THE 4000 WORDS ESSENTIAL FOR THE GRE

Columbia University Press

The verbal section of the GRE is essentially a vocabulary test. With a few exceptions, if you know the word, you will probably be able to answer the question correctly. Thus, it is crucial that you improve your vocabulary. Even if you have a strong vocabulary, you will still encounter unfamiliar words on the GRE. Many students write off questions, which contain words, they don't recognize. This is a mistake. This book introduces numerous techniques that decode unfamiliar words and prod your memory of words you only half-remember. With these techniques, you will often be able to squeeze out enough meaning from an unfamiliar word to answer a question correctly. Nevertheless, don't rely on just these techniques—you must study word lists. Obviously, you cannot attempt to memorize the dictionary, and you don't need to. The GRE tests a surprisingly limited number of words, and this book has 4000 prime candidates. Granted, memorizing a list of words is rather dry, but it is probably the most effective way of improving your performance on the verbal section. All the words you need for success on the GRE! Features: * 4000 Words Defined * Word Analysis section * 200 Prefixes, Roots, and Suffixes * Concise, practical definitions

Horror is one of the most enduring and controversial of all cinematic genres. Horror films range from the subtle and the poetic to the graphic and the gory but what links them all is their ability to frighten, disturb, shock, provoke, delight, irritate, amuse, and bemuse audiences. Horror's capacity to serve as an outlet to capture the changing patterns of our fears and anxieties has ensured not only its notoriety but also its long-term survival and its international popularity. Above all, however, it is the audience's continual desire to experience new frights and evermore-horrifying sights that continue to make films like *The Exorcist*, *A Nightmare on Elm Street*, *Halloween*, *Night of the Living Dead*, *The Texas Chainsaw Massacre*, *Psycho*, *Ringu*, and *The Shining* captivate viewers. The *A to Z of Horror Cinema* traces the development of horror cinema from the beginning of the 20th century to the present day. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries. Entries cover all the major movie

villains, including *Frankenstein* and his monster, the vampire, the werewolf, the mummy, the zombie, the ghost, and the serial killer; the film directors, producers, writers, actors, cinematographers, make-up artists, special effects technicians, and composers who have helped to shape horror history; significant production companies and the major films that have come to stand as milestones in the development of the horror genre; and the different national traditions in horror cinema as well as horror's most popular themes, formats, conventions, and cycles.

CINEMA STUDIES: THE KEY CONCEPTS

The *Historical Dictionary of Scandinavian Cinema* covers the history of the Nordic countries through a chronology, introductory essays on each country, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on major persons and films, pan-Scandinavian entries on film genres, themes, and subjects such as animation, ethnicity, migration and censorship. This book is an excellent access point for students, researchers, and anyone wanting to know more about Scandinavian cinema.

The *Historical Dictionary of Japanese Cinema* is an introduction to and overview of the long history of Japanese cinema. It aims to provide an entry point for those with little or no familiarity with the subject, while it is organized so that scholars in the field will also be able to use it to find specific information. This is done through a detailed chronology, an introductory essay, and appendixes of films, film studios, directors, and performers. The cross-referenced dictionary entries cover key films, genres, studios, directors, performers, and other individuals. This book is an excellent access point for students, researchers, and anyone wanting to know more about Japanese cinema.

Key theoretical approaches around narrative, genre, representation, spectatorship and authorship are introduced in Part II, before we consider specific national cinemas from around the world in parts III and IV. Documentary films constitute a major part of film history. Cinema's origins lie, arguably, more in non-fiction than fiction, and documentary represents the other - often submerged and barely visible - 'half' of cinema history. Historically, documentary cinema has always been an important point of reference for fiction cinema, and the two have often overlapped. Over the last two decades, documentary cinema has enjoyed a revival in critical and commercial success. *100 Documentary Films* is the first book to offer concise and authoritative individual critical commentaries on some of the key documentary films - from the Lumière brothers and the beginnings of cinema through to recent films such as *Bowling for Columbine* and *When the Levees Broke* - and is global in perspective. Many different types of documentary are discussed, as well as films by major documentary directors, including Robert Flaherty, Humphrey Jennings, Jean Rouch, Dziga Vertov, Errol Morris, Nick Broomfield and Michael Moore. Each entry provides concise critical analysis, while frequent cross reference to other films featured helps to place films in their historical and aesthetic contexts. Barry Keith Grant is Professor of Film Studies and Popular Culture at Brock University, Ontario, Canada. He is the author of *Film Genre: From Iconography to Ideology* (2007), *Voyages of Discovery: The Cinema of Frederick Wiseman* (1992) and co-author, with Steve Blandford and Jim Hillier, of *The Film Studies Dictionary* (2001). Jim Hillier is Visiting Lecturer in Film at the University of Reading. He is the author of *The New Hollywood* (1993), the co-author of *The Film Studies Dictionary* (2001) and, with Alan Lovell, of *Studies in Documentary* (1972). His edited books include *American Independent Cinema* (2001) and two volumes of the English translation of the selected *Cahiers du cinema* (1985, 1986).

Later chapters on film industries and on film consumption - where and how we watch movies - assess the discipline's recent geographical 'turn'. The book references many film cultures, including Hollywood, Bollywood and contemporary Hong Kong. Case studies cover such topics as sound in *The Great Gatsby* and narrative in *Inception*. The superhero movie is studied; so too is Jennifer Lawrence. Beginning film studies is also interactive, with readers enabled throughout to reflect critically upon the field.
