The peanut, for over 20 years a leading crop in the Southern States, reaches the consumer in many widely different forms. Once grown exclusively for sale roasted in the shell and for feeding to hogs, peanuts are now more widely known in the salted form, and even larger quantities are marketed each year as peanut butter and peanut candy. In some years a considerable volume of peanuts has been crushed and the crude oil shipped to manufacturers of oleomargarine, compounds and vegetable shortenings, and salad oil. The course taken by the peanut in its journey from farm to the consumer, then, is necessarily a varied one, with many bypaths.

Despite--or because of--its huge popular culture status, Peanuts enabled cartoonist Charles Schulz to offer political commentary on the most controversial topics of postwar American culture through the voices of Charlie Brown, Snoopy, and the Peanuts gang. In postwar America, there was no newspaper comic strip more recognizable than Charles Schulz's Peanuts. It was everywhere, not just in thousands of daily newspapers. For nearly fifty years, Peanuts was a mainstay of American popular culture in television, movies, and merchandising, from the Macy's Thanksgiving Day Parade to the White House to the breakfast table. Most people have come to associate Peanuts with the innocence of childhood, not the social and political turmoil of the 1960s and 1970s. Some have even argued that Peanuts was so beloved because it was apolitical. The truth, as Blake Scott Ball shows,

is that Peanuts was very political. Whether it was the battles over the Vietnam War, racial integration, feminism, or the future of a nuclear world, Peanuts was a daily conversation about very real hopes and fears and the political realities of the Cold War world. As thousands of fan letters, interviews, and behind-the-scenes documents reveal, Charles Schulz used his comic strip to project his ideas to a mass audience and comment on the rapidly changing politics of America. Charlie Brown's America covers all of these debates and much more in a historical journey through the tumultuous decades of the Cold War as seen through the eyes of Charlie Brown, Lucy, Linus, Peppermint Patty, Snoopy and the rest of the Peanuts gang.

The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) began 40 years ago as a pilot program and has since grown to serve over 8 million pregnant women, and mothers of and their infants and young children. Today the program serves more than a quarter of the pregnant women and half of the infants in the United States, at an annual cost of about \$6.2 billion. Through its contribution to the nutritional needs of pregnant, breastfeeding, and post-partum women; infants; and children under 5 years of age; this federally supported nutrition assistance program is integral to meeting national nutrition policy goals for a significant portion of the U.S. population. To assure the continued success of the WIC, Congress mandated that the Food and Nutrition Service of the U.S. Department of Agriculture (USDA) reevaluate the program's food packages every 10 years. In 2014, the USDA asked the Institute of Medicine to undertake this reevaluation to ensure continued alignment with the goals of the Dietary Guidelines for Americans. In this third report, the committee provides its final analyses, recommendations, and the supporting rationale.
