India, That Is Bharat, the first book of a comprehensive trilogy, explores the influence of European 'colonial consciousness' (or 'coloniality'), in particular its religious and racial roots, on Bharat as the

successor state to the Indic civilisation and the origins of the Indian Constitution. It lays the foundation for its sequels by covering the period between the Age of Discovery, marked by Christopher Columbus' expedition in 1492, and the reshaping of Bharat through a British-made constitution-the Government of India Act of 1919. This includes international developments leading to the founding of the League of Nations by Western powers that tangibly impacted this journey. Further, this work also traces the origins of seemingly universal constructs such as 'toleration', 'secularism' and 'humanism' to Christian political theology. Their subsequent role in subverting the

indigenous Indic consciousness through a secularised and universalised Reformation, that is, constitutionalism, is examined. It also puts forth the concept of Middle Eastern coloniality, which preceded its European variant and allies with it in the context of Bharat to advance their shared antipathy towards the Indic worldview. In order to liberate Bharat's distinctive indigeneity, 'decoloniality' is presented as a civilisational imperative in the spheres of nature, religion, culture, history, education, language and, crucially, in the realm of constitutionalism.

Sustaining a Hindu universe at an everyday life level requires an extraordinary range of religious specialists and ritual paraphernalia. At the level of practice, devotional Hinduism is an embodied religion and grounded in a materiality, that makes the presence of specific physical objects (which when used in worship also carry immense ritual and symbolic load) an indispensable part of its religious practices. Traditionally, both services and objects required for worship were provided and produced by occupational communities. The almost sacred connection between caste groups and occupation/profession has been clearly severed in many diasporic locations, but importantly in India itself. As such, skills and expertise required for producing an array of physical objects in order to support Hindu worship have been taken over by clusters of individuals with no traditional, historical connection with caste-related knowledge. Both the transference and disconnect just noted have been crucial for the ultimate commodification of objects used in the act of Hindu worship, and the emergence of an analogous commercial industry as a result. These developments condense highly complex processes that need careful conceptual explication, a task that is exciting and carries enormous potential for theoretical reflections in key fields of study. Using the lens of 'visuality' and 'materiality,' Sinha offers insights into the everyday material religious lives of Hindus as they strive to sustain theistic, devotional Hinduism in diasporic locations--particularly Singapore, Malaysia, and Tamilnadu--where religious objects have become commodified.

A provocative examination of how new realities of religion and migration are subtly challenging the very definition of what it means to be an American. Sociology professor Levitt argues that immigrants no longer trade one membership card for another, but stay close to their home countries, indelibly altering American religion and values with experiences and beliefs imported from Asia, Latin America and Africa. The book is a pointed response to Samuel Huntington's famous clash of civilisations thesis and looks at global religions' organisation for the first time.

How did a region, so long notorious for mere quantity, transform itself into one of the world's most exciting vineyards? And what does it take to make a great wine – even on a shoestring? In Virgile's Vineyard, Patrick Moon explores the world of Languedoc wine. Among the cast of characters that Patrick meets during his year of discovery is Virgile, a young local wine-maker who offers to initiate him into the mysteries of each season's work in the fields and in the cellar. Virgile is passionately committed to perfection, even though his limited means afford him just a handful of hectares and the smallest cellar imaginable. At the other extreme is Manu, Patrick's dipsomaniac neighbour, a diehard traditionalist producing a private wine-lake of unspeakable rouge. With Manu as his self-appointed guide, Patrick embarks on a quest for the revolution's leading lights – a succession of lively encounters with growers as diverse as the wines themselves – interwoven with entertaining digressions into the history of the region's wine-making. Meanwhile the author struggles to deal with his long-neglected French home – an unfamiliar and unpredictable world where the brambles have grown as tall as the olive trees, the water supply has just dried up and there is a ferocious animal under the roof tiles... First published in 2003, Virgile's Vineyard is now back by popular demand as a new and extended edition. As rich in humour as it is full of fascinating information, this book is a great read for any Francophile or wine-lover.

The Hindu pantheon is rich in images of the divine feminine—deities representing a wide range of symbolic, social, and meditative meanings. David Kinsley's new book documents a highly unusual

group of ten Hindu tantric goddesses, the Mahavidyas, many of whom are strongly associated with sexuality and violence. What is one to make of a goddess who cuts her own head off, or one who prefers sex with a corpse? The Mahavidyas embody habits, attributes, or identities usually considered repulsive or socially subversive and can be viewed as "antimodels" for women. Yet it is within the context of tantric worship that devotees seek to identify themselves with these forbidding goddesses. The Mahavidyas seem to function as "awakeners"—symbols which help to project one's consciousness beyond the socially acceptable or predictable. Drawing on a broad range of Sanskrit and vernacular texts as well as extensive research in India, including written and oral interpretations of contemporary Hindu practitioners, Kinsley describes the unusual qualities of each of the Mahavidyas and traces the parallels between their underlying themes. Especially valuable are the many rare and fascinating images he presents—each important to grasping the significance of the goddesses. Written in an accessible, engaging style, Kinsley's book provides a comprehensive understanding of the Mahavidyas and is also an overview of Hindu tantric practice.

In 2014, when 15,000 travelers were stranded at airport in Dallas, Texas, my wife and I helped a young Bengali woman who was visiting the US for the first time. We saw to it that she reached her destination safely. We remained friends and grew close, staying in touch online. In 2015, she asked that we come to India to be in her wedding party as her "American parents." It was an incredible way to experience India for the first time! At the request of a few Indian friends from an online forum, I wrote a short travelogue about that first experience in India. More than 100,000 Indians read what I wrote! Some were young people who became close online friends. Some wrote me about their personal issues. They began calling me "Baapu", "Baba", "Angel Paa", "Touji", "Papa Rick", and "Dad." I called them the sons and daughters of my heart. In 2017, we returned to India and stayed with the families of some of them in five different cities. This book tells that story.

Reexamining the story of holidays in the United States, Leigh Schmidt shows that commercial appropriations of these occasions were actually as religious in form as they were secular. The new rituals of America's holiday bazaar offered a luxuriant merger of the holy and the profane - a heady blend of fashion and faith, merchandising and gift giving, profits and sentiments. In this richly illustrated book that captures both the blessings and ballyhoo of American holiday observances from the mid-eighteenth century through the twentieth, the author offers a reassessment of the "consumer rites" that various social critics have long decried for their spiritual emptiness and banal sentimentality.
