45 College Recommendation Letters That Made a Difference When they prepare for college, few candidates take the time to acquire the caliber of recommendation letters they will need to distinguish themselves in a highly competitive applicant pool.

This book, which was written by an Ivy League admissions expert, offers detailed advice to write (and get) persuasive letters that highlight the personal, academic and professional strengths the committee expects to see. It also includes 45 successful recommendation letters for students who have distinguished themselves as scholars, leaders, volunteers, athletes, and performers. Finally, there are also persuasive letters that explain extenuating circumstances in a candidate's history (such as disappointing grades and a low SAT score). At top colleges, where the competition is fierce, the quality and depth of a candidate's recommendation letters can make the difference between acceptance and rejection. Whether you are an applicant who needs a persuasive letter of recommendation, or someone who

has been asked to write one, this exceptional book is mandatory reading. Circular of Information with Reference Primarily to the Undergraduate Division at Berkeley Report of the State School Commissioner of Georgia to the General Assembly Be the Change Provides articles and essays to help teenagers thoughtfully decide about higher education, including picking a school, financial issues, and college admissions.

This alternative college guide from a former Dartmouth assistant admissions director-turned-consultant gives non-straight-A students advice on the many options available to them and tips on how to identify, gain admittance to, and pay for the schools that will allow them to flourish. Less-than-perfect grades? No problem! Contrary to popular opinion, you don't need to have a 4.0 GPA or a perfect jump shot to get into a good college. This insider's guide reveals easy tweaks that will pay off big-time in showing admissions officers that you as a whole—not just your SAT scores—are a perfect fit for their incoming class. With stellar advice on getting into schools that will allow you to thrive, this handbook reveals how to: - Find great colleges that are a good match for your strengths (and will overlook less-relevant weaknesses) - Painlessly beef up your application - Tailor extracurriculars to showcase your uniqueness - Make sure your recommendation letters emphasize the right qualities - Write original essays that reveal traits beyond your transcript - Make an impression on admissions officers and college interviewers -

Create an early-admissions strategy to increase your likelihood of acceptance - Help your chances if you're deferred - Get into brand-name schools through the side door - Communicate about learning disabilities or special circumstances - Get scholarship money based on attributes other than grades - Customize your financial aid strategy BONUS: Includes an appendix of 130+ selective colleges to consider!

Who Gets In and Why Princeton University Press

The Retirement Series documents Jefferson's written legacy between his return to private life on 4 March 1809 and his death on 4 July 1826. During this period Jefferson founded the University of Virginia and sold his extraordinary library to the nation, but his greatest legacy from these years is the astonishing depth and breadth of his correspondence with statesmen, inventors, scientists, philosophers, and ordinary citizens on topics spanning virtually every field of human endeavor.--From publisher description.

[Nursing Programs - 2010](#) Simon and Schuster

The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job

that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site *The Professor is In*, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right *The Professor Is In* addresses all of these issues, and many more.

A Guide to Academia is a handbook for all those individuals thinking seriously about going to graduate school. Written by an

author with extensive experience navigating the academic world, the book explains all the steps and potential bumps in the road that a student might encounter as they take the plunge into academia. Each chapter begins with a section called the "hard truth," which will help students determine if they are on the right path. Starting with an undergraduate student looking for a graduate school, the reader is taken on a journey up the academic ladder through graduate studies, a postdoctoral fellowship and an assistant professorship. Each chapter gives advice on not only how to survive the current stage but how to get to the next stage quickly. Enhanced with material from the author's own job applications and interview presentations, *A Guide to Academia* provides concrete examples of the tools needed for a successful career in academia.

