The politics of inclusion  
is about more than

hate, exclusion, and  
discrimination. It is a  
window into the moral  
character of

contemporary liberal  
democracies. The  
Struggle for Inclusion  
introduces a new  
method to the study of  
public opinion: to  
probe, step by step,

how far non-Muslim majorities are willing to be inclusive, where they draw the line, and why they draw it there and not elsewhere.

Those committed to liberal democratic values and their concerns are the focus, not those advocating exclusion and intolerance.

Notwithstanding the turbulence and violence of the last decade over issues of immigration and of Muslims in the West, the results of this study demonstrate that the largest number of citizens in contemporary liberal democracies are more open to inclusion of Muslims than has been recognized. Not less important, the book reveals limits on inclusion that follow from the friction

between liberal democratic values. This pioneering work thus brings to light both pathways to progress and polarization traps.

This is the second volume in a trilogy in which Stefan Zweig builds a composite picture of the European mind through intellectual portraits selected from among its most representative and influential figures. In 'Hoelderlin, Kleist, and Nietzsche', Zweig concentrates on three giants of German literature to portray the artist and thinker as a figure possessed by a powerful inner vision at odds with the materialism and scientific positivism of his time, in this case, the nineteenth century. Zweig's subjects here

are respectively a lyric poet, a dramatist and writer of novellas, and a philosopher. Each led an unstable life ending in madness and/or suicide and not until the twentieth century did each make their full impact. Whereas the nineteenth-century novel is socially capacious in terms of subject and audience, the three figures treated here are prophets or forerunners of modernist ideas of alienation and exile. Hoelderlin and Kleist consciously opposed the worldly harmoniousness of Goethe's classicism in favor of a visionary inwardness and dramatisation of the subjective psyche. Nietzsche set himself as a destroyer and builder of philosophy

and critic of the degradation of the German spirit through nationalism and militarism. Zweig's choice of subjects reflects a division in his own soul. The image of Goethe recurs here as the ultimate upholder of Zweig's own ideals: scientist and artist, receptive to world culture, supremely rational and prudent. Yet Zweig was aware that Hoelderlin, Kleist, and Nietzsche were more daring explorers of the dangerous and destructive aspects of man that needed to be seen and comprehended in the clarifying light of poetry and philosophy.

### **THE ORIGINS OF LIFE**

Pushkin Press Ltd  
NEW YORK TIMES  
BESTSELLER • NAMED

ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND KIRKUS REVIEWS Hailed as “the indispensable critic” by The New York Review of Books, Harold Bloom—New York Times bestselling writer and Sterling Professor of Humanities at Yale University—has for decades been sharing with readers and students his genius and passion for understanding literature and explaining why it matters. Now he turns at long last to his beloved writers of our national literature in an expansive and mesmerizing book that is one of his most incisive and profoundly personal to date. A product of five years of writing and a lifetime

of reading and scholarship, *The Daemon Knows* may be Bloom’s most masterly book yet. Pairing Walt Whitman with Herman Melville, Ralph Waldo Emerson with Emily Dickinson, Nathaniel Hawthorne with Henry James, Mark Twain with Robert Frost, Wallace Stevens with T. S. Eliot, and William Faulkner with Hart Crane, Bloom places these writers’ works in conversation with one another, exploring their relationship to the “daemon”—the spark of genius or Orphic muse—in their creation and helping us understand their writing with new immediacy and relevance. It is the intensity of their preoccupation with the sublime, Bloom proposes, that

distinguishes these American writers from their European predecessors. As he reflects on a lifetime lived among the works explored in this book, Bloom has himself, in this magnificent achievement, created a work touched by the daemon. Praise for *The Daemon Knows* “Enrapturing . . . radiant . . . intoxicating . . . Harold Bloom, who bestrides our literary world like a willfully idiosyncratic colossus, belongs to the party of rapture.”—Cynthia Ozick, *The New York Times Book Review* “The capstone to a lifetime of thinking, writing and teaching . . . The primary strength of *The Daemon Knows* is the brilliance and penetration of the connections Bloom makes among the

great writers of the past, the shrewd sketching of intellectual feuds or oppositions that he calls agons. . . . Bloom’s books are like a splendid map of literature, a majestic aerial view that clarifies what we cannot see from the ground.”—*The Washington Post* “Audacious . . . The Yale literary scholar has added another remarkable treatise to his voluminous body of work.”—*The Huffington Post* “The sublime *The Daemon Knows* is a veritable feast for the general reader (me) as well as the advanced (I assume) one.”—John Ashbery “Mesmerizing.”—*New York Journal of Books* “Bloom is a formidable critic, an extravagant intellect.”—*Chicago*

Tribune “As always, Bloom conveys the intimate, urgent, compelling sense of why it matters that we read these canonical authors.”—Kirkus Reviews (starred review) “Few people write criticism as nakedly confident as Bloom’s any more.”—The Guardian (U.K.)

