A cross-section of the American experience on D-Day Unique perspective from the regimental level that also integrates strategic and tactical considerations Stories of largely forgotten acts of valor G. H. Bennett collects oral histories from the soldiers of three American regiments and weaves them into an intimate account of the D-Day invasion of June 6, 1944. Widely scattered during its drop into Normandy, the 507th Parachute Infantry Regiment (82nd Airborne Division) stopped the advance of an SS division. The untested 116th Infantry Regiment (29th Infantry Division) landed on bloody Omaha Beach, where it suffered more casualties than any other regiment that day. Meanwhile, the 22nd Infantry Regiment (4th Infantry Division) easily waded ashore on Utah Beach but faced savage fighting as it moved inland.

One of the biggest stumbling blocks we hit when setting out to make our dreams come true is appreciating what is going well. Most of us have an unfortunate tendency to dwell on the problems rather than on the good things in our lives ... and then we wonder why things just seem to keep getting worse instead of better. In *The Power of Appreciation in Everyday Life*, psychologist Noelle Nelson explains how you can achieve success in every area of your life through transforming your beliefs with appreciation. *The Woody Allen Encyclopedia* Cornell University Press A shimmering fable that captivates and dazzles with its simple beauty.

Cibo in festa fra tradizione e trasformazioni. Pratiche e rappresentazioni alimentari in un contesto mezzadrile Crown Clint Eastwood is one of the world's most popular action stars, who has matured into a fine American producer-director.

Entertaining, illuminating and packed with information, up to and including "The Changeling", this is the first book to cover his full life in the movies, from his beginnings in 1950s B-movies and in TV's "Rawhide" to "Gran Torino" showing how as both actor and filmmaker Eastwood aims for the heart of the drama, whatever the story. Howard Hughes follows Eastwood's craft through over 50 movies. He looks at his launch into superstardom in Sergio Leone's 1960s spaghetti westerns. Back in America, he built on his success as western hero with such films as "High Plains Drifter" and "The Outlaw Josey Wales", winning an Oscar for "Unforgiven" in 1992. He blasted his way through the seventies and eighties as Inspector Harry Francis Callahan, the last hope for law enforcement in San Francisco. He also monkeyed around in two phenomenally popular films with Clyde the orang-utan, which brought tough-guy Eastwood to a whole new audience and made him the biggest box office star of his generation. "Aim for the Heart" also looks at Eastwood's more unusual roles, including "The Beguiled", "The Bridges of Madison County" and "Million Dollar Baby". Since 1970, he has enjoyed parallel success as

director-producer of his own Malpaso Productions, with "Bird", "Mystic River" and "Letters from Iwo Jima", demonstrating formidable directing credentials. "Aim for the Heart" covers all Eastwood's movies of many genres in detail, and Eastwood's story is illustrated with film stills, glimpses behind the scenes, and rare poster advertising material. "Aim for the Heart" also includes the most comprehensive credits filmography has ever compiled on Eastwood's work, as star and director.

Exciting new critical perspectives on popular Italian cinema including melodrama, poliziesco, the mondo film, the sex comedy, missionary cinema and the musical. The book interrogates the very meaning of popular cinema in Italy to give a sense of its complexity and specificity in Italian cinema, from early to contemporary cinema.

This book guides practitioners in the assessment of patients with a liver problem. The emphasis is on the role of macro- and microscopic pathology in elucidating pathogenesis as well as identifying confounding features of image findings that may lead to a more elaborate differential diagnosis. If appropriate, the role of light and electron microscopic examination, along with the role of specific stains and molecular techniques, is illustrated. In addition, the concept of each liver disease is summarized briefly and its up-to-date is provided, and unresolved problems in diagnosis, treatment, and pathogenesis are clearly described. The approach in this book is a practical one with a focus on the evaluation of illustrative cases, simultaneously demonstrating cross-sectional images (ultrasonography, computed tomography, magnetic resonance imaging, and angiography), pathological findings, and peritoneoscopic images. The diagnosis and therapy are summed up in helpful tables, and association of clinical manifestations with image analysis and pathological findings is shown to be important in differential diagnosis and treatment. With the authors comprising internationally renowned experts, this book will serve as a useful source of information for medical students, physicians, internists, hepatologists, gastroenterologists, radiologists, and pathologists worldwide.

