Part memoir and part guidebook, Share Your Stuff. I'll Go First. is the invitation you've been waiting for to show up with your whole self and discover the intimate, meaningful relationships you long for. In spite of the hyper-connected culture we live in today, women still feel shamed for oversharing and being publicly vulnerable. And no matter how many friends we seem to have, many of us are still desperately lonely. Laura Tremaine says it's time for something better. Openness and vulnerability are the foundation for human growth and healthy relationships, and it all starts when we share our stuff, the nitty-gritty daily details about ourselves with others. Laura has led the way in her personal life with her popular blog and podcast, and now with lighthearted self-awareness, a sensitivity to the important things in life, and

compelling storytelling. Laura gives you the tools to build and deepen the conversations happening in your life. Laura's stories about her childhood in Oklahoma, her complicated shifts in faith and friendships, and her marriage to a Hollywood movie director will prompt you to identify the beautiful narrative and pivotal milestones of your own life. Each chapter offers intriguing and reflective questions that will reveal unique details and stories you've never thought to tell and will guide you into cultivating the authentic connection with others that only comes from sharing yourself.

This Handbook presents in-depth research conducted on a myriad of issues within the field of financial literacy. Split into six sections, it starts by presenting prevalent conceptions of financial literacy before covering financial literacy in the policy context, the state and development of financial literacy within different countries, issues of assessment and evaluation of financial literacy, approaches to teaching financial literacy, and teacher training and teacher education in financial literacy. In doing so, it provides precise definitions of the construct of financial literacy and elaborates on the state and recent developments of financial literacy around the world, to show ways of measuring and fostering financial literacy and to give hints towards necessary and successful teacher trainings. The book also embraces the diversity in the field by revealing contrasting and conflicting views that cannot be bridged, while at the same time making a contribution by re-joining existing materials in one volume which can be used in academic discourse, in research-workshops, in university lectures and in the definition of program initiatives within the wider field of financial literacy. It allows for a landscape of financial literacy to be depicted which would foster the implementation of learning opportunities for human beings for sake of well-being within financial living-conditions. The Handbook is useful to academics and students of the topic, professionals in the sector of investment and banking, and for every person responsible for managing his or her financial affairs in everyday life.

One of The New York Times' 16 New Books to Watch for in March One of Publishers Weekly's Most Anticipated Books of the Year One of Newsweek's Most Highly Anticipated Books of The Year One of Buzzfeed's Most Anticipated Books of The Year Based on the acclaimed series—a finalist for the Pulitzer Prize—an intimate account of the devastating effects of gun violence on our nation's children, and a call to action for a new way forward In 2017, seven-year-old Ava in South Carolina wrote a letter to Tyshaun, an eight-year-old boy from Washington, DC. She asked him to be her pen pal; Ava thought they could help each other. The kids had a tragic connection—both were traumatized by gun violence. Ava's best friend had been killed in a campus shooting at her elementary school, and Tyshaun's father had been shot to death outside of the boy's elementary school. Ava's and Tyshaun's stories are extraordinary, but not unique. In the past decade, 15,000 children have been killed from gunfire, though that number does not account for the kids who weren't shot and aren't considered victims but have nevertheless been irreparably harmed by gun violence. In Children Under Fire, John Woodrow Cox investigates the effectiveness of gun safety reforms as well as efforts to manage children's trauma in the wake of neighborhood shootings and campus massacres, from Columbine to Marjory Stoneman Douglas. Through deep reporting, Cox addresses how we can effect change now, and help children like Ava and Tyshaun. He explores their stories and more, including a couple in South Carolina whose eleven-year-old son shot himself, a Republican politician fighting for gun safety laws, and the charlatans infiltrating the school safety business. In a moment when the country is desperate to better understand and address gun violence, Children Under Fire offers a way to do just that, weaving wrenching personal stories into a critical call for the United States to embrace practical reforms that would save thousands of young lives.
