The Civil Law in Spain and Spanish America, Incl. Cuba, Puerto Rico and Philippine Islands, and the Spanish Civil Code in Force, Ann. and with Ref. to the Civil Codes of Mexico, Central and South America ... The Lawbook Exchange, Ltd.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in Spain covers every aspect of the subject - definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of

proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Spain will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

The topics addressed in this book have traditionally been covered in separate publications on civil and commercial law. This dualism of regimes has made it difficult for students and professionals alike to comprehend Spanish private law as a whole. In the past this has led to inefficient duplication of explanations, gaps in key areas and an altogether fragmented picture. Introduction to Spanish Private Law presents a consolidated, modern, and realistic image of today's Spanish private legal system. It combines both civil and commercial law and integrates them in the same book, making the overall subject far more accessible to readers. This united approach results in a more logical and efficient process of learning. Finally the issues that are addressed reflect the reality of today's economic and legal scene. This book attempts to provide the readers with the necessary legal instruments to tackle the real problems arising from a globalized modern society. The general principles in this book are presented from a practical point of view that emanates from the authors' conception of a legal system as an instrument to solve social problems in accordance with a set of principles, values and aims.

This Handbook on Spanish Civil Patrimonial Law is a concise and accurate introduction to Spanish Civil Law. It is especially interesting for students in degrees with an economic content (Business Administration, Economics, Accounting and Finance, Tourism, etc.). It is a basic text for students and teachers in the bilingual studies. It gives a general overview of the Spanish Civil Law, focusing on the economic aspects of the legal relations and institutions. That is, the Handbook not only refers to patrimonial matters, but it also gives a basic knowledge of the pillars of Civil Law. The person, the Law of obligations, the Law of contracts, non-contractual liability, rights in rem and even family and succession law are studied herein. But not only is this Handbook interesting for students. Its clarity and preciseness make of it a perfect tool for businessmen and lawyers with foreign clients. This Handbook is a work which accurateness and quality can be relied upon in the daily business practice.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1899 edition. Excerpt: ... Government or the courts, shall be continued in accordance with preceding legislation, unless the fathers or petitioners for such grace desist from these proceedings and prefer those established in this Code. Rights to the inheritance of persons who have died, with or without a will, before this Code is in force, shall be ruled by the preceding legislation. The inheritances of those who die after that time, with or without a testament, shall be adjudicated and distributed according to this Code, but complying, in so far as the latter permits it, with the testamentary provisions. Therefore, the legitimes, advantages, and legacies shall be respected; but their amounts shall be reduced, when it is not possible, in any other manner, to give to each participant in the inheritance, the portion corresponding to him, according to this Code. 13. Cases, not directly comprised in the preceding provisions, shall be determined by applying the principles on which they are founded. ADDITIONAL PROVISIONS. 1. The President of the Supreme Court and those of the Territorial Audiencias shall transmit to the Secretary of Grace and Justice, at the end of each year, a report in which, referring to the affairs of which the civil branches have taken cognizance during the same year, they may point out the deficiencies and doubts which they have met in applying this Code. They shall state, in detail in the same, the questions and points of law controverted, and the articles or omissions of the Code which have given cause for doubts to the Court. 2. The Secretary of Grace and Justice shall transmit these reports and a copy of the civil statistics of the same year to the General Commission on Codification. 3 In v iew of this data, of the progress made in other...
