Artemis has to join forces with the fairies to save his father who was kidnapped by the Russians.

Artemis Fowl HarperCollins Children's Books

A powerfully moving, award-winning graphic novel that explores the current plight of undocumented immigrants from New York Times bestselling author Eoin Colfer and the team behind the Artemis Fowl graphic novels. How can a human being be illegal for simply existing? Ebo

is alone. His brother, Kwame, has disappeared, and Ebo knows it can only be to attempt the hazardous journey to Europe, and a better life—the same journey their sister set out on months ago. But Ebo refuses to be left behind in Ghana. He sets out after Kwame and joins him on the quest to reach Europe. Ebo's epic journey takes him across the Sahara Desert to the dangerous streets of Tripoli, and finally out to the merciless sea. But with every step he holds on to his hope for a new life, and a reunion with his family. An achingly poignant tale for learning about immigration and current global issues. This book is fiction, but it is based on a very real and terrible journey. There are young people who have lived this, and it is a story those young people want us to know about. 2019 Excellence in Graphic Literature

One week after their eleventh birthday, the Fowl twins--scientist Myles, and Beckett, the force of nature--are left in the care of house security (NANNI) for a single night. In that time they befriend a troll who has clawed his way through the earth's crust to the surface.

Unfortunately for the troll, he is being chased by a nefarious nobleman and an interrogating nun, who both need the magical creature for their own gain, as well as a fairy-in-training who has been assigned to protect him. The boys and their new troll best friend escape and go on the run. Along the way they get shot at, kidnapped, buried, arrested, threatened, killed (temporarily), and discover that the strongest bond in the world is not the one forged by covalent electrons in adjacent atoms, but the one that exists between a pair of twins.

National Geographic Books

Ten thousand years ago, humans and fairies fought a great battle for the magical island of Ireland. When it became clear to the fairy families that they could never win, they decided to move their civilization underground and keep themselves hidden from the humans. All the fairy families agreed on this, except the 8th family, the demons. The demons planned to lift their small island out of time until they had regrouped and were ready to wage war on the humans once more. However the time spell went wrong, and the island of Hybras was catapulted into Limbo, where it has remained for ten thousand years. Now, the tainted time spell is deteriorating and demons are being sucked back into the present space and time. The fairy Council is naturally concerned about this and is monitoring any materializations. When the spell's deterioration accelerates, the materializations become unpredictable. Even the fairy scientists cannot figure out where the next demon will pop up. But someone can. Artemis Fowl, teenage criminal mastermind has solved temporal equations that no normal

human should be intelligent enough to understand. So when a confused and frightened demon pops up in a Sicilian theatre, Artemis Fowl is there to meet him. Unfortunately, he is not the only one. A second, mysterious party has also solved the temporal equations, and has managed to abduct the demon before Artemis can secure him. This is a disaster for the fairy people, as this demon was no ordinary fairy. He was the last demon warlock, the one who held the key to the survival of the entire demon race. It is up to Artemis and his old comrade, Captain Holly Short, to track down the missing demon and rescue him, before the time spell dissolves completely and the lost demon colony returns violently to Earth.
