The purpose of FIRST AID FOR THE MATCH is to help medical students effectively and efficiently navigate the often complex residency application process. It is designed to help students make the most of their limited time, money, and

energy. In the spirit of FIRST AID FOR THE USMLE STEP 1, this book is a student-to-student guide that draws on the advice and experiences of medical students who have successfully gone through the Match and are now training in the programs of their choice. **First Aid Cases for the USMLE Step 1, Fourth Edition** McGraw Hill Professional. There are two things you can always count on in medical

school: endless studying and exams. The USMLE Step 1, in particular, is one of the most stressful and difficult exams you will take in your medical school career. Your performance on this exam will essentially set the tone for your success, or failure, in the residency match process. The USMLE is a three-step programme. The three steps of USMLE 2019 are Step1, Step 2-

Clinical Knowledge (CK) and Clinical Science (CS) and Step 3. The initial steps, Steps 1 and 2, are taken when the student is in medical school and step 3 is taken after graduation. Aspirants have to apply based on their location. This paperback aims to help you recover all your knowledge about Pharmacology before taking a real test and make your journey towards

passing your exam.
