A variety of positive change has recently taken place in the DNN ecosystem, code base, and underlying technology. Professional DNN7: Open Source .NET CMS Platform provides thorough coverage of all aspects of DNN including the latest features, API's, and updates. Looking to ramp up your knowledge of DNN7? If so, this book is for you! In this book, you'll

learn how to install, configure, administer, develop modules, and much more! DNN has undergone a significant transformation over the past 4 years. The rebrand from DotNetNuke to DNN was just the start. The entire platform was migrated from VB to C#, the user interface was overhauled providing a much-improved user experience, dramatic improvements in functionality & performance were made including support for social collaboration and mobile devices. Recently API's that make modern, client-side development easy have been introduced as well. The underlying technology platform has migrated from ASP.NET 2.0 to ASP.NET 4.0 and DNN has also integrated Microsoft's Web API as the service framework at the core of the DNN solution. All of these enhancements provide developers with a lot of power in one solution. In previous Professional DotNetNuke books, DotNetNuke founder Shaun Walker authored a popular introductory chapter covering the evolution of the DNN open source project. He will expand this initial chapter with information about venture capital funding, commercialization, and software business

insights - which will be of interest to DNN enthusiasts, as well as technology entrepreneurs. DNN site builders, administrators, and developers will learn how to: determine if they have met the installation requirements and install DNN administer and host a DNN site and install and configure modules manage users and keep a DNN installation secure localize a DNN site for multiple languages build custom DNN modules in C# using the model of separation of database, business logic, and presentation layers customize the DNN look with skinning make their site social with EVOQ

**Fenway and Hattie** Corwin Press  
It's time to face her secret past She spends her days creating families But is it time for her to make her own? Since giving her son up for adoption, Christine Elliott has devoted herself to helping others have families of their own at her fertility clinic. But when Jamison Howe, a widowed former patient at the clinic, reenters her life, she finds herself wondering if she is truly happy with the choices she made and the life she has...or if she should take a chance and reach out for more. ## **BUILDING WEBSITES WITH VB.NET AND DOTNETNUKE 4**

Corwin Press  
This lovable new series introduces a little dog with a GIANT personality! Fenway is an excitable and endlessly energetic Jack Russell terrier. He lives in the city with Food Lady, Fetch Man, and—of course—his beloved short human and best-friend-in-the-world, Hattie. But when his family moves to the suburbs, Fenway faces a world of changes. He's pretty pleased with the huge Dog Park behind his new home, but he's not so happy about the Evil Squirrels that taunt him from the trees, the super-slippery Wicked Floor in the Eating Room, and the changes that have come over Hattie lately. Rather than playing with Fenway, she seems more interested in her new short human friend, Angel, and learning to play baseball. His friends in the Dog Park next door say Hattie is outgrowing him, but that can't be right. And he's going to prove it! Get a dog's-eye view of the world in this heartwarming, enthusiastic "tail" about two best friends.

The Liver: Morphology, Biochemistry, Physiology, Volume I focuses on the advancement of knowledge on the liver under normal and pathological conditions, as revealed by morphological and physiological studies. The selection first offers information on the embryonic liver and anatomy of the liver, including morphology and physiology of the embryonic liver, histology of the liver, surgical segments, and vascular gross anatomy of the liver. The text then elaborates on the structure of the liver sinusoids and the sinusoidal cells and the cyto- and histochemistry of the liver. Topics include protein reactions, nucleic acids, glycogen, lipids, heavy metals, and morphological aspects of lining cells. The publication examines electron microscopy of the liver; acinar units and the pathophysiology of the liver; and dynamics of circulation in the liver. Discussions focus on oxygen transport and consumption in the liver; experimental alterations of the

hepatic circulation; hexagonal pattern and the interdigitation of the afferent and efferent vascular trees; and simple liver acinus. The selection is a dependable source of data for morphologists, biochemists, pharmacologists, and clinicians.

### **WEDDING DATE WITH THE BILLIONAIRE / THE CHILD WHO CHANGED THEM**

John Wiley & Sons

This book is about a journey with the Center for Strategic Alliances in Education for School and District Improvement with stakeholders in a school targeted for school improvement. The first chapter puts into context the notion of school, its purpose and the incumbent variables of values, attitudes, organizational and leadership behaviors and instructional practices. Throughout the book, the authors look at three contextual boundaries: (1) historical, (2) the lens of former students and their perceptions of

the presence or absence of those variables and (3) a comparison of labeled schools and the views and perceptions of stakeholders with regard to quality, equity and adequacy. This is a compelling journey which utilizes quantitative and qualitative data to take a critical look at the processes involved and the strategies used in America's journey in the quest for excellence. The authors' story is one of the pursuits of innovation, reinvention, equity, excellence and culturally relevant education experiences that inspire and reframe the discussion about "getting to excellence." The book is replete with illustrations of weaknesses hidden in abstract policies, institutional persistence, and culturally void programs, methodologies and practices. It advocates a methodology for arriving at well-conceived processes for achieving acceptance and academic excellence through collaboration among those to whom education is important - the children and the communities where they live.

DotNetNuke is an open source framework built on top of the ASP.Net platform. While this system offers an impressive set of

out-of-the-box features for public and private sites, it also includes a compelling story for folks who want to present a unique look and feel to visitors. The skinning engine inside of DotNetNuke has strengthened over the course of several years and hundreds of thousands of registered users. The success of its skin and module developer community is another key indicator of the depth and breadth of this technology. The Core Team responsible for the DotNetNuke brand has gone to great lengths to enable a predictable and positive experience for both the visitors of the site and the developers who build them. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94.

This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people,

and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and

sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