The *Struggle with the Daemon* is a brilliant analysis of the European psyche by the great novelist and biographer Stefan Zweig. Zweig studies three giants of German literature and thought: Friedrich Holderlin, Heinrich von Kleist and Friedrich Nietzsche – powerful minds whose ideas were at odds with the scientific

positivism of their age; troubled spirits whose intoxicating passions drove them mad but inspired them to great works. In their struggle with their inner creative force, Zweig reflects the conflict at the heart of the European soul – between science and art, reason and inspiration. Both highly personal and philosophically wide-ranging, this is one of the most fascinating of Zweig’s renowned biographical studies. ## DEMON NIGHT

E P Dutton  
With a rare clarity and  
fearless honesty,  
journalist Daemon  
Fairless tackles the  
horrors and  
compulsions of male  
violence from the  
perspective of  
someone who  
struggles with violent  
impulses himself,  
creating a non-fiction  
masterpiece with the  
narrative power of  
novels such as *Fight  
Club* and *A History of  
Violence*. A man, no  
matter how civilized, is  
still an animal--and  
sometimes a  
dangerous one. Men  
are responsible for the  
lion's share of assault,  
rape, murder and  
warfare. Conventional  
wisdom chalks this up  
to socialization, that  
men are taught to be  
violent. And they are.

But there's more to it.  
Violence is a  
dangerous desire--a set  
of powerful and  
inherent emotions we  
are loath to own up to.  
And so there remains a  
hidden geography to  
male violence--an inner  
ecosystem of rage,  
dominance, blood-lust,  
insecurity and  
bravado--yet to be  
mapped. *Mad Blood  
Stirring* is journalist  
Daemon Fairless's  
riveting first-person  
travelogue through this  
territory as he seeks to  
understand the inner  
lives of violent men  
and, ultimately,  
himself.

In the 16th century,  
European missionaries  
brought a foreign  
religion to China.  
Converts transformed  
this religion into a local

one. Focusing on the still-active Catholic communities of Fuan county in Fujian, this project's implications extend to the fields of religious and social history and early modern history of global intercultural relations.

### **The Case of the Hidden Daemon**

Cambridge University Press

Among the most ancient deities of South Asia, the yaks straddles the boundaries

between popular and textual traditions in both Hinduism and Buddhism and both benevolent and malevolent facets. As a figure of material plenty, the yaks is epitomized as Kubera, god of wealth and king of the yaks. In demonic guise, the yaks is related to a large family of demonic and quasi-demonic beings, such as nagas, gandharvas, raksas and the man-eating pisaacas. Translating and interpreting texts and passages from the Vedic literature, the Hindu epics, the Puranas, Kalidasa's Meghaduta, and the Buddhist Jataka Tales, Sutherland traces the development and transformation of the elusive yaks from an early identification with the impersonal

absolute itself to a progressively more demonic and diminished terrestrial characterization. Her investigation is set within the framework of a larger inquiry into the nature of evil, misfortune, and causation in Indian myth and religion.

**Internal Conflict in  
Nineteenth-Century  
Literature** Rowman &  
Littlefield

Brothers and Sisters,  
This book has been written in full faith and is designed to strengthen, encourage, motivate, and bring together the family of Christ. I believe that it is important to pray before I write anything. So everything that is wrote in this book I have prayed about so that God's will be done. For it is God's wisdom you should here, not

mine. The book focuses on living a life that is truly pleasing in the eyes of God. It brings a message that breathes life. It is like a lighthouse stretching its beam of light afar showing the true and good pathway that leads to all good things. Travis Dwyer is a writer and production lead making powerful liquid minerals and vitamins for a great company called the Eniva Corp. Travis believes that Eniva is a great Christian company with a friendly work atmosphere. He also is a member of the Church of St. Paul in Ham Lake where he enjoys spending time. He says that he feels the Spirit flowing strongly there and believes that that is important. Travis also

is married to a beautiful woman named Stacy. They have their first baby on the way and are excited to become parents. Travis lives in a quiet town outside of the rush of the city. He enjoys the beauty of nature and loves the peacefulness that comes along with it. One thing Travis firmly believes is that if God is number one in your life, everything else will be so much better.

### **The Development of the Yaksas in Hinduism and Buddhism**

Stefan Zweig's literary portraits of three tormented giants of German literature, Friedrich Hölderlin, Heinrich von Kleist, and Friedrich Nietzsche, contrasts them with Goethe who was anchored in place by

profession, home and family. For Zweig, "everyone whose nature excels the commonplace, everyone whose impulses are creative, wrestles inevitably with his daemon" which Zweig describes as "the incorporation of that tormenting leaven which impels our being ... towards danger, immoderation, ecstasy, renunciation and even self-destruction." In these essays, Zweig depicts the tragic and sublime lifelong struggle by three great creative minds with their respective daemons.

### **THE INNER LIVES OF VIOLENT MEN**

University of Chicago Press  
 Edited by Morag Styles and written by an international team of

acknowledged experts, this series provides jargon-free, critical discussion and a comprehensive guide to literary and popular texts for children. Each book introduces the reader to a major genre of children's literature, covering the key authors, major works and contexts in which those texts are published, read and studied. This book provides an illuminating guide to literature that creates alternative worlds for young readers. Focusing on the work of Ursula Le Guin, Terry Pratchett and Philip Pullman, the book considers both the genre of 'alternative worlds' and the distinctiveness of these authors' texts, including Philip Pullman's *The Amber*

*Spyglass*.

Literature about Nietzsche is vast, but it does not make him any more accessible. This little book does not delve too deep into his philosophy, but into the mind and thought process of the person who engaged into such amazing philosophizing. The result has been the most accessible book about the most famous and at the same time the most obscure modern philosopher. Students of Nietzsche cannot afford to ignore this book.