Summer School in the Study of Old Books Insomniac Press "This coffee-table book is the first-ever collection of works devoted to celebrating black models. Fashion devotees will find glorious images of supers such as Iman, Tyra Banks, Naomi Campbell, Joan Smalls, and Adwoa Aboah alongside interviews and personal essays." —Vogue Filled with revealing essays, interviews, and stunning photographs, *Supreme Models* pays tribute to black models past and present: from the first to be featured in catalogs and on magazine covers, like Iman, Donyale Luna, and Beverly Johnson, to the supermodels who reigned in the nineties—Tyra Banks, Naomi Campbell, and Veronica Webb. The book also observes the newest generation of models—Adut Akech, Jourdan Dunn, and Joan Smalls—who are shaking up the fashion industry by speaking out about racial prejudice while becoming social media sensations. Written by celebrity fashion

stylist and journalist Marcellas Reynolds, *Supreme Models* features more than 70 women from the last 75 years. Reynolds writes, "I hope that everyone who reads this book learns something about the models included within—and more about the business of fashion and modeling. But what I want most is for *Supreme Models* to be a source for the little boys, or girls, who like my childhood self, need to see themselves represented in a positive light." The book, filled with gorgeous photographs of the women, details their most memorable campaigns, covers, editorials, and runway shows. Black models have been influencing fashion and pop culture for decades, reshaping beauty standards and boundaries. *Supreme Models* is a celebration of their monumental impact.

In their history of Cornell since 1940, Glenn C. Altschuler and Isaac Kramnick examine the institution in the context of the emergence of the modern research university. The book examines Cornell during the Cold War, the civil rights movement, Vietnam, antiapartheid protests, the ups and downs of varsity athletics, the women's movement, the opening of relations with China, and the creation of Cornell NYC Tech. It relates profound, fascinating, and little-known incidents involving the faculty, administration, and student life, connecting them to the "Cornell idea" of freedom and responsibility. The authors had access to all existing papers of the presidents of Cornell, which deeply informs their respectful but unvarnished portrait of the university. Institutions, like individuals, develop narratives about themselves. Cornell constructed its sense of self, of how it was special and different, on the eve of World War II, when America defended democracy from fascist dictatorship. Cornell's fifth president, Edmund Ezra Day, and Carl Becker, its preeminent historian, discerned what they called a Cornell "soul," a Cornell "character," a Cornell "personality," a Cornell "tradition"—and they called it "freedom." "The Cornell idea" was tested and contested in Cornell's second seventy-five years. Cornellians used the ideals of freedom and responsibility as weapons for change—and justifications for retaining the status quo; to protect academic freedom—and to rein in radical professors; to end in loco parentis and parietal rules, to preempt panty raids, pornography, and pot parties, and to reintroduce regulations to protect and promote the physical and emotional well-being of students; to add nanofabrication, entrepreneurship, and genomics to the curriculum—and to require language courses, freshmen writing, and physical education. In the name of freedom (and responsibility), black students occupied Willard Straight Hall, the anti-Vietnam War SDS took over the Engineering Library, proponents of divestment from South Africa built campus shantytowns, and Latinos seized Day Hall. In the name of responsibility (and freedom), the university reclaimed them. The history of Cornell since World War II, Altschuler and Kramnick believe, is in large part a set of variations on the narrative of freedom and its partner, responsibility, the obligation to others and to one's self to do what is right and useful, with a principled commitment to the Cornell community—and to the world outside the Eddy Street gate.

The Chinese are among Europe's oldest immigrant communities, and are now, in several countries, among the biggest and, economically, the most powerful, drawing increasing interest from other ethnic minorities, governments, and researchers. This volume opens up and delineates this new field of European overseas Chinese studies, reporting on pioneering research on the Chinese in Britain, Denmark, France, Germany, Hungary, Italy, the Netherlands, Portugal, and Spain, and exploring the networks, self-organizations, and migration patterns that are the fabric of the Chinese community in Europe, together with the issues of identity, language, integration, and community building that Chinese throughout the continent face.

