From the Foreword, by Arnold Lazarus, PhD, ABPP: "I shudder when I think... when I, as a newly minted PhD in clinical psychology, was certified as competent and qualified... it is not farfetched to say I knew next to nothing..." "Newly minted" therapists aren't alone in making mistakes, of course; even seasoned professionals can benefit from discovering the 50+ most common errors therapists make, and how to avoid them. Newly revised and updated, this indispensable guide includes more case examples and adds seven ways "to fail" with child patients, too. TEARING APART THE LAND

American Bar Association

Since January 2004, a violent separatist insurgency has raged in southern Thailand, resulting in more than three thousand deaths. Though largely unnoticed outside Southeast Asia, the rebellion in Pattani and neighboring provinces and the Thai government's harsh crackdown have resulted in a full-scale crisis. *Tearing Apart the Land* by Duncan McCargo, one of the world's leading scholars of contemporary Thai politics, is the first fieldwork-based book about this conflict. Drawing on his extensive knowledge of the region, hundreds of interviews conducted during a year's research in the troubled area, and unpublished Thai-language sources that range from anonymous leaflets to confessions extracted by Thai security forces, McCargo locates the roots of the conflict in the context of the troubled power relations between Bangkok and the Muslim-majority "deep South." McCargo describes how Bangkok tried to establish legitimacy by co-opting local religious and political elites. This successful strategy was upset when Thaksin Shinawatra became prime minister in 2001 and set out to reorganize power in the region. Before Thaksin was overthrown in a 2006 military coup, his repressive policies had exposed the precariousness of the Bangkok government's influence. A rejuvenated militant movement had emerged, invoking Islamic

rhetoric to challenge the authority of local leaders obedient to Bangkok. For readers interested in contemporary Southeast Asia, insurgency and counterinsurgency, Islam, politics, and questions of political violence, *Tearing Apart the Land* is a powerful account of the changing nature of Islam on the Malay peninsula, the legitimacy of the central Thai government and the failures of its security policy, the composition of the militant movement, and the conflict's disastrous impact on daily life in the deep South. Carefully distinguishing the uprising in southern Thailand from other Muslim rebellions, McCargo suggests that the conflict can be ended only if a more participatory mode of governance is adopted in the region.

"Few outsiders have any realistic sense of the innards, motives, rivalries, and fears of the Chinese Communist leadership. But we all know much more than before, thanks to Richard McGregor's illuminating and richly-textured look at the people in charge of China's political machinery.... Invaluable." — James Fallows, National Correspondent for *The Atlantic* The Party is Financial Times reporter Richard McGregor's eye-opening investigation into China's Communist Party, and the integral role it has played in the country's rise as a global superpower and rival to the United States. Many books have examined China's economic rise, human rights record, turbulent history, and relations with the U.S.; none until now, however, have tackled the issue central to understanding all of these issues: how the ruling communist government works. The Party delves deeply into China's secretive political machine.

She doesn't miss a beat in either the characterization or action, scattering clues with a delicate, precise hand. This is, in the end, the story of the anatomy of the human heart." - Booklist (starred review) Dana Schwartz's *Anatomy: A Love Story* is a gothic tale full of mystery and romance. Hazel Sinnett is a lady who wants to be a surgeon more than she wants to marry. Jack Curren is a resurrection man who's just trying to survive in a city where it's too easy to die. When the two of them have a chance encounter outside the Edinburgh Anatomist's Society, Hazel thinks nothing of it at first. But after she gets kicked out of renowned surgeon Dr. Beecham's lectures for being the wrong gender, she realizes that her new acquaintance might be more helpful than she first thought. Because Hazel has made a deal with Dr. Beecham: if she can pass the medical examination on her own, Beecham will allow her to continue her medical career. Without official lessons, though, Hazel will need more than just her books—she'll need corpses to study. Lucky that she's made the acquaintance of someone who digs them up for a living. But Jack has his own problems: strange men have been seen skulking around cemeteries, his friends are disappearing off the streets, and the dreaded Roman Fever, which wiped out thousands a few years ago, is back with a vengeance. Nobody important cares—until Hazel. Now, Hazel and Jack must work together to uncover the secrets buried not just in unmarked graves, but in the very heart of Edinburgh society.
