence of the old animism and spirit-worship of ancient and pre-modern Europe, Eurasia, Britain, and Ireland. The remaining portions form a detailed modern Grimoire of practical sorcery based solely upon pre-modern principles and traditional spirit-metaphysics as they are found in the ballads and folktales of the Old World and the traditional tales and lore of witchcraft. Also included is Robin Artisson's translation of a 14th century work, "The Romance of Thomas of Erceldoune," appearing here for the first

time in modern English, along with detailed notes revealing the full esoteric significance of the strange story it tells: a story of how humans relate to the Fayerie World, and what that might mean for our destiny in this world. Countless other old tales are told and analyzed for the truths and guidance they contain. An Carow Gwyn shows the Old Way of seeing and living in this world for what it truly was, where it ultimately came from, and how it still lives quietly among us. A complete philosophical treatise regarding Spiritual Ecology, and how it relates to the Old Ways, is interlaced throughout the book. Criticism of modern cultural philosophies and ideologies in light of what the Old Ways reveal, forgotten histories underlying many of our cultural stories and myths,

and the hidden laws and techniques behind basic and advanced historical works of sorcery (all of which are explained in exacting detail) are carefully brought together in this substantial and paradigm-shifting work. An Carow Gwyn contains over 60 illustrations and diagrams, and gives historical (and accessible) spells and workings from the Classical to the Elizabethan eras for seeking oracles through dreams, swaying the spirits of forests and graveyards, protection and uncrossing, opening doorways into spiritual regions, and even the supreme act of disassociating from bodily experience and traveling in the Unseen world.

Subject of the upcoming film Free State of Jones, this book provides recollections of the man who took on the Confederacy during the Civil War and established the liberated Mississippi county. Soldier, Father, Rebel. Outlaw. A man of deep convictions, Captain Newt Knight disagreed with the values of the South and was accused of deserting the Confederate army. He was a believer in doing what was just. During the Civil War, he formed his own band of deserters who would rebel against the

Confederacy and support the Union. In the spring of 1864, the government in Jones County was effectively overthrown, and, the county was dubbed “The Free State of Jones.” Eventually, Knight would establish a mixed race town for both whites and former slaves to inhabit together. This edition merges two rare books on the subject; Thomas Jefferson Knight’s *The Life and Activities of Captain Newt Knight* and Ethel Knight’s *The Echo at the Black Horn*. Each paints a singular portrait of this elusive historical figure. Was he Civil War-Era Robin Hood or a manipulative cult leader? Both surely have fictitious elements determined by the authors’ biases. Historian Jim Kelly provides a forward that helps examine the importance of each position on Newt

Knight's role in the conflict and what his motivations truly were. Now the subject of a new feature film, the experiences of Newt Knight will be brought back to light. This highly informative book helps to explore his life and give an in-depth look at the man—through the eyes of his son and grand-niece.

"The Clovenstone Workings" is a manual of Witchcraft inspired by and based upon 17th Century reports of the operations, workings, and meetings of Early Modern Witches. Noted author and sorcerous practitioner Robin Artisson has assembled this work of practical guidance and instruction based upon

research, occult exploration, and ritually channeled guidance gained over a period of time leading up to the book's publication. Found within are examinations of the nature of the entities who stood behind the historical arts of Witchcraft and the extraordinary relationships once gained by certain human beings with them: entities whose presence can still be encountered at rare times by men and women today. How this was accomplished in the past, and methods for how it might be accomplished now through the incubation of initiatory dreams, are both elucidated in great detail. The motivations behind historical Witchcraft, the nature of the Witch throughout history, and the difficulties that modern people face when attempting to

integrate themselves with the spiritual current of the Despised Art are all given a thoughtful treatment. The heart of this work contains full instructions for basic and advanced feats of Witchery as they were reported in Early Modern sources, including the yielding of the legendary talismanic Green Oyl, the art of scrying in mirrors and dark surfaces under the empowerment of certain mystical formulas, petitioning and bargaining with spirits, Transvection or soul-flight, and sympathetic sorcery achieved through empowered images. The Clovenstone Workings is a readable and concise handbook of the Witchcraft of an older age, well-suited for adepts of the Strange Arts as well as for those seeking to begin their own practice.

The field of witchcraft studies is continually over-turning new information and research about traditional witchcraft practices and their meanings. A Deed Without a Name seeks to weave together some of this cutting-edge research with insider information and practical know-how. Utilising her own decades of experience in witchcraft and core-shamanism Lee Morgan pulls together information from trial records, folklore and modern testimonials to deepen our understanding of the ecstatic and visionary substrata of Traditional Witchcraft. Those who identify themselves as 'Traditional' tend to read a lot of scholarly texts on the subject and yet still there remains a vast gulf between this information and

knowledgeably applying it in practice; this book aims to close that gap.

