Background information is given on the  
initiation of a multi-agency research project  
to compare limnological features of the  
Bay of Quinte, Lake Ontario, before and  
after reduction in phosphorus inputs.  
Water quality trends and changes in  
fisheries are summarized. The  
experimental management approach and  
ecological framework for this research are

discussed in general terms. A total of 23  
reports on chemical and physical  
limnology, phytoplankton, macrophytes,  
zooplankton, benthos, and fish accompany  
this introductory report.

Warships of the Bay of Quinte  
It's the summer of Connor Trent's  
sixteenth birthday, and the stakes for him  
have never been so high. Connor's  
summer job at the Bytowne Tennis Club  
allows him to train at a historic facility. It  
also throws him into confrontation with his  
rich-kid rival, Rex Hunter, whom he will  
battle for a berth in the National Junior  
Tournament. After a series of fundraisers  
is sabotaged, Connor suspects that

someone wants to bankrupt the club and  
take over its valuable riverfront property.  
A fabled trophy, rumored to contain  
hidden cash, might solve all of Connor's  
problems, if he can win it.

Dundurn  
Using a prosopographical approach that  
combines descriptive exposition,  
quantitative tabulation, and structural  
analysis, Randy Widdis determines the  
geographical and social origins of  
migrants, the distance and direction of  
migration corridors, and geographical  
destinations in both the United States and  
Canada. The study provides a new view of  
the invisible Anglo-Canadian, one of the  
largest and least understood immigrant  
groups in the United States. Widdis's  
results show that there were many

differences between Anglo-Canadians, and that their experience in the United States was much more complex than is usually assumed. With Scarcely a Ripple not only contributes to our understanding of the dynamics of intra-regional, inter-regional, and return Anglo-Canadian migration but also interprets this movement in terms of the paradox of an emerging Canadian identity and a developing integration with the United States. It offers a historical geographical perspective on a subject that, in this era of free trade and globalization, is more relevant than ever.

This is the story of six of Canadas Warships HMCS NAPANEE, HMCS BELLEVILLE, HMCS HALLOWELL, HMCS TRENTONIAN, HMCS QUINTE (I), and the HMCS QUINTE (II). These histories give a unique account of the small ships that

have been the backbone of the Canadian Navy during the Second World War and the Cold War. The stories record the accomplishments of these hardworking ships as well as the mistakes. This rich and vivid account of an important part of Canadas Naval Service draws from the records of the ships, interviews with their crews, letters, diaries, newspaper articles, community libraries and photographs. You will learn about the HMCS NAPANEE as she fights a five day battle against twenty-four German submarines in on one of Canadas most tragic convoy battles. Be with HMCS BELLEVILLE as she fights to rescue a torpedoed merchant ship and find out about how a German submarine sinks the HMCS TRENTONIAN late in the war killing six of her crew.

to the arrival of the United Empire Loyalists. For 30 years the centre of the present city was reserved for the Mississauga First Nation. White settlers who built dwellings and businesses on the land paid annual rent to them until the land was "surrendered" and a town plot laid out in 1816. The new town quickly became an important lumbering, farming, and manufacturing centre. Early influences include the Marmora Iron Works of the 1820s, the first railway in 1856, Ontario's first gold rush in 1866, and prominent citizens such as noted pioneer author Susanna Moodie and Sir Mackenzie Bowell, Canada's fifth prime minister. This is a personal history of Belleville, based on Gerry Boyce's half-century of research. Embedded throughout are interesting and

obscure stories about scandals, murders, and hauntings — the underbelly of the growth of a city.