Now a USA Today and Publishers Weekly bestseller! How do you REALLY get accepted to Harvard, Yale, and the Ivy League? Told from the fresh and personal perspective of 26-year-old Crimson Education CEO and Harvard, Stanford, and Oxford graduate Jamie Beaton, *Accepted!* is an honest and practical guide on beating the odds and getting into Ivy League and other elite schools – the smart way. Beaton takes you behind the doors of the world's top college admissions offices, revealing the highly strategic selection processes applied by institutions whose reputations depend on the number of students they admit, or more pointedly, the tens of thousands that they don't. In *Accepted!*, Beaton delivers the ultimate insider "how to" and disrupts clichéd admissions advice with savvy strategies like: Moneyballing the university rankings and increasing your chances of admission Class spamming your way to academic supremacy and acceptance Playing the early application dating game and understanding how institutions are using it to their reputational advantage Packed with real-life examples from the thousands of students Beaton has helped land a spot at Harvard, Stanford, and other esteemed universities, *Accepted!* is a never-before assembled culmination of secrets, insights, and application strategies guaranteed to maximize your chances of "getting in" to the school of your choice. From ambitious students and their

supportive parents to academic advisors and admissions professionals, *Accepted!* is the must-read guide to demystifying the often-convoluted and increasingly competitive world of elite college admissions.

From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a “good college.” Hint: it’s not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more complicated truth, showing that “who gets in” is frequently more about the college’s agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed

number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about “getting in” and what higher education has become, *Who Gets In and Why* not only provides an unusually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests.

Report of the State School Commissioner of Georgia to the General Assembly National Geographic Books

Be the Change tells the remarkable story of an innovative public high school launched by dedicated teachers in East Palo Alto, California, one of a growing number of low-income communities starved of the resources needed to serve its students and schools. Chronicling a rags-to-riches story of how two very different communities came together to change the historical trajectory of educational failure that had robbed so many students of their futures, *Be the Change* demonstrates how to plant the seeds of new possibilities in its place. The school’s unique design, modeled after successful small schools in New York City, offers authentic and engaging instruction in a personalized setting that has allowed students who start off far behind to graduate and go on to college in record numbers. Each chapter examines one of the critical elements the teachers found essential to enable student success: the creation of an academic culture, the development of high standards with high supports, and the process of learning to teach so that students can learn. “A powerful and compelling tale about how educators, parents,

and representatives of one of America's most powerful universities came together to create a school that is now a beacon of pride and hope. Their struggle to overcome the obstacles they encountered along the way will inspire others who seek to find ways to use education as a means to break the cycle of poverty and to expand opportunity and justice.” —Pedro A. Noguera, distinguished professor of education, Graduate School of Education and Information Sciences, UCLA “This is the story of a little school that could. Could get students to college and beyond, that is. It’s filled with evidence, quotes, and anecdotes, but more importantly it demonstrates that will and skill, aligned with vision and values, results in learning environments in which students thrive. While acknowledging the challenges, trials, and tribulations of creating and leading an urban high school, the authors share their success in a passionate and compelling way, inviting others to learn alongside them as they build successful futures for their students.” —Douglas Fisher, professor of educational leadership, San Diego State University “With demanding academics, loving support, and genuine affirmation, the staff, parents, community members, and other supporters of EPAA, as well as Stanford faculty and staff, present an encouraging picture of the kind of high school all young people deserve. This kind of success is not easy, but in describing how it can be done, Linda Darling-Hammond and her co-authors have provided a stirring example for all of those interested in equity and hope for our public schools.” —Sonia Nieto, professor emerita, Language, Literacy, and Culture, College of Education, University of Massachusetts, Amherst

Students with few resources rarely apply to top colleges. Even when they have the academic and extracurricular merits to be admitted to institutions like Harvard, Yale and Princeton, these students usually opt for less selective universities. Many ignore that top colleges are actively seeking outstanding candidates regardless of their economic background. What's more, a great number of colleges offers generous financial aid to make sure every student can afford to attend. This book is the definitive resource to help high-achieving, low-income students access the best possible college. The author draws from her extensive experience in education to provide advice on important aspects of the path to college such as pursuing a strong high school curriculum, preparing for standardized exams, complementing learning at school, developing leadership, and finding expert help and role models—all through affordable strategies. In the book, the author also guides students through the college application and selection processes, as well as the steps to obtain enough financial aid. From the very first page, the author sheds light on

her own journey to college through deeply personal vignettes, demonstrating by example that students with few resources can reach and succeed at the top universities in the United States.
