"One of the first great events in Christian history was the Council of Nicaea in 325 AD, convened to organize Christian sects and beliefs into a unified doctrine. The great Christian clergymen who wrote before this famous event are referred to as the Ante-Nicenes and the Apostolic Fathers, and their writings are collected here in a ten-volume set. The Ante-Nicenes lived so close to the time of Christ that their interpretations of the New Testament are considered more authentic than modern voices. But they are also real and flawed men, who are more like their fellow Christians than they are like the Apostles, making their words echo in the ears of spiritual seekers. In Volume I of the 10-volume collected works of the Ante-Nicenes first published

between 1885 and 1896, readers will find the writings of: Clement of Rome, the fourth pope, who was supposedly martyred by being tied to an anchor and tossed overboard Mathetes, an anonymous writer considered the first Christian apologist Polycarp, a Christian bishop who was stabbed to death after he failed to burn at the stake Ignatius, a student of John the Apostle, who was Bishop of Antioch before he was killed Barnabas, an anonymous writer given the name of Saint Barnabas Papias, author of Interpretations of the Sayings of the Lord, a textbook on quotes from Jesus Justin Martyr, a Christian apologist and accomplished philosopher, and Irenaeus, disciple of Polycarp, apologist, and bishop of Lugdunum."

## THE EARLY CHURCH FROM IGNATIUS TO AUGUSTINE

Ante-Nicene Fathers: Fathers of the Early Church (Complete)

This volume, containing the equivalent of three volumes of the Edinburgh series of the Ante-Nicene Fathers, will be found a library somewhat complete in itself. The Apostolic Fathers and those associated with them in the third generation, are here placed together in a handbook, which, with the inestimable Scriptures, supplies a succinct autobiography of the Spouse of Christ for the first two centuries. No Christian scholar has ever before possessed, in faithful versions of such compact form, a supplement so essential to the right understanding of the New Testament itself. It is a volume indispensable to all scholars, and to every library, private or public, in this country. The American Editor has performed the humble task of ushering these works into American use, with scanty contributions of his own. Such was the understanding with the public: they were to be presented with the Edinburgh series, free from appreciable colour or alloy. His duty was to give historic arrangement to the confused mass of the original series; to supply, in continuity, such brief introductory notices as might slightly popularize what was apparently meant for scholars only, in the introductions of the translators; to supply a few deficiencies by short notes and references; to add such references to Scripture, or to authors of general repute, as might lend additional aid to students, without clogging or overlaying the comments of the translators; and to note such corruptions or distortions of Patristic testimony as have been circulated, in the spirit of the forged Decretals, by those who carry on the old imposture by means essentially equivalent. Too long have they been allowed to speak to the popular mind as if the Fathers were their own; while, to every candid reader, it must be evident that, alike, the testimony, the arguments, and the silence of the Ante-Nicene writers confound all attempts to identify the ecclesiastical establishment of "the Holy Roman Empire," with "the Holy Catholic Church" of the ancient creeds. In performing this task, under the pressure of a virtual obligation to issue the first volume in the first month of the new year, the Editor has relied upon the kindly aid of an able friend, as typographical corrector of the Edinburgh sheets. It is only necessary to add, that he has bracketed all his own notes, so as to assume the responsibility for them; but his introductions are so separated from those of the translators, that, after the first instance, he has not thought it requisite to suffix his initials to these brief contributions. He regrets that the most important volume of the series is necessarily the experimental one, and comes out under disadvantages from which it may be expected that succeeding issues will be free. May the Lord God of our Fathers bless the undertaking to all my fellow-Christians, and make good to them the promise which was once felicitously chosen for the motto of a similar series of publications: "Yet shall not thy teachers be removed into a corner any more, but thine eyes shall see thy teachers."

Bercot has painstakingly combed the writings of these early church leaders and categorized the heart of their thinking into more than 700 theological, moral, and historical topics to create A Dictionary of Early Christian Beliefs.
