My Favourite Goodbye

Random House

A poignant, dazzling debut novel about a woman who longs to be a mother and the captivating yet troubled child she and her husband take in. What is the cost of motherhood? When *The Risk of Us* opens, we meet a forty-something woman who deeply wants to become a mother. The path that opens up to her and her husband takes them through the foster care system, with the goal of adoption. And when seven-year-old Maresa—with inch-deep dimples and a voice that can beam to the moon—comes into their lives, their hearts fill with love. But her rages and troubles threaten to crack open their marriage. Over the course of a year, as Maresa approaches the age at which children

become nearly impossible to place, the couple must decide if they can be the parents this child needs, and finalize the adoption--or, almost unthinkably, give her up. For fans of Jenny Offill and Rachel Cusk, *The Risk of Us* deftly explores the inevitable tests children bring to a marriage, the uncertainties of family life, and the ways true empathy obliterates our defenses.

What no one knows is that the President issues the pardon only after receiving enormous pressure from the CIA. It seems Backman, in his power broker heyday, may have obtained secrets that compromise the world's most sophisticated satellite surveillance system. Backman is quietly smuggled out of the country in a military cargo plane, given a new name, a new identity, and a new

home in Italy. Eventually, after he has settled into his new life, the CIA will leak his whereabouts to the Israelis, the Russians, the Chinese, and the Saudis. Then the CIA will do what it does best: sit back and watch. The question is not whether Backman will survive—there is no chance of that. The question the CIA needs answered is, who will kill him?
