in 1981, this book has long been recognized as the 'bible of Scalextric', providing a complete catalogue of the cars and equipment produced. Now, for this seventh edition, the book has undergone a transformation, with a complete redesign and masses of new information about cars, sets and accessories produced around the world. As well as extra detail about earlier periods, there

is full coverage of all the new Scalextric products launched in the four years that have elapsed since the previous edition. Now containing nearly 1,000 photographs, this book has become an extraordinarily detailed summary of everything in the world of Scalextric, written by an author who has been captivated by the subject for nearly 50 years. *Power, Beauty and Soul* Images

The Ford Escort RS Cosworth and RS1600i by Unique Motor Books. Motor Movies - the Posters Haynes Publications When world rallying introduced a new formula for "World Rally Cars", Ford seized the opportunity. Malcolm Wilson's M-Sport organization was contracted to do the job, completed the design in less than a year, and spent the next 12 years campaigning

this turbocharged, four-wheel-drive car all round the world. Working from state-of-the-art facilities, M-Sport built 97 Focus WRCs, all of which proved to be worthy of World level action when they won 44 World Championship events. Stellar drivers like Colin McRae, Carlos Sainz, Markko Märtin, Marcus Grönholm and Mikko Hirvonen all added to the mystique of an ultra-professional

organization, along with substantial support and sponsorship from the likes of Martini, BP, and the state of Abu Dhabi. By building its in-house technical expertise, M-Sport not only engineered and developed the entire car on behalf of Ford, but gradually took over development of the 300bhp, 2.0-litre, turbocharged engine, and led the design of the complex four-wheel-drive transmissions provided by

Xtrac. M-Sport's reputation exploded to the point that when regulations changed, the company immediately produced a new-generation Fiesta WRC, and kept the winning days rolling. This text gives practical advice on how to power tune a high-performance version of Ford's 4-cylinder 1600, 1800 and 200 cc Pinto engine which has been used in Ford's most popular cars

(Escort, Capri, Cortina, Sierra) over many years. Whether the reader wants a fast road car or to go racing, Des Hammill explains, without using technical jargon, how to build a reliable high power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. The text also covers Cosworth versions of Pinto engines and fitting

THE WORKS ESCORTS

Veloce Publishing
From the late 19th century the progress of the movies has paralleled that of the motorcar. Now, for the first time, these developments are chronicled through the medium of the Movie Poster. The book celebrates the progression from the simple and crude, through the functional, the ambitious, the barking mad, right up to today's high-tech,

computer generated, often soulless examples of both cinema and automobile. By charting the poster art of the movies chronologically, the book takes you on a journey through the 20th Century in black and white, sepia, hand coloring, stone-litho, and glorious Technicolor. The book shows the obsessively accurate, the artist's impression, the photographic and the wildly imaginative

depictions of the automobile. The development of product placement in marketing is well-illustrated. Why did the Mustang appear in so little publicity for Bullitt? Where was the Mini in most of the world's publicity for The Italian Job? Why wasn't the Alfa Romeo Dueto prominent in the advertising of The Graduate? The book doesn't provide

intricate plot lines or vast cast lists; there are many reference works, both in books and on-line that supply this detail. Instead it shows how different countries promoted the same movie and give a brief guide to buying posters of movies safely. Primarily this is a book to wallow in, beautifully photographed artwork is guaranteed to bring memories favorite cars in movies and

gives a fascinating insight into the evolution of cinema, marketing and the automobile. With 250 color photos, this book is a fascinating feast in all respects. With 250 pictures of rare and original posters and a star rating system for rarity, this is a beautiful book to browse and a valuable investment guide. *Rallye Sport Fords Crescent Books Ford's Mk1 and Mk2*

Escorts (1967 to 1980) are collectable classics, and this guide aims to aid potential buyers or restorers through the purchasing process. A one-stop package offering great advice, this is the ideal companion for anyone sampling and assessing an Escort, for sale privately, at a dealer, or an online auction. With at-a-glance tips, illustrated inspection guidance, valuation

data, specifications, modifications you should avoid, real-world cost considerations – and even checks for spotting a fake.

Escorts Mk1 and Mk2 were built in huge numbers around the world, in Britain, France, Germany, Spain, Australia, New Zealand and South Africa. During the life of the models, no less than 130 different

variants were produced, ranging from the 2-door base model saloon through four-doors, vans and estates, campers and plush Ghia models to the highly desirable sporting versions like the Twin-Cam and RS models. In addition there were special editions by companies such as Allard, Crayford, Broadspeed, Lawrencetune, Uren and Willment. For every variant, The Complete Catalogue of
