Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in

the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings - all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections - introduction, development, exploration and extension - which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. English Grammar: presents the basic concepts and key terms of English grammar in a clear and systematic way encourages readers to evaluate critically the knowledge they already have, particularly in areas that are problematic for them as learners, and to build up and trust their own intuitions about the language uses a range of international authentic texts to illustrate concepts and theories, from sources such as newspapers, novels and academic texts discussing English grammar is accompanied by a companion website featuring audio files of authentic spoken English, and further activities.

Written by an experienced teacher and researcher, this accessible textbook is an essential resource for all students of English language and linguistics. *A Comprehensive Visual Reference* Lulu.com Business Result Second Edition offers business professionals more communication and language practice than ever before, helping students develop relevant communication skills they can use immediately in the workplace.

Best English Grammar Book Learn English Grammar in Two Week (Revised Edition)
Adjective of English Grammar 2 Minute Grammar class This book was begun as a result of the author's experience in teaching some classes in English in the night preparatory department of the Carnegie Technical Schools of Pittsburg. The pupils in those classes were all adults and needed only such a course as would enable them to express themselves in clear and correct English. English Grammar, with them, was not to be preliminary to the grammar of another language, and composition was not to be

studied beyond the everyday needs of the practical man. Best English Grammar Book Learn English Grammar in Two Week (Revised Edition) Adjective of English Grammar 2 Minute Grammar class Great difficulty was experienced because of the inability to secure a text that was suited to the needs of the class. A book was needed that would be simple, direct, and dignified; that would cover grammar, and the essential principles of sentence structure, choice of words, and general composition; that would deal particularly with the sources of frequent error, and would omit the non-essential points; and, finally that would contain an abundance of exercises and practical work. Best English Grammar Book Learn English Grammar in Two Week (Revised Edition) Adjective of English Grammar 2 Minute Grammar class It is with these ends in view that this book has been prepared. The parts devoted to grammar have followed a plan varying widely from that of most grammars, and an effort has been made to secure a more sensible and effective treatment. The

parts devoted to composition contain brief expositions of only the essential principles of ordinary composition. Especial stress has been laid upon letter-writing since this is believed to be one of the most practical fields for actual composition work. Because such a style seemed best suited to the general scheme and purpose of the book, the method of treatment has at times been intentionally rather formal. Technical English: Vocabulary and Grammar will help you increase your knowledge of technical English and develop your vocabulary and grammar. By working through the materials you will become more accurate and more appropriate in a range of key technical contexts. You can use it on your own (Self-Access) or in

class (as part of a course). **English Grammar** David Nicholls

An Easy-to-Use Guide with Clear Rules, Real-World Examples, and Reproducible Quizzes
EduGorilla

The world of education is full of grammar books. For most teachers and students of foreign languages, grammar books are generally dry and dusty and only to be consulted on a reference basis. However, *Who Said English Grammar Was Boring* is not your conventional grammar book. Its core dynamic is based upon a conversation between the author and an English language instructor colleague. Apart from being an exposition of English grammar, the book also incorporates advice on teaching methodology and practice exercises for students. Apart from focusing on the four key areas of language learning—reading, writing, listening, and speaking—the book introduces another concept in the form of a practicum, which asks the students to take turns in giving a lesson to their classmates on what they

have learned. It is hoped that this book will serve to take the monotony out of grammar learning.

Cambridge IGCSE® Core English as a Second Language Teacher's Book

Cambridge University Press

Over the past few decades, the book series Linguistische Arbeiten [Linguistic Studies], comprising over 500 volumes, has made a significant contribution to the development of linguistic theory both in Germany and internationally. The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses. To this end, we invite submission of high-quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions, discuss new data and advance the development of linguistic theory.
