The Power of Positive Thinking Vintage

"I am convinced that the fortunate individuals who achieve the most in life are invariably activated by enthusiasm." -- Norman Vincent Peale

If you have a tough time coping with life's disturbances, disappointments, and challenges, this book is for you. Dr. Peale offers a simple, sure-fire solution for stress: a healthy dose of enthusiasm. Enthusiasm is the magic ingredient that can make the difference between success and failure, and it can help you to:

- improve your problem-solving abilities
- overcome your fears
- sharpen your mind
- make your job more rewarding
- calm your tensions
- build self-confidence
- kindle the powerful motivation that

makes things happen **The Little Engine That Could** Penguin

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the

toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit's* most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard

Thing Rule; and so much more. Wittingly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (*The Wall Street Journal*).

 For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us

pay for bottled water. In *The Life You Can Save*, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. *The Life You Can Save* teaches us to be a part of the solution, helping others as we help ourselves.

Why Good People are Divided by Politics and Religion Knopf Books for Young Readers

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

If a hungry little traveler shows up at your house, you might want to give him a cookie. If you give him a cookie, he's going to ask for a glass of milk. He'll want to look in a mirror to make sure he doesn't have a milk mustache, and then he'll

ask for a pair of scissors to give himself a trim.... The consequences of giving a cookie to this energetic mouse run the young host ragged, but young readers will come away smiling at the antics that tumble like dominoes through the pages of this delightful picture book.

For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring *Outside* magazine to name him *The Fittest (Real) Man in America*. In this curse-word-free edition of *Can't Hurt Me*, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this *The 40% Rule*, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

#1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME
The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring

stories of our time. “The kind of book that can be life-changing.” —The New York Times “Deserves a place on the same shelf with The Diary of a Young Girl by Anne Frank.”

You Have More Influence Than You Think: How We Underestimate Our Power of Persuasion, and Why It Matters W.

Norton & Company
A charming, practical, and unsentimental approach to putting a home in order while reflecting on the tiny joys that make up a long life. In Sweden there is a kind of decluttering called *döstädning*, *dö* meaning “death” and *städning* meaning “cleaning.” This surprising and invigorating process of clearing out unnecessary belongings can be undertaken at any age or life stage but should be done sooner than later, before others have to do it for you. In *The Gentle Art of Swedish Death Cleaning*, artist Margareta Magnusson, with Scandinavian humor and wisdom, instructs readers to embrace minimalism. Her radical and joyous method for putting things in order

helps families broach sensitive conversations, and makes the process uplifting rather than overwhelming. Margareta suggests which possessions you can easily get rid of (unworn clothes, unwanted presents, more plates than you'd ever use) and which you might want to keep (photographs, love letters, a few of your children's art projects). Digging into her late husband's tool shed, and her own secret drawer of vices, Margareta introduces an element of fun to a potentially daunting task. Along the way readers get a glimpse into her life in Sweden, and also become more comfortable with the idea of letting go.

If You Give a Mouse a Cookie 25th Anniversary Edition Random House
There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly,

try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way—and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a

blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.

BEAUTIFUL WORLD, WHERE ARE YOU

Princeton University Press

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Positive thinking helps accomplish so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are without having positive aspirations on leadership. The petty environment

surrounding us also has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your children, stand firm and resist resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the finest thinking minds such as Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book *Paradise Lost*, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting

observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking big indeed works. When you look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around. [Go If You Think it Your Duty](#) BalboaPress In one way or another, we all carry trauma. It can manifest as anxiety, shame, low self-esteem, over-eating, under-eating, addiction, depression, confusion, people-pleasing, under-earning, low mood, negative thinking, social anxiety, anger, brain fog and more. Traumas, big or 'little', leave us trapped in cycles of dysfunctional behaviours, negative thoughts and difficult feelings. Yet many people are unaware they're stuck in old reactions and patterns that stem from their past traumas. Many of us are wary of the word and push it away instead of moving towards it and learning how to break

free. Dr Sarah Woodhouse is a Research Psychologist who specialises in trauma and is passionate about helping people face this word and their past. In *You're Not Broken* she teaches you what a trauma is (it's probably not what you think), and how to recognise when, why and how your past is holding you back. She gently explains the pitfalls of ignoring awkward, upsetting episodes and how true freedom comes from looking back at your past with honesty. Then, sharing the latest research-based techniques and her own personal experience, she guides you towards breaking the trauma loop, reawakening your true self and reclaiming your future. [Break free from trauma and reclaim your life](#) Simon and Schuster Having it all sounds like a bold claim, right? In fact, many would say that it is impossible to truly have it all. Well, I believe that it IS possible to have financial, family, health, and spiritual success. Don't believe me? Then you need to read this book. I spent over 10 years living what most would call the dream life. I was making great money, traveling the world, and

impacting thousands. At the same time, I was 40lbs. overweight, depressed, and disconnected from my son. It wasn't until I hit a breaking point that I began to discover an effective process that allowed me to regain my family, take back my health, make more money than I ever imagined, and experience a high level of

peace every day. If you want to have it all too, join me on this journey and watch your life transform.
