Yale University Press

"This book provides a timely and original overview of the Dissolution of the Monasteries and its longer term affects on the social and physical landscape of England and Wales during the decades that followed. Whilst primarily focusing on archaeological material, the book also encompasses a range of diverse historical sources. It is aimed at students and scholars seeking an introduction to the main debates surrounding the Dissolution, as well as providing original in-depth case studies to illustrate these"-

*Monastic and Religious Orders in Britain,
1000-1300* Boydell & Brewer Ltd

This book traces the development of monasticism in England, Scotland and Wales from 1000 to 1300. It explores the nature of the impact of the Norman Settlement on monastic life, how Britain responded to new, European ideas, and

also to the needs of religious women. Every aspect of the life and work of the religious orders is covered, from their daily life to their contribution to intellectual developments. Particular attention is paid to the relationships between religious houses and their founders and patrons, showing the degree of dependence on local patrons and the tension between the religious life and the pressures of the world.

[Monastic and Religious Orders in Britain, 1000-1300](#) Clarendon Press

An absorbing look at the major social and religious upheaval that we call the dissolution of the monasteries. A Pitkin Guide for anyone interested in history or religion.

[The Monastic Order in England](#) The Monastic Order in England

Dom David Knowles surveys the monastic life and activities in the early Tudor period. He examines different abbots, bishops and others that shed new light on the fortunes of the Cistercian abbeys and on the influence upon the monks of the new humanist education.

The Monastic Order in England

Cambridge University Press

This fascinating account of daily life in Westminster Abbey, one of medieval England's most important monastic communities is also a broad exploration of some major themes in the social history of the Middle Ages, by one of its most distinguished historians. - ;This is an authoritative account of daily life in Westminster Abbey, one of medieval England's greatest monastic communities. It is also a wide-ranging exploration of some major themes in the social history of the Middle Ages and early sixteenth century, by one of its most distinguished historians. Barbara Harvey exploits the exceptionally rich archives of the Benedictine foundation of Westminster to the full, offering numerous vivid insights into the lives of the Westminster monks, their dependants, and their benefactors. She examines the charitable practices of the monks, their food and drink, their illnesses and their deaths, the number and conditions of employment of their servants, and their controversial practice of granting corrodies (pensions made up

in large measure of benefits in kind). All these topics Miss Harvey considers in the context both of religious institutions in general, and of the secular world. Full of colour and interest, *Living and Dying in England* is an original and highly readable contribution to medieval history, and that of the early sixteenth century. - ;By one of the greatest authorities on the subject -

The Dissolution of the Monasteries in England and Wales

Cambridge University Press

This book is a comprehensive study of the constitutional developments of the monastic orders in Britain between 1000 and 1300.

Book Production by the Monastic Orders in England (c. 1375-1530)

Equinox Publishing (Indonesia)

This book was originally published in 1940 and was quickly recognised as a scholarly classic and masterpiece of historical literature. It covers the period from about 940, when St Dunstan inaugurated the monastic reform by becoming abbot of Glastonbury, to the early thirteenth century.

The Dissolution of the Monasteries Pitkin Unichrome, Limited

Explores the seismic impact of the dissolution of the monasteries, offering a new perspective on the English Reformation.

The Monastic Order in England. A History of Its Development from the Times of St. Dunstan to the Fourth Lateran Council, 943-1216 Cambridge University Press
Essays provide evidence for the vigour and involvement of religious orders in the years immediately prior to the reformation.

The monastic order in England

Cambridge University Press

The monastic life was of central importance in the Middle Ages. In one

sense, monasteries were cut off from the world; in another, they forged vital links with it. This is a study of the regional growth of monasticism between 1069 and 1215, in what was the largest county in England. It studies those who entered monastic communities, and the impact of the growth of monasticism on the aristocracy (who founded and patronized monasteries) and the local community, on the landscape and economy of the county, and on regional identity.

The Monastic Order in England, by Dom David Knowles Cambridge University Press

The first account of the dissolution of the monasteries for fifty years—exploring its profound impact on the people of Tudor England “This is a book about people, though, not ideas, and as a detailed account of an extraordinary human drama with a cast of thousands, it is an exceptional piece of historical writing.”—Lucy Wooding, Times Literary Supplement Shortly before Easter, 1540 saw the end of almost a millennium of monastic life in England. Until then religious houses had acted as a focus for education, literary, and artistic expression and even the creation of regional and national identity. Their closure, carried out in just four years between 1536 and 1540, caused a dislocation of people and a disruption of life not seen in England since the Norman Conquest. Drawing on the records of national and regional archives as well as archaeological remains, James Clark explores the little-known lives of the last men and women who lived in England’s monasteries before the Reformation. Clark challenges received wisdom, showing that buildings were not immediately demolished and Henry VIII’s subjects were so attached to the

religious houses that they kept fixtures and fittings as souvenirs. This rich, vivid history brings back into focus the prominent place of abbeys, priories, and friaries in the lives of the English people.

The Monastic Order in England Oxford

University Press

Monasticism in late medieval England,

c.1300-1535 provides the first collection

of translated sources on this subject. The

volume covers both male and female

houses of all orders and sizes, and offers

a range of new perspectives on the

character and reputation of English

monasteries in the later middle ages.

The first section surveys the internal

affairs of English monasteries, including

recruitment, the monastic economy,

standards of observance and learning.

The second part looks at the relations

between monasteries and the world,

exploring the monastic contribution to

late medieval religion and society and

lay attitudes towards monks and nuns in

the years leading up to the Dissolution.

This book is an ideal introduction to this

topic for students and scholars.

Supported by an extended and

accessible introduction this collection of documents gives an unrivalled insight into the last phase of monastic life in medieval England.

THE MONASTIC ORDER IN ENGLAND, ETC. (REPRINTED WITH CORRECTIONS.).

Hassell Street Press

The Monastic Order in England by Dom David Knowles was originally published in 1940 and was quickly recognised as a scholarly classic and masterpiece of historical literature. It covers the period from about 940, when St Dunstan inaugurated the monastic reform by

becoming abbot of Glastonbury, to the early thirteenth century. Its core is a marvellous narrative and detailed analysis of monasticism in twelfth-century England, brilliantly set in the continental background of all the monastic movements of the day - with a vivid evocation of Anselm, Ailred, Henry of Blois and a host of other central figures. Dom David himself brought this second edition up to date in 1963.
