Get ready to give your brain a workout! The Trivial Pursuit Ultimate Puzzle Book includes more than 200 word puzzles that put a spin on what puzzle fans might normally expect. Each puzzle is designed so that trivia is the basis for each answer. So, for example, instead of providing a list of words for a word search, this book provides a list of trivia questions, with the answers hidden within the puzzle. Similarly, the answers in a list of word jumbles might all relate to a general trivia question – such as “What were the names of the first 20 presidents of the United States.” Each puzzle is categorized by theme, as in the classic Trivial Pursuit game, which covered geography, entertainment, history, arts & literature, science & nature, and sports & leisure. General trivia questions will be spotlighted in bursts throughout the book for added fun! It's a ton of brain-teasing fun that turns classic tabletop trivia into "do anywhere" pencil puzzle entertainment.

Spot the differences puzzles are the ones where you are given nearly identical drawings and you must spot the eight differences. This book consists of 50 spot the differences puzzles. But it is more than just a puzzle book. Each of the 50 drawings is on a subject that students must know about: things like giving directions, taking a driver's test, going to see a doctor, going to a job interview or asking a question in class. Each unit is a self-contained lesson on one of these subjects. To begin with each unit is four pages long. Students are first given a single, error free copy of the drawing, with which they identify objects in the drawing and brainstorm vocabulary. Next your students read a paragraph which tells the story of the drawing. Now your students come up with a title for the unit. Page two has the two copies of the drawing, with and without missing items, and space to write down what they are. Following this are a variety of vocabulary exercises and word puzzles. There is a close dictation and each unit provides a couple of personal interpretation questions, as well. There is a complete answer key.