Between 1906 and 1918, anthropologist and explorer Vilhjalmur Stefansson went on three long expeditions to the Alaskan and Canadian Arctic. He wrote voluminously about his travels and observations, as did others. Stefansson's fame was partly fueled by a series of controversies involving envious competitors in the race for public recognition. While many anthropological works refer to his writings and he continues to be cited in ethnographic and historical works on indigenous peoples of the North American Arctic, particularly the Inuit, his successes in

exploration (the discovery and mapping of some of the last remaining land on earth) have overshadowed his anthropological work. Writing on Ice utilizes his extensive fieldwork diaries, now in Dartmouth's Special Collections, and contemporary photographs and sketches, some never before published, to bring to life the anthropology of the Arctic explorer. Gísli Pálsson situates the diaries in the context of that era's anthropological practice, early 20th-century expeditionary power relations, and the North American community surrounding Stefansson. He also examines the tension between the rhetoric of ethnography and exploration (the notion of the "friendly Arctic") and the reality of fieldwork and exploration, partly with reference to Stefansson's

silence about his Inuit family.

The Horn of Evenwood, Also called "The Master's Book of Conjury" or "The Witchfather's Bloodless Bones," is a true book of Art, a Grimoire of sorcerous operations, charms, and devices of Witchery. Based on well-worn patterns and operations of Traditional sorcery and European Witchcraft from the 16th-19th centuries, this manual of magical arts provides a complete working system of Craft-sorcery which taps into the numina of the British Isles folk-tradition, the Luciferian mysteries of the Witchmaster, traditional wortcunning, the Rades of Edric and Godda, and the hidden roads to Faery-Elfhome. Included are incantations, conjurations, instructions in the application of the Ten Pillars of

Sorcery, "The Service of Sigils" working, and the operations of "Biting the Tongues of Serpents," "Summoning the Witch-Dream by Moth Flight," "Binding the Lovers One to the Other," "The Fruitful Working of the Womb-Seed," and "A Pavis from Foul Imprecations," all of which are intended to instruct an initiate in the use of this timeless arcane system.

First surfacing in France in the 18th century, The Black Pullet is a guide to the construction and use of magical talismanic rings. With the use of these rings, people attained extraordinary powers. Perhaps the most wonderful secret revealed is the power to produce the Black Pullet, otherwise known as the

"Hen with the Golden Eggs." Unlimited wealth was granted to the person who achieved the creation of this incredible Hen. *Includes complete instructions for creating the Black Pullet.

"Hands of Fate" is the first of the "Small Tome" offerings from Black Malkin Press, each of them covering a single topic of deep spiritual or occult significance. In Hands of Fate, the topic of cartomantic divination with standard playing cards is

covered. Author and professional diviner Robin Artisson offers instruction in a deeply detailed and intuitive system of playing card divination draped in the older aesthetic of Traditional Witchcraft and Fayerieism, allowing diviners to channel entire stories of divinatory insight from oracular sources. He discusses methods which will allow any person, whether practicing sorcerer or not, to gain true oracular communication with extraordinary sources of insight. Alongside this central theme of the work, many smaller systems of cartomancy and cartomantic divination devices are described, which can be integrated by a card reader all by themselves, or blended with others. Divination with playing cards is the oldest kind of cartomancy known to man, and this

work restores it to an accessible place of dignity and seriousness which can be utilized by all. Discerning readers will discover many treasures of occult wisdom hidden in the underlying metaphysics of the system described within this small but detailed work.

No matter how sophisticated or technologically advanced we become, there is still something within that beckons us to “the hunt.” This desire creates the customs, beliefs, and rituals related to hunting—for deer, hogs, as well as fish and snakes, etc. These rituals and customs lead to some of our most treasured folklore.

Sorcery and the Ancient Fayerie Faith

Createspace Independent Publishing Platform

This is a book about the religion once practiced ages ago in the Old Forest region of Europe. The book contains channeled messages from the Gods of the Old Forest and from the fey, as well as stories, myths, legends, and bits and pieces of the old witch language. It is not meant to be a "Wicca 101" book, but the next stage towards witches, in particular those of European descent, being able to reclaim their heritage. In this regard, there is no other book currently out there quite like this one. Not only does it provide a link to the past, but it also gives witches a potential focus for the future.

No one knows for certain just when the bow and arrow came into use in America, but they were in use from the far North to the tip of South America when Europeans first arrived. Over the hemisphere the equipment ranged from very poor to excellent, with the finest bows of all being made in the Northwest of North America. Some of these bows rivaled the ancient classic bow in beauty of design and workmanship. The attitudes of whites toward Indian archers and their equipment have ranged from the highest of praise with mythical feats rivaling those of William Tell and Robin Hood--o mockery and derision for the Indians' short, "deformed" bows and small arrows. The Laubins have found

most of the popular conceptions of Indian archery to be erroneous--as are most of the preconceived notions about Indians--and in this book they attempt to correct some of these false impressions and to give a true picture of this ancient art as practiced by the original Americans. Following an introduction and history of Indian archery are chapters on comparison of bows, bow making and sinewed bows, horn bows, strings, arrows, quivers, shooting, medicine bows, Indian crossbows, and blowguns. Those wishing to learn something about the use of archery tackle by American Indians, something of the ingenuity associated with its manufacture and maintenance, and something about the importance of archery in everyday Indian life will find in

this book a wealth of new, valuable, and important information.

