EMQs FOR MEDICAL STUDENTS

John Wiley & Sons

Medical schools are rapidly adopting the popular style of Single Best Answers (SBAs), Best of Fives (BOFs) and Extended Matching Questions (EMQs). This unique and up-to-date book contains over 1000 clinically relevant questions, a selection of SBA's/BOFs and EMQs - the essential aid for every medical student. No need to spend time reading through several textbooks, everything you need is

here in one place. Questions are presented to include typical scenarios you will encounter as a Junior Doctor and covers the core curriculum subjects: Medicine, Surgery, Psychiatry, Obstetrics and Gynaecology, and Paediatrics. Since the first edition was published, Get Through Medical School has been a bestselling revision book for medical students. Retaining the classic question types - SBA's/BOFs and EMQs, this second edition benefits from a host of new questions and a great deal more explanatory information within the answers. Written by Seema Khan MBBS MRCS MRCP DRCOG, who has first hand experience of preparing for and taking this format of exam, Get Through Medical School, second edition is a valuable revision book for all candidates preparing for medical school exams and an equally useful tool to help Foundation Doctors prepare for managing patients.

GET THROUGH MEDICAL SCHOOL

CRC Press

Welcome to Crash Course – THE revision aid to get you the results you need!! Crash Course is a complete revision guide designed specifically to save you time by providing everything you could be asked in the exam in one place. Each book in the series has been specially written either by senior medical students or junior doctors – carefully supervised by faculty advisors – to ensure that it exactly matches your needs by having been prepared by someone who has just been in the exam situation. Fully up-to-date with improved layout, this brand new edition to the Crash Course series will help you tackle both the new form of assessment as well as the traditional style of examination. Questions covering all common medical and surgical presentations are included in SBA and EMQ formats with relevant, concise explanations given as answers. Designed to increase your confidence as you approach your finals, this book is ideal for all MBBS students studying at both UMAP and traditional schools of medicine. Crash Course – an easier way to get through the exam! Provides the exam syllabus in one place! Written by senior medical students or junior doctors – authors WHO REALLY UNDERSTAND today's exam situation! Senior Faculty Advisors ensure complete accuracy of the text! Content fully reflects new curriculum requirements – helps you maximise your grade!

EMQs and MCQs for Medical Finals Radcliffe Publishing

The new edition of Get ahead! Medicine: 150 EMQs for Finals has been completely updated by two junior doctors who have achieved recent success in their finals, overseen by the book's experienced author team. The 150 EMQ themes, each with five stems, are arranged as 10 practice papers, each containing 15 themes. All the main conditions are included as well as more detailed knowledge suitable for candidates aiming at the higher deciles. The questions are written to follow the house style of the Medical Schools Council Assessment Alliance EMQs and are therefore of a similar format to those you can expect in your exams. All the questions are accompanied by explanatory answers, including a succinct summary of the key features of each condition. Whether you work through the practice papers systematically or dip in and out by topic, this bestselling revision guide will offer a life rope for anyone preparing for undergraduate finals.

MCQs and EMQs for the Diploma in Otolaryngology With Honours

EMQs are an increasingly popular method of assessing how broad a knowledge of medicine an undergraduate student has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. EMQs in Clinical Medicine is an invaluable revision book which presents 100 key EMQs covering the main f

SBAs and EMQs in Paediatrics for Medical Students CRC Press

EMQs and MCQs for Medical Finals is a unique revision and study tool for Final Examination preparation. Practice questions cover a variety of key topics in both medicine and surgery, with the mixture of questions reflecting the general weighting in real exams. Comprehensive answer notes are provided for each question, explaining why a particular answer is correct and why others are not. Useful mnemonics and tips on remembering key facts help to consolidate learning.

