A New Way of Getting Children to Sleep Simon and Schuster

"Sleeplessness gets the Susan Sontag illness-as-metaphor treatment in this pensive, compact, lyrical inquiry into the author's nighttime demons." —Kirkus Reviews In 2016, Samantha Harvey began to lose sleep. She tried everything to appease her wakefulness: from medication to therapy, changes in her diet to changes in her living arrangements. Nothing seemed to help. *The Shapeless Unease* is Harvey's darkly funny and deeply intelligent anatomy of her insomnia, an immersive interior monologue of a year without one of the most basic human needs. Original and profound, and narrated with a lucid breathlessness, this is a startlingly insightful exploration of memory, writing and influence, death and the will to survive, from "this generation's Virginia Woolf" (Telegraph). "Captures the essence of fractious emotions—anxiety, fear, grief, rage—in prose so elegant, so luminous, it practically shines from the page. Harvey is a hugely talented writer, and this is a book to relish." —Sarah Waters, New York Times–bestselling author "Harvey writes with hypnotic power and poetic precision about—well, about everything: grief, pain, memory, family, the night sky, a lake at sunset, what it means to dream and what it means to suffer and survive. . . The big surprise is that this book about 'shapeless unease' is, in the end, a glittering, playful and, yes, joyful celebration of that glorious gift of glorious life." —Daily Mail "What a spectacularly good book. It is so controlled and yet so wild. . . easily one of the truest and best books I've read about what it's like to be alive now, in this country." —Max Porter, award-winning author of *Lanny*

Beauty's Kingdom Pan Macmillan

Long-listed for the Man Booker Prize, a novel about violence, love, and religion in modern India On a train bound for the seaside town of Jarmuli, known for its temples, three elderly women meet a young documentary filmmaker named Nomi, whose braided hair, tattoos, and foreign air set her apart. At a brief stop en route, the women witness a sudden assault on Nomi that leaves her stranded as the train pulls away. Later in Jarmuli, among pilgrims, priests, and ashrams, the women disembark only to find that Nomi has managed to arrive on her own. What is someone like her, clearly not a worshipper, doing in this remote place? Over the next five days, the women live out their long-planned dream of a holiday together; their temple guide pursues a forbidden love; and Nomi is joined by a photographer to scout locations for a documentary. As their lives overlap and collide, Nomi's past comes into focus, and the serene surface of the town is punctured by violence and abuse as Jarmuli is revealed as a place with a long, dark history that transforms all who encounter it. A haunting, vibrant novel that was long-listed for the Man Booker Prize and the DSC Prize for South Asian Literature and short-listed for the Hindu Literary Prize, Anuradha Roy's *Sleeping on Jupiter* is a brilliantly told story of contemporary India from an internationally acclaimed writer.

Simon and Schuster

He looked down at the little girl, sleeping peacefully, her arms wrapped around a teddy bear. He knew he was the only one who could save her. He could let her sleep forever. An eight-year-old girl, Chelsea Compton, is missing in Pine Valley, California and for Detective Katie Scott it's a cruel reminder of the friend who disappeared from summer camp twenty years ago. In Sweden, hundreds of refugee children fall into a state that resembles sleep for months or years at a time. In *Le Roy*, a town in upstate New York, teenage girls develop involuntary twitches and seizures that spread like a contagion. In the U.S. Embassy in Cuba, employees experience headaches and memory loss after hearing strange noises during the night. These are only a few of the many suspected culture-bound psychosomatic syndromes—specific sets of symptoms that exist in a particular culture or environment—that affect people throughout the world. In *The Sleeping Beauties*, Dr. Suzanne O'Sullivan—an award-winning Irish neurologist—investigates psychosomatic disorders, traveling the world to visit communities suffering from these so-called mystery illnesses. From a derelict post-Soviet mining town in Kazakhstan to the Mosquito Coast of Nicaragua to the heart of the María Mountains in Colombia, O'Sullivan records the remarkable stories of syndromes related to her by people from all walks of life. Riveting and often distressing, these case studies are recounted with compassion and humanity. In examining the complexity of psychogenic illness, O'Sullivan has written a book of both fascination and serious concern as these syndromes continue to proliferate around the globe.

Go the Fk to Sleep** *Are You Sleeping* A Novel

When Danzy Senna's parents got married in 1968, they seemed poised to defy history. They were two brilliant young American writers from wildly divergent backgrounds—a white woman with a blue-blood Bostonian lineage and a black man, the son of a struggling single mother and an unknown father. They married in a year that seemed to separate the past from the present; together, these two would snub the histories that divided them and embrace a radical future. When their marriage

disintegrated eight years later, it was, as one friend put it, "the ugliest divorce in Boston's history"—a violent, traumatic war that felt all the more heartrending given the hopeful symbolism of their union. Decades later, Senna looks back not only at her parents' divorce but beyond it, to the opposing American histories that her parents had tried so hard to overcome. On her mother's side of the family she finds—in carefully preserved documents—the chronicle of a white America both illustrious and shameful. On her father's she discovers, through fragments and shreds of evidence, a no less remarkable history. As she digs deeper into this unwritten half of the story, she reconstructs a long buried family mystery that illuminates her own childhood. In the process, she begins to understand her difficult father, the power and failure of her parents' union, and, finally, the forces of history. *Where Did You Sleep Last Night?* is at once a potent statement of personal identity, a challenging look at the murky waters of American ancestry, and an exploration of narratives—the narratives we create and those we forget. Senna has given us an unforgettable testimony to the paradoxes—the pain and the pride—embedded in history, family, and race.

This is the first full-length collection of poems by Heather O'Neill, a writer and performer living in Montreal. *two eyes are you sleeping* is a linked collection of personal and political lyrics, written in a voice that reflects both the rootlessness and violence of the urban landscape and a metaphorical brilliance that transforms the ordinary into the visionary. These are poems of the street, poems of defenselessness, strength, perversity and generosity, poems of drug addicts, alcoholics, con-men and sexual adventurers, poems to shout out in the bathtub with the radio blaring out the song you loved when you were fourteen. Most of all they are about growing up human in the drab beauty of the city. *Critical Comment* i...witty, penetrating, imaginative, visual, and emotional. î ó Canadian Literature, Autumn 2000 i...[Not] just poems.... three-penny opera, early-morning police statement and the slurring song of vagabonds like magpies on methadone.î ó *Matrix*, Spring 1999 i...Harsh familiarity and inventive language...creates a sense of urgency....[A] poetic exploration of poverty and single motherhood.î ó *Montreal Review of Books*, Summer 1999

Fueled by passion, Lucas resolves to uncover the details of Angela's suspected death, to bring some closure to their small community and to his wife. It was the summer before high school and the two quickly became inseparable. Although Jess, Meg's older neighbor, was the safe choice, she couldn't let go of Dylan and the history they shared no matter how hard she tried.
