*THE CELLULITE SOLUTION* is the most comprehensive book on cellulite ever written. Most women with cellulite believe that once this disfigured appearance of the skin develops, they are stuck with it for life. They consider it to be a sign of aging, or perhaps of a deteriorating body. Worse still, many women are told that either cellulite does not exist, or that nothing can be done about it. It needs to be recognized that cellulite is real! excess fat, waste & water (all components of cellulite). The book outlines dietary guidelines, an exercise program (featuring strength training), food supplementation & other helpful techniques. The author, Laura Simms, draws from a wealth of personal experiences that enable her to relate to the drama & feelings other women with cellulite experience, on a level that is unparalleled. In addition, the information has been well researched, the data well-documented, & put into an easy-to-follow format that can be implemented in the privacy of one's own home.

### YOUR CELLULITE SOLUTION

Greenwood Publishing Group

*Body Reshaping through Muscle and Skin Meridian Therapy: An Introduction to 6 Body Types* shows you how your weight and body shape can be a direct result of ill health and explains the structures and functions involved. It explores much more than just what your scale and the fit of your clothes might tell you. It looks at skin, fat, muscles, diaphragm, historical illnesses or injuries, body posture, body clock or circadian rhythm, digestion, blood vessels, nutrition, sympathetic nervous system, parasympathetic nervous system, and enteric nervous system. By examining the above factors, you will learn how they contribute toward changes in body shape (notice no mention of dieting or exercise). Muscle meridian therapy refers to the passive application of treatments to muscles not connected to any major organ. The techniques involved improve all the metabolic balances of the body (pressure, temperature, and balance) as well as your overall health. Therapies can benefit all people, including those with traumas such as digestive system disorders, autonomic nerve system disorders, medication complications, post-childbirth complications, major scarring, posture issues, and pain management. The author provides the traditional Chinese medicine (TCM) tools and techniques needed for practitioner-guided wellness or at-home wellness understanding and maintenance. The book offers a full guide to "body type" evaluation for muscle meridian therapy and presents a "passive" therapy method (like massage or acupuncture) to complement "active" therapies (like physical therapy and exercise). It covers concepts that are highly individualized yet very "whole body" for physical restoration and balance.