Crash Course: Self-Assessment in Medicine and Surgery E-Book John Wiley & Sons

Pre-Clinical Medicine consists of a comprehensive and rigorously developed collection of multiple

choice questions (MCQs) and extended matching questions (EMQs), carefully designed to equip you with the medical knowledge and clinical acumen necessary to excel in your pre-clinical exams. Success at medical school demands an in-depth understanding of fundamental scientific principles, as well as the ability to integrate and apply this knowledge in different clinical contexts. Each chapter of this book has been methodically developed in order to help you do just that, with over 500 practice questions in total. By working through these practice questions and the detailed solutions provided, you will enhance your appreciation and understanding of the medical sciences, and significantly improve your clinical reasoning skills, not only making you a better medical student but laying a strong foundation for your future career as a doctor.

EMQs FOR MEDICAL STUDENTS

CRC Press

Single Best Answer (SBA) and Extended Matching Question (EMQ) examinations are increasingly popular means of testing medical students and those undertaking postgraduate qualifications in a number of subject areas. Written by a final year medical student, junior doctors and an experienced clinician, Single Best Answers and EMQs in Clinical Pathology

Student Success in Physiology CRC Press

The PLAB examination assesses your ability to work safely in your first appointment as a Senior House Officer in an NHS hospital. Are you ready? Comprehensive and completely up-to-date, the Third Edition of this best-selling guide to passing the PLAB is based on actual questions from previous examinations and enhanced by detailed, explanatory answers from the author's extensive clinical experience. Considering a wide variety of topics, the book suggests techniques to answer the extended matching questions by providing focused solutions and explanations. It also highlights clues to the correct response within the question itself. It is highly recommended for PLAB candidates, final year medical students and candidates for the MRCP.

EMQs for Medical Students tfm Publishing Limited

As recent medical graduates, we understand all too well the pressures faced during medical school. Lectures, tutorials, never-ending ward rounds, outpatient clinics, coursework assignments and, of course, let us not forget the gruelling end-of-year exams.' Helen Butler and Neel Sharma, in the Preface This vital revision aid challenges you in all co

Psychiatry Finals PasTest Ltd

EMQs are a popular method of assessing how broad a knowledge of medicine an undergraduate has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. Presenting 100 key EMQs covering the core areas of medicine and surgery, care had been taken by the authors to structure the questions and answers so that they reflect accurately the themes encountered during study and, specifically, in final exams. Each subject covered is accompanied by a revision section which summarises key points and cross references them to other questions for revision purposes. Questions related to pharmacology, an area which many students find particularly challenging, are threaded throughout the book where relevant, mirroring the integrated teaching methods common to most medical schools. The second edition of EMQs in Clinical Medicine has been thoroughly revised and updated to reflect medical

developments, while retaining the clear and comprehensive approach and popular revision boxes of its predecessor. The authors' first-hand experience of EMQ-based examinations, and awareness of the importance of reliable and accurate revision guides to medical students, ensure EMQs in Clinical Medicine remains an invaluable resource for all medical students undertaking the clinical part of their training, and an ideal companion during finals preparation.

BASIC SCIENCES

CRC Press

This excellent practical text is a ready source of information on evidence-based treatments and new medical psychological and self-help methods. It is unique in being written especially for GPs and primary care workers including practice nurses health visitors social workers and community psychiatric nurses. It also has great relevance for psychiatric trainees and consultant psychiatrists setting up in general practice. Patients and their relatives will find it useful and accessible.

EMQs FOR MEDICAL STUDENTS

EMQs for Medical Students

This unique text presents challenging questions covering common and important ophthalmology, dermatology and ENT topics. The comprehensive answers make it an all-in-one study and revision tool for busy students. These specialties are commonly misunderstood by medical students and clinical trainees, and are known to be areas in which valuable marks are frequently lost in written and clinical examinations. EMQs in Ophthalmology, Dermatology and ENT is ideal for medical students wanting to consolidate their knowledge. It is also highly recommended for general practitioners, core medical and core surgical trainees, including candidates for the MRCGP, MRCP and MRCS examinations. Junior ophthalmology, dermatology and ENT trainees, including candidates for the Duke-Elder Exam in Ophthalmology, will find the self-testing EMQ format crucial in exam preparations. From the Foreword by Professor Janice: The authors have done a great job of covering the very wide syllabuses for these subjects while at the same time making reading the book such a pleasurable learning experience. Junior doctors and medical students can use this book to give them a comprehensive, yet adequately detailed, insight into these specialties.