Cornell University is fortunate to have as its historian a man of Morris Bishop's talents and devotion. As an accurate record and a work of art possessing form and personality, his book at once conveys the unique character of the early university—reflected in its vigorous founder, its first scholarly president, a brilliant and eccentric faculty, the hardy student body, and, sometimes unfortunately, its early architecture—and establishes Cornell's wider significance as a case history in the development of higher education. Cornell began in rebellion against the obscurantism of college education a century ago. Its record, claims the author, makes a social and cultural history of modern America. This story will undoubtedly entrance Cornellians; it will also charm a wider public. Dr. Allan Nevins, historian, wrote: "I anticipated that this book would meet the sternest tests of scholarship, insight, and literary finish. I find that it not only does this, but that it has other high merits. It shows grasp of ideas and forces. It is graphic in its presentation of character and idiosyncrasy. It lights up its story by a delightful play of humor, felicitously expressed. Its emphasis on fundamentals, without pomposity or platitude, is refreshing. Perhaps most important of all, it achieves one goal that in the history of a living university is both extremely difficult and extremely valuable: it recreates the changing atmosphere of time and place. It is written, very plainly, by a man who has known and loved Cornell and Ithaca for a long time, who has steeped himself in the traditions and spirit of the institution, and who possesses the enthusiasm and skill to convey his understanding of these intangibles to the reader." The distinct personalities of Ezra Cornell and first president Andrew Dickson White dominate the early chapters. For a vignette of the founder, see Bishop's description of "his" first buildings (Cascadilla, Morrill, McGraw, White, Sibley): "At best," he writes, "they embody the character of Ezra Cornell, grim, gray, sturdy, and economical." To the English historian, James Anthony Froude, Mr. Cornell was "the most surprising and venerable object I have seen in America." The first faculty, chosen by President White, reflected his character: "his idealism, his faith in social emancipation by education, his dislike of dogmatism, confinement, and inherited orthodoxy"; while the "romantic upstate gothic" architecture of such buildings as the President's house (now Andrew D. White Center for the Humanities), Sage Chapel, and Franklin Hall may be said to "portray the taste and soul of Andrew Dickson White." Other memorable characters are Louis Fuertes, the beloved naturalist; his student, Hugh Troy, who once borrowed Fuertes' rhinoceros-foot wastebasket for illicit if hilarious purposes; the more noteworthy and the more eccentric among the faculty of succeeding presidential eras; and of course Napoleon, the campus dog, whose talent for hailing streetcars brought him home safely—and alone—from the Penn game. The humor in *A History of Cornell* is at times kindly, at times caustic, and always illuminating.

The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul

Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

A beloved, bestselling classic of humorous and nostalgic Americana—the book that inspired the equally classic Yuletide film and the live musical on Fox. The holiday film *A Christmas Story*, first released in 1983, has become a bona fide Christmas perennial, gaining in stature and fame with each succeeding year. Its affectionate, wacky, and wryly realistic portrayal of an American family's typical Christmas joys and travails in small-town Depression-era Indiana has entered our imagination and our hearts with a force equal to *It's a Wonderful Life* and *Miracle on 34th Street*. This edition of *A Christmas Story* gathers together in one hilarious volume the gems of autobiographical humor that Jean Shepherd drew upon to create this enduring film. Here is young Ralphie Parker's shocking discovery that his decoder ring is really a device to promote Ovaltine; his mother and father's pitched battle over the fate of a lascivious leg lamp; the unleashed and unnerving savagery of Ralphie's duel in the show with the odious bullies Scut Farkas and Grover Dill; and, most crucially, Ralphie's unstoppable campaign to get Santa—or anyone else—to give him a Red Ryder carbine action 200-shot range model air rifle. Who cares that the whole adult world is telling him, "You'll shoot your eye out, kid"? The pieces that comprise *A Christmas Story*, previously published in the larger collections *In God We Trust*, *All Others Pay Cash* and *Wanda Hickey's Night of Golden Memories*, coalesce in a magical fashion to become an irresistible piece of Americana, quite the equal of the film in its ability to warm the heart and tickle the funny bone.

A comprehensive collection of photographs, interviews, and profiles of the most influential Black actresses who have worked in film, television, and theater Foreword by Gabrielle Union Marcellas Reynolds, the author of *Supreme Models*, presents the first-ever art book dedicated to celebrating Black actresses and exploring their experiences in acting. Through stunning photographs, personal interviews, short biographies, and career milestones, *Supreme Actresses* chronicles the most influential Black actresses who have worked in film, television, and theater. From Hattie McDaniel, the first actress of color to win an Academy Award for Best Supporting Actress in 1939, to Dorothy Dandridge, the first actress of color to be nominated for an Academy Award for Best Actress in 1954. And from Ethel Waters, the first African American actress to be featured on an American sitcom in 1950, to Cicely Tyson, the first African American star of a TV drama in 1963. The performances by these talented actresses are ingrained into our memories. We experienced laughter, love, and loss with these women. But how did they begin their acting careers? Who were the first Black actresses who paved the way? What are their defining moments? What effects did racial prejudice have on their careers? *Supreme Actresses* remembers and celebrates the groundbreaking women who have been influencing culture for decades, reshaping the very standards of beauty in modern society.
