TURNING EVERYDAY ACTIVITIES INTO SOULFUL PRACTICES

Casper ter Kuile, a Harvard Divinity School fellow and cohost of the popular

Harry Potter and the Sacred Text podcast, explores how we can nourish our souls by transforming common, everyday practices—yoga, reading, walking the dog—into sacred rituals that can heal our crisis of social isolation and struggle to find purpose—a message we need more than ever for our spiritual and emotional well-being in the age of COVID-19. “After half a decade of research and hundreds of conversations with people around the country, I am convinced we are in the midst of a paradigm shift. That what used to hold us in community no longer works, and that the spiritual offerings of yesteryear no longer help us thrive.”—Casper ter Kuile What do Soul Cycle, gratitude journals, and tech breaks have in common? For ter Kuile they offer rituals

that create the foundation for our modern spiritual lives. We are in crisis today. Our modern technological society has left too many of us—no matter our ages—feeling isolated and bereft of purpose. Previous frameworks for building community and finding meaning no longer support us. Yet ter Kuile reveals a hopeful new message: we might not be religious, but that doesn't mean we are any less spiritual. Instead, we are in the midst of a paradigm shift in which we seek belonging and meaning in secular practices. Today, we find connection in: CrossFit and SoulCycle, which offer a sense of belonging rooted in accountability and support much like church groups Harry Potter and other beloved books that offer universal lessons Gratitude journals, which have

replaced traditional prayer Tech breaks, which provide mindful moments of calm In The Power of Ritual, ter Kuile invites us to deepen these ordinary practices as intentional rituals that nurture connection and wellbeing. With wisdom and endearing wit, ter Kuile's call for ritual is ultimately a call to heal our loss of connection to ourselves, to others, and to our spiritual identities. The Power of Ritual reminds us that what we already do every day matters—and has the potential to become a powerful experience of reflection, sanctuary, and meaning.

Entrepreneur and journalist Shane Snow (Wired, Fast Company, The New Yorker, and cofounder of Contently) analyzes the lives of people and companies that do incredible things in implausibly short time. How do some startups go from zero to billions in mere months? How did Alexander the Great, YouTube tycoon Michelle Phan, and Tonight Show host Jimmy Fallon climb to the top in less time than it takes most of us to get a promotion? What do high-growth businesses, world-class heart surgeons, and underdog marketers do in common to beat the norm? One way or another, they do it like computer hackers. They employ what psychologists call "lateral

thinking: to rethink convention and break "rules" that aren't rules. These are not shortcuts, which produce often dubious short-term gains, but ethical "smartcuts" that eliminate unnecessary effort and yield sustainable momentum. In Smartcuts, Snow shatters common wisdom about success, revealing how conventions like "paying dues" prevent progress, why kids shouldn't learn times tables, and how, paradoxically, it's easier to build a huge business than a small one. From SpaceX to The Cuban Revolution, from Ferrari to Skrillex, Smartcuts is a narrative adventure that busts old myths about success and shows how innovators and icons do the incredible by working smarter—and how perhaps the rest of us can, too.

Change or Die. What if you were given that choice? If you didn't, your time would end soon—a lot sooner than it had to. Could you change when change matters most? This is the question Alan Deutschman poses in *Change or Die*, which began as a sensational cover story by the same title for *Fast Company*. Deutschman concludes that although we all have the ability to change our behavior, we rarely ever do. From patients suffering from heart disease to repeat offenders in the criminal justice system to companies trapped in the mold of unsuccessful business practices, many of us could prevent ominous outcomes by simply changing our mindset. A powerful book with universal appeal, *Change or Die* deconstructs and

debunks age-old myths about change and empowers us with three critical keys—relate, repeat, and reframe—to help us make important positive changes in our lives. Explaining breakthrough research and progressive ideas from a wide selection of leaders in medicine, science, and business (including Dr. Dean Ornish, Mimi Silbert of the Delancey Street Foundation, Bill Gates, Daniel Boulud, and many others), Deutschman demonstrates how anyone can achieve lasting, revolutionary changes that are positive, attainable, and absolutely vital.