MCQs & EMQs in Human Physiology, 6th edition CRC Press

This revision guide contains Extended Matching Questions (EMQs) and Observed Structured Clinical Examinations (OSCEs) that comprehensively cover the major topics in Psychiatry likely to be tested at medical school. It will also be an invaluable resource to those taking other exams such as the PLAB and postgraduate Psychiatry examinations. Part 1 comprises 58 EMQs, divided into 8 chapters, covering questions on mental state examinations, general adult psychiatry, developmental and organic disorders, treatments, and management issues. Most EMQs focus on a particular presentation or issue and are based on clinical vignettes that describe a clinical scenario. Each EMQ is organized as five stems with 10 possible choices and answers to each EMQ are given at the end of each chapter with additional notes clarifying specific options not covered in the questions. Part 2 covers OSCEs, which are based on common clinical scenarios and stations frequently encountered in exams. The 23 questions cover history-taking, communication, and practical stations. Ideal for

medical students and junior doctors, this book is intended to complement rather than replace other psychiatry books, and will help students develop a better understanding of the clinical aspects of psychiatry.

SBAs, EMQs & SAQs in MEDICINE CRC Press

This book by former DOHNS candidates focuses on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates.

EMQs in OPHTHALMOLOGY, DERMATOLOGY AND ENT

CRC Press

The key to passing the written finals is practice, practice, practice. With hundreds of sample SBAs and EMQs to test your knowledge, this unique revision guide offers a great foundation. The highly detailed answers explain each concept fully and help to develop an understanding of this notoriously vast subject. More than a traditional question and

Medical schools are rapidly adopting the popular style of "Single Best Answers" (SBAs), "Best of Fives" (BOFs) and "Extended Matching Questions" (EMQs) for undergraduate exams. This unique and up-to-the-minute book contains 1000 clinically relevant questions, a selection of SBAs, BOFs and EMQs - the essential revision aid for every medical student. No need to spend time reading through several different textbooks, everything you need is here in one place. Questions are presented to include typical scenarios you will encounter as a junior doctor and the book covers the core curriculum subjects: - Medicine - Surgery - Psychiatry - Obstetrics and Gynaecology - Paediatrics. Written by a doctor with several years' experience at SHO and registrar level, and a newly qualified junior doctor, this book is a valuable revision book for everyone preparing for medical school exams, and an equally useful tool to help junior and senior house officers prepare for managing patients.

EMQs in Clinical Medicine Second Edition CRC Press

'SBAs, EMQs & SAQs in SURGERY' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for those clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Over 700 questions on the core medical subjects. • Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. • Overseen by experienced doctors to ensure relevance and accuracy. • The broad medical curriculum is covered in a succinct and consistent style. • Clear and concise answers are provided. • Easy accessible information to facilitate revision on the move. • Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. • The following main specialties are covered: - Upper gastrointestinal surgery; - Lower gastrointestinal

surgery; - Vascular surgery; - Breast surgery; - Urology; - Neurosurgery; - Ear, nose and throat surgery; - Trauma & orthopaedics; - Fluids & electrolytes. Watch out for our other titles in the MedQ4exams series: - Medicine - The Specialties - Practice papers

EMQs FOR MEDICAL STUDENTS

CRC Press

This vital revision aid challenges you in all commonly tested aspects of anatomy. The sample SBAs and EMQs test your knowledge of relevant subject areas and are followed by answers as well as

detailed explanations to assist comprehension. The index aids quick reference and cross-checking.

SBAs AND EMQs IN PSYCHIATRY FOR MEDICAL STUDENTS

PasTest Ltd

This self-assessment book is designed to help students tackle both the new UMAP assessment and more traditional styles of examination. Questions covering all common paediatric presentations are included in SBA (single best answer) and EMQ (extended matching question) formats with relevant, concisely explained answers.