Feasting from the Black Cauldron talks about things that are often overlooked or ignored by today's authors in the modern witchcraft movement. This book covers topics such as Ignem Serpentes, Terra Umbrae and At the Crossroads of

Night. While many books on today's market are filled with basic outer court training, this book picks up where many other books leave off. Like any great work, this author challenges his readers to think beyond the contemporary literature of big publishing companies. Drawing from his extensive research and years of practice in various fields of the Occult, Amaranthus has provided you the reader an opportunity to step inside a witches clan from the perspective of a Magister and Clan Elder.

For centuries curses, hexes and the 'evil eye' were seen as part of daily life in rural England, resulting in a rich heritage of folklore & apotropaic magickal practices. Such charms as Witch Bottles, Witch Balls, Hagstones, Horseshoes and

Brasses, Magick Squares, Abracadabra, Rowan and Red Thread, Flint Arrowheads and Pebble Charms were often made from readily available natural materials. They seemed simple, yet when constructed properly and empowered with secret rhymes and other mysterious enchantments, they were both very popular and considered to be very effective. Here English Root Magician John Canard provides insights on how to find out if you have been cursed, detecting the perpetrator through dowsing, how to destroy magickal links, nail footprints, work with Church Grims and construct the Archangel Haniel's charm. He also discusses many other protective charms, growing protection in your garden, protecting the home against negativity, as well as enlisting

both Angels and the sprits of the Dead for help! There are quick fixes and methods to 'return to sender' and thoughts on when cursing might actually be justified. Drawing from his own extensive research of English folk magick, the grimoire traditions, witchcraft and cunning - as well as his own experiences as one of only a small number of practicing English Root Magicians today, the author shares many unique insights and rare lore never published before. Whether your interest is out of pure curiosity, or through a genuine need for neutralising or reflecting a curse, this throrougly practical book is a unique, balanced and invaluable study of one of the darker and rarely discussed areas of magick. -----
 ----- About the Author: John Canard,

English Root Magician Having misspent most of his youth in the Cambridgeshire fens, John met the woman of his dreams, who he still believes to be only part human and moved with her to Somerset (UK) to live the wild life. They live on a small farm where John spends his time tending a menagerie of animals and growing organic produce. He has always enjoyed writing, having previously contributed essays to HEKATE: Keys to the Crossroads (2006) and Horns of Power (2008). Defences of the Witches' Craft is his first book, he is also working on a number of other projects related to traditional magick, witchcraft and root cunning.

THIS book is intended to give the reader

an account of the origin and history of Hallowe'en, how it absorbed some customs belonging to other days in the year,--such as May Day, Midsummer, and Christmas. The context is illustrated by selections from ancient and modern poetry and prose, related to Hallowe'en ideas.

Unearthing the Legacy of Traditional Witchcraft Routledge

Science in the Changing World, first published in 1933, contains a series of broadcasted presentations on the relationship between science and the development of European civilisation in the first half of the 20th century. Specifically, each talk attempts to reflect the crisis through which the world seemed to be passing at the time, and to make an analysis of those forces of

transformation in science, art, economics, and social life which were associated most closely with the advent of the 'scientific' century. Included among the presenters are such eminent and diverse thinkers as Julian Huxley, Bertrand Russell and Hilaire Belloc. Science at Your Service: First published in 1945, this collection of twelve BBC broadcasts focuses on the influence of science in everyday life, and demonstrates that not all science is remote and theoretical. Each speaker deals with some aspect of mid-20th century scientific advance as it related to subjects of practical importance, from textiles and tunnels to fishing and ship design. Offering a glimpse into the attitudes towards science current in the middle of the Second World War, this

brief and accessible collection will be of interest to cultural historians as well as to the general science enthusiast.

"The Secret History" concerns the deepest matters of all: cosmology and the story of life's emergence and meaning, told from the perspective of a primordial way of seeing and comprehending nature that existed long before civilization began. Robin Artisson brings together folklore, mythology, animistic perspectives, and dark spiritual ecology to rebirth a vision of who we are, where we came from, and what might happen to us ultimately, along with

spiritual insights into the devastating cost of the excesses of civilization. This book also examines the nature of the ancient Mysteries, experiential pathways that were established in pre-Christian times and which allowed for humans beings- themselves originally entities from the Underworld- to encounter the beings native to their original condition and reestablish relationships of familiarity with them, for the purpose of rediscovering a deeper sense of peace and place in our world. Two methods of establishing new relationships with those same powers are detailed, methods that aim at transforming a person's life and destiny beyond the grave.
