ALBERT OCONNOR

The Global Education
 Effect and Japan

Routledge

This book sheds light on
 all aspects of earnings

claims, including defining
 what an earnings claim
 really is, the origins of its
 regulation under the
 franchise disclosure laws,
 how a franchisor should
 prepare an earnings
 claim, how a franchisee
 should use an earnings

claim, how a franchisee
 may attack lawful and
 unlawful earnings claims,
 how a franchisor may
 defend against such
 attacks, and how the
 government franchise
 enforcement authorities,
 investigate unlawful

earnings claim activity. Living Emunah Prion (GB) Cliff and Salena are happily living a nice, normal life in the suburbs. But their neighbors, Jimmy and Polly, threaten to disrupt their domestic bliss. They're sometimes a little strange—and sometimes completely unhinged. Equally unnerving and delightful, **TURNING OFF THE MORNING NEWS** takes hilarious aim at the absurdity of our modern world.

Financial Performance Representations

Financial Performance Representations
Miette lives with her retired father and meets the handsome but wilful Peter who falls passionately in love with her. Tormented by jealousy he pursues her and they marry. Their idyll is destroyed by the onset of war, when Peter joins the army and ends up a prisoner of war of the Russians.

TWO PRISONERS

American Bar Association
This volume investigates the "global education effect"—the impact of global education initiatives on institutional and individual practices and perceptions—with a special focus on the

dynamics of border construction, recognition, subversion, and erasure regarding "Japan". The Japanese government's push for global education has taken shape mainly in the form of English-medium instruction programs and bringing in international students who sometimes serve as a foreign workforce to fill the declining labour force. Chapters in this volume draw from education, anthropology, sociology, linguistics, and psychology to examine the ways in which demographic changes, economic concerns, race politics, and nationhood intersect with the efforts to "globalize" education and create specific "global education effects" in the Japanese archipelago. This book will provide a valuable resource for anyone who is interested in Japanese studies and global education. Dramatists Play Service, Inc.

This book sets out some of the latest scientific findings around the evolutionary development of religion and faith and then explores their theological implications. This unique combination of perspectives raises fascinating questions about the characteristics

that are considered integral for a flourishing social and religious life and allows us to start to ask where in the evolutionary record they first show up in a distinctly human manner. The book builds a case for connecting theology and evolutionary anthropology using both historical and contemporary sources of knowledge to try and understand the origins of wisdom, humility, and grace in 'deep time'. In the section on wisdom, the book examines the origins of complex decision-making in humans through the archaeological record, recent discoveries in evolutionary anthropology, and the philosophical richness of semiotics. The book then moves to an exploration of the origin of characteristics integral to the social life of small-scale communities, which then points in an indirect way to the disposition of humility. Finally, it investigates the theological dimensions of grace and considers how artefacts left behind in the material record by our human ancestors, and the perspective they reflect, might inform contemporary concepts of grace. This is a cutting-

edge volume that refuses to commit the errors of either too easy a synthesis or too facile a separation between science and religion. As such, it will be of interest to scholars of religious

studies and theology – especially those who interact with scientific fields – as well as academics working in anthropology of religion. Turning Off the Morning News Routledge
