On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture.

Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in

consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing.

Obsessed with tales of gallant knights, Don Quixote, a middle-aged man from La Mancha, decides to take his own adventure. Donning rusty armor and riding upon an old horse, he sets off to change the world and save his invented damsel in distress in the name of chivalry. Unfortunately, Don Quixote and his squire Sancho Panza are met with a host of ill-intentioned characters, and the pair often find themselves the butt of a joke rather than chivalrous saviors. This renowned tragic comedy, written by Miguel de Cervantes Saavedra, was first published in Spain in two parts in 1605 and 1615. This is an unabridged version of John

Ormsby's English translation from 1885.

NEW YORK TIMES BESTSELLER • “Magisterial . . . [A] rich portrait of ancient Egypt’s complex evolution over the course of three millenniums.”—Los Angeles Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Publishers Weekly In this landmark volume, one of the world’s most renowned Egyptologists tells the epic story of this great civilization, from its birth as the first nation-state to its absorption into the Roman Empire. Drawing upon forty years of archaeological research, award-winning scholar Toby Wilkinson takes us inside a tribal society with a pre-monetary economy and decadent, divine kings who ruled with all-too-recognizable human emotions. Here are the legendary leaders: Akhenaten, the “heretic king,” who with his wife Nefertiti brought about a

revolution with a bold new religion; Tutankhamun, whose dazzling tomb would remain hidden for three millennia; and eleven pharaohs called Ramesses, the last of whom presided over the militarism, lawlessness, and corruption that caused a political and societal decline. Filled with new information and unique interpretations, *The Rise and Fall of Ancient Egypt* is a riveting and revelatory work of wild drama, bold spectacle, unforgettable characters, and sweeping history. “With a literary flair and a sense for a story well told, Mr. Wilkinson offers a highly readable, factually up-to-date account.”—*The Wall Street Journal*  
 “[Wilkinson] writes with considerable verve. . . . [He] is nimble at conveying the sumptuous pageantry and cultural sophistication of pharaonic Egypt.”—*The New York Times*

Conditional Cash Transfer (CCT) programs aim to reduce poverty by making welfare programs conditional upon the receivers' actions. That is, the government only transfers the money to persons who meet certain criteria. These criteria may include enrolling children into public schools, getting regular check-ups at the doctor's office, receiving vaccinations, or the like. They have been hailed as a way of reducing inequality and helping households break out of a vicious cycle whereby poverty is

transmitted from one generation to another. Do these and other claims make sense? Are they supported by the available empirical evidence? This volume seeks to answer these and other related questions. Specifically, it lays out a conceptual framework for thinking about the economic rationale for CCTs; it reviews the very rich evidence that has accumulated on CCTs; it discusses how the conceptual framework and the evidence on impacts should inform the design of CCT programs in practice; and it discusses how CCTs fit in the context of broader social policies. The authors show that there is considerable evidence that CCTs have improved the lives of poor people and argue that conditional cash transfers have been an effective way of redistributing income to the poor. They also recognize that even the best-designed and managed CCT cannot fulfill all of the needs of a comprehensive social protection system. They therefore need to be complemented with other interventions, such as workfare or employment programs, and social pensions.
