This eighth

edition has been brought fully up to date, describing what is now termed General British (GB) as the accent of principal consideration and replacing *Gimson's Pronunciation of English*. The *Pronunciation of English* was written originally as a detailed description of the phonetics of English, presented from the point of view of the native English-speaking student. However, it soon established itself as a standard textbook in universities where English is a foreign language, because it provides in a lucid and authoritative manner the basic information needed by foreign students of the language.
