Pattern Recognition by Self-Organizing Neural Networks presents the most recent advances in an area of research that is becoming vitally important in the fields of cognitive science, neuroscience, artificial intelligence, and neural networks in general. The 19 articles take up developments in competitive learning and computational maps, adaptive resonance theory, and specialized architectures and biological connections. Introductory survey articles provide a framework for understanding the many models involved in various approaches to studying neural networks. These are followed in Part 2 by articles that form the foundation for models of competitive learning and computational mapping, and recent articles by Kohonen, applying them to problems in speech recognition, and by Hecht-Nielsen, applying them to problems in designing adaptive lookup tables. Articles in Part 3 focus on adaptive resonance theory (ART) networks, self-organizing pattern recognition systems whose top-down template feedback signals guarantee their stable learning in response to arbitrary sequences of input patterns. In Part 4, articles describe embedding ART modules into larger architectures and provide experimental evidence from neurophysiology, event-related potentials, and psychology that support the prediction that ART mechanisms exist in the brain. *The SAGE Handbook of Hospitality Management* Human Kinetics "Hosts of all kinds, this is a must-read!" --Chris Anderson, owner and curator of TED From the host of the New York Times podcast Together Apart, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone

create meaningful, memorable experiences, large and small, for work and for play. Drawing on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. *The Art of Gathering* will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them.

The essential argument of this new work by Andrew Robinson is that we live, move and have our being within a sea of signs, but that we are largely unaware of this for most of the time. When the structure of these signs is analysed it turns out to rest on three recurring 'elemental grounds', which the author calls Quality, Otherness and Mediation. The kaleidoscopic, ramifying patterns of Quality, Otherness and Mediation which underpin representations and interpretations at every level and dimension of the processes of signification offer a model of the dynamic mutual indwelling of the Father, Son and Spirit within the eternal life of the Trinity. This 'semiotic model' of the Trinity would be of rather limited interest in itself unless it can also illuminate other areas of Christian theology. Robinson suggests that the model leads to a helpful way of understanding how the entirely human person Jesus of Nazareth may be understood to have been the full and perfect embodiment (representation) of the quality of God's being. This in turn helps us to understand how the processes of representation and interpretation enable us to be drawn into the very life of God. This has practical implications for the church and for the individual lives of Christian believers. It also offers, via a re-articulation of the neglected concept of vestiges of the Trinity in creation, a form of 'spirituality of the everyday'.

What do you get when you cross a journalist and a banker? A brewery, of course. "A great city should have great beer. New York finally has, thanks to Brooklyn. Steve Hindy and Tom Potter provided it. Beer School explains how they did it: their mistakes as well as their triumphs. Steve writes with a journalist's skepticism-as though he has forgotten that he is reporting on himself. Tom is even less forgiving-he's a banker, after all. The inside story reads at times like a cautionary tale, but it is an account of a great and welcome achievement." —Michael Jackson, *The Beer Hunter*(r) "An accessible and insightful case study with terrific insight for aspiring entrepreneurs. And if that's not enough, it is all about beer!" —Professor Murray Low, Executive Director, Lang Center for Entrepreneurship, Columbia Business School "Great lessons on what every first-time entrepreneur will experience. Being down the block from the Brooklyn Brewery, I had firsthand witness to their positive impact on our community. I give Steve and Tom's book an A++!" —Norm Brodsky, Senior Contributing Editor, Inc. magazine "Beer School is a useful and entertaining book. In essence, this is the story of starting a beer business from scratch in New York City. The product is one readers can relate to, and the market is as tough as they get. What a fun challenge! The book can help not only those entrepreneurs who are starting a business but also those trying to grow one once it is established. Steve and Tom write with enthusiasm and insight about building their business. It is clear that they learned a lot along the way. Readers can learn from these lessons too." —Michael Preston, Adjunct Professor, Lang Center for Entrepreneurship, Columbia Business School, and coauthor, *The Road to Success: How to Manage Growth* "Although we (thankfully!) never had to deal with the Mob, being held up at gunpoint, or having our beer and equipment ripped off, we definitely identified with the challenges faced in those early days of cobbling a brewery together. The revealing story Steve and Tom tell about two partners entering a business out of passion, in an industry they knew little about, being seriously undercapitalized, with an overly naive business plan, and their ultimate success, is an inspiring tale." —Ken Grossman, founder, Sierra Nevada Brewing Co.

The emergence of a vibrant imperial culture in British society from the 1890s both fascinated and appalled contemporaries. It has also consistently provoked controversy among historians. This book offers a ground-breaking perspective on how imperial culture was disseminated. It identifies the important synergies that grew between a new civic culture and the wider imperial project. Beaven shows that the ebb and flow of imperial enthusiasm was shaped through a fusion of local patriotism and a broader imperial identity. Imperial culture was neither generic nor unimportant but was instead multi-layered and recast to capture the concerns of a locality. The book draws on a rich seam of primary sources from three representative English cities. These case studies are considered against an extensive analysis of seminal and current historiography. This renders the book invaluable to those interested in the fields of imperialism, social and cultural history, popular culture, historical geography and urban history.

Drawing on never-before-seen materials, author John E. Kinville unfolds the complex legacy of Women's Klan no.14 aka the Grey Eagles of Chippewa Falls. In the xenophobic atmosphere of the 1920s and 1930s, Ku Klux Klan activity spiked in Wisconsin and gave rise to Women's Klan no. 14, also known as the Grey Eagles of Chippewa Falls. Against a national backdrop that saw the male and female Klan hurl its collective might into influencing presidential elections and federal legislation, quotidian matters often stole the attention of the Grey Eagles. For every minute spent upholding Prohibition and blocking Catholic Al Smith's path to the White House, they spent two raising funds for their order and helping neighbors in need. What unfolds in Kinville's work is the complex legacy of these Chippewa Falls women who struggled to balance their noble intentions against the malicious ideology of the Klan.
